Axalta Showcases Imron High Performance Commercial Vehicle Coatings at Bus Expo 2017 in China

SHANGHAI--(BUSINESS WIRE)-- Axalta Coating Systems (NYSE: AXTA), a leading global supplier of liquid and powder coatings, will display its Imron[®] high performance coating for the heavy-duty and commercial automotive sector at the Bus Expo 2017 which begins today and runs through August 11. Held at the Shanghai New International Expo Center, the exhibition is the largest, most distinguished trade exhibition targeting the bus and passenger vehicle industries in Asia. Initiated by chinautc.com, an official website of the Chinese Academy of Urban Planning and Design, it is jointly hosted by the City Public Transportation Academy of China Civil Engineering Society and Shanghai Public Transportation Association. Axalta's booth A032 is in Hall E1.

"China's public transportation systems are developing at a stable pace due to rapid urbanization. We work with our customers to enable the transportation sector to accommodate this increasing growth," said Jack Jiang, Business Director of Commercial Vehicle Coatings at Axalta in China. "Axalta's Imron products are designed to help commercial vehicle manufacturers meet productivity goals and increasingly challenging global and Chinese environmental regulations while providing a brilliant finish."

Axalta's Imron polyurethane enamel has been the finish of choice for leading, bus, rail, and heavy-duty truck manufacturers around the world. The Imron family of coatings is designed to provide excellent durability, outstanding graffiti resistant performance on topcoats and clears, reliable corrosion protection, and excellent resistance to chemicals and weathering, as well as shock and impact protection. As key products of the family, Imron Hydro and Imron Elite have lower VOC emission and comply with regulations in China and a number of other markets.
