Axalta to Feature its Celebrated line of Voltatex Energy Solutions Products at Coil Winding, Insulations and Electrical Manufacturing Exhibition in Chicago

GLEN MILLS, Pa.--(BUSINESS WIRE)-- Axalta Coating Systems (NYSE: AXTA) continues to celebrate its 150th anniversary in the coatings industry with its display of Voltatex[®] family of Energy Solutions coatings at the Coil Winding, Insulations and Electrical Manufacturing Exhibition (CWIEME) October 4-6 at the Donald E. Stephens Convention Center in Chicago, Illinois.

For more than 70 years, Axalta has offered an extensive line of Voltatex electrical insulation products including wire enamels, impregnating resins and core sheet varnishes that are designed to work together to improve operating efficiencies of the materials they coat. Voltatex core sheet insulation varnishes, mainly applied by coil coating technology, are formulated for fast curing in a tunnel oven that allows for increased production at a high quality level. Voltatex core sheet varnishes are suitable for high speed curing.

The Axalta Energy Solutions coatings utilize unique materials and processes to offer products designed for high heat-resistance, high mechanical stability, and excellent adherence to copper and resistance to transformer oil. These products can be applied to everything from fine wire for miniaturized electronic components to heavy round and rectangular conductors for large motors, as well as small electrical motors, and large generators and transformers.

To learn more about Voltatex products, stop by the Axalta booth B20 at CWIEME in Chicago or visit www.axaltacs.com.
