Axalta Showcases Energy Solutions Coatings at EASA Convention

GLEN MILLS, Pa.--(BUSINESS WIRE)-- Axalta Coating Systems (NYSE: AXTA), a leading global supplier of liquid and powder coatings, will exhibit at the Electrical Apparatus Service Association, Inc. (EASA) Convention at the Tampa Convention Center in Tampa, Florida on June 26-28, 2017. Attendees may visit Axalta's booth #948 to speak with coatings experts about the company's extensive portfolio of electrical insulation materials and coatings including its highly regarded Voltatex® line of products. The EASA is an international trade organization that provides members with a means of keeping up to date on electromechanical materials, equipment, and state-of-the-art technology.

Axalta will showcase its Energy Solutions products, which have a proven track record with major manufacturers of electrical equipment across all segments, including energy generation, transformation and distribution, industrial motors, household appliances and power tools, automotive components, and electrical motors for the power-train of electric and hybrid electric vehicles. Energy Solutions has been an international leader in the manufacture of high-quality and high-performance insulation coatings for more than 70 years.

"Axalta offers a unique opportunity at EASA 2017 to discover fresh ideas for impregnation resins," said Rich Munson, North America Sales Manager for Axalta. "Axalta is an industry leader in low emission technology for high and low voltage resins which are produced to automotive standards. Our Energy Solutions group has a rich history with a reputation for performance and we look forward to sharing new ideas during this exceptional event."

To learn more about Axalta's Energy Solutions products, visit www.axalta.com.

In addition to the exhibition venue, the EASA Convention offers a daily schedule of educational seminars given by notable industry experts and keynote speakers. To learn more about EASA, visit www.easa.com.
