"Information technology is a backbone of our organization," explained Shaver. "Superior information technology enables us to provide our customers with the latest information about our products and ensures we can support their businesses as efficiently as possible. Information technology also makes our business run more effectively which improves our own productivity and speed to market."

Mr. Weis joins Axalta from Sensata Technologies, the world's leading supplier of sensors and controls, where he served as Vice President & General Manager of the company's Magnetic Speed and Position business. Mr. Weis had also been Sensata's first Chief Information Officer and created the strategic plan for information technology integration during the company's separation from Texas Instruments and subsequent IPO. From 2003 through 2006, he was Vice President, Business Applications and Enabling Technologies at Tyco International in Princeton, NJ. Previously, he held a number of positions of increasing responsibility associated with managing information technology at Siemens between
