Axalta releases RAL 9006 as its latest addition to the AR500 collection.

RAL 9006 is a premium powder coating that provides a smooth, silver metallic finish and is formulated to deliver the highest level of color and gloss retention. In addition to excellent color properties, AR500 RAL 9006 is formulated to provide weatherability, performance and impact protection necessary to withstand extremely harsh climates.

“We are excited to release RAL 9006 to the Alestia AR500 powder coating family,” said Manny Mayer, Axalta Architectural

Business
Development

Manager. "As part of our architectural portfolio, AR500 RAL 9006 provides a beautiful finish with chemical and corrosion resistance. We take pride in being at the forefront of innovation to meet the demands of the industry."

Applied primarily on aluminum substrates, RAL 9006 meets or exceeds the American Architectural Manufacturers Association 2605 specifications. The ultra-durable coating emits virtually no volatile organic compounds, making it a sustainable and environmentally responsible choice.
