## New Cummins C1000N6B and C1300N6 NFPA 110 Type 10 capable natural gas generator sets

SHOREVIEW, Minn., May 17, 2021 /PRNewswire/ -- [Cummins Inc.](#) (NYSE: CMI) is proud to announce the launch of the C1000N6B and C1300N6 NFPA 110 Type 10 capable natural gas generator sets for peaking and standby power applications.

---

"We are excited to offer our customers a natural gas-powered generator set designed with all the critical requirements of the standby market."

---

Designed for ease of commissioning and installation, the QSK60G gas generator series meets NFPA 110, 10-second start with UL2200 and CSA22.2 listings. This generator set is delivered with a skid-mounted radiator, Cummins PowerCommand 3.3 controller and circuit breaker options. Weather-protective enclosures composed of galvalume or

aluminum provide peace of mind against the elements and a high level of sound-attenuation.

*"We are excited to offer our customers a natural gas-powered generator set designed with all the critical requirements of the standby market," said Vipul Tandon, President of Cummins Power Generation North America. "It's based on the Cummins-proven QSK60G platform and rooted in our core Integrated Solution design that our customers have come to depend on."*

The Cummins QSK60G engine is a proven prime mover, bringing established reliability and impressive performance, including 100% block load acceptance to meet the most critical standby applications. The QSK60G holds a factory EPA certificate for emergency and non-emergency applications.

Learn how the C1000N6B and C1300N6 NFPA 110 Type 10 capable natural gas generator sets can support power generation requirements by reaching out to any of Cummins' 8000 distributors/dealer locations globally.
