Douglas Dynamics Announces Fourth Quarter and Full Year 2013 Results

Snowfall Drives Record 2013 Fourth Quarter Revenue; Full Year Adjusted Diluted EPS Increased 108%

Highlights:

- **Fourth Quarter 2013 net sales increased 159% compared to a year ago to a record \$73.0 million**
- **Fourth quarter 2013 Diluted EPS increased \$0.43 year-over-year**
- **Full year 2013 net sales increased 39% compared to 2012, to \$194.3 million**
- **Full year 2013 Adjusted EBITDA increased 50% compared to 2012, to \$44.6 million**
- **Board approves and declares Q1 2014 quarterly dividend increase of 2.35% to \$0.2175 per share**

MILWAUKEE, March 10, 2014 (GLOBE NEWSWIRE) -- Douglas Dynamics, Inc. (NYSE:PLOW), the North American leader in the design, manufacture and sale of snow and ice control equipment for light trucks, today announced financial results for the fourth quarter and full year ended December 31, 2013.

Fourth Quarter Results

In the fourth quarter of 2013, net sales were \$73.0 million, representing a 158.9% increase from the corresponding period in 2012. The increase in sales during the quarter reflects increased demand related to higher than average snowfall levels across core markets compared to the fourth quarter of 2012, which saw lower than average snowfall and additional sales of products related to the business of TrynEx, Inc., which the Company acquired in May of 2013.

James L. Janik, President and Chief Executive Officer of the Company, commented, "Record fourth quarter sales signify a continued improvement in business conditions compared to last year, as snowfall levels were strong across core markets. Our financial results underscore the importance of our operational excellence and the competitive advantage of our manufacturing flexibility and supply chain, which enabled us to adapt efficiently to increased levels of demand and strengthen our relationships with our dealers."

Fourth quarter gross margin as a percentage of sales was positively impacted by higher

volume. Total gross margin as a percent of sales in the fourth quarter of 2013 increased 10.9 percentage points versus the same period in 2012 as a result of the operating leverage impact from the increase in revenues.

Net income was \$8.5 million, or \$0.38 per diluted share based on weighted average shares of 22.1 million, in the fourth quarter of 2013 compared to a net loss of (\$1.0) million, or (\$0.05) per diluted share based on weighted average shares of 21.9 million, in the fourth quarter of 2012. Included in the 2013 results are \$0.1 million of non-cash purchase accounting adjustments related to the TrynEx acquisition.

The Company reported Adjusted EBITDA of \$19.8 million for the fourth quarter of 2013, compared to Adjusted EBITDA of \$4.2 million for the fourth quarter of 2012.

Full Year Results

For the full year 2013, net sales were \$194.3 million, representing a 38.8% increase from 2012. This increase was primarily driven by increased sales of both equipment units and parts and accessories, plus the addition of the TrynEx products. Sales of parts and accessories increased 78.5% year-over-year to \$29.9 million for the full year 2013 from \$16.7 million in 2012. Sales of \$12.9 million related to TrynEx products also contributed to the increase in sales revenue.

For the full year 2013, cost of sales increased 33.9% from \$96.1 million in 2012 to \$128.7 million in 2013. This increase was driven primarily by higher unit volume.

Net income was \$11.6 million, or \$0.51 per diluted share based on weighted average shares of 22.1 million shares, for the full year 2013 compared to net income of \$6.0 million, or \$0.26 per diluted share based on weighted average shares of 22.0 million shares, for the full year 2012. The full-year 2013 results include certain non-cash purchase accounting adjustments attributable to the acquisition of the TrynEx business in May 2013, which negatively impacted earnings per share in 2013 by (\$0.20). The adjustments of \$4.5 million, net of tax, are primarily reflected in the increase in selling, general and administrative expenses of \$12.0 million due to the \$4.0 million in earn out compensation expenses recorded in conjunction with the acquisition. As previously disclosed, the TrynEx acquisition is expected to be accretive to earnings per share on a full-year basis in 2014 and free cash flow positive on a stand-alone basis in 2014.

The Company reported Adjusted EBITDA of \$44.6 million for the full year 2013, a 49.9% increase compared to Adjusted EBITDA of \$29.7 million for the full year 2012.

The effective tax rate for the full year 2013 was 38.8%.

Balance Sheet and Liquidity

For the full year 2013, the Company reported net cash provided by operating activities of \$32.2 million compared to net cash provided by operating activities of \$15.6 million in 2012, an increase of \$16.6 million. This improvement was driven by an increase in net income adjusted for non-cash items of \$13.8 million over 2012 and an increase in cash driven by changes in working capital.

Inventory was \$28.0 million at the end of the fourth quarter of 2013, a decrease of \$2.3

million. Inventory excluding TrynEx products decreased \$6.3 million compared to the end of the fourth quarter of 2012 as a result of higher sales volumes in 2013. The decline in inventory was partially offset by the addition of \$4.0 million of TrynEx product inventory at year end 2013.

Accounts receivable at the end of the fourth quarter of 2013 were \$42.3 million, which includes \$4.7 million for TrynEx products. This compares to \$25.4 million at the end of the fourth quarter of 2012.

After making a \$13.7 million payment to reduce revolver debt incurred in connection with the TrynEx acquisition, the Company maintained cash on hand at December 31, 2013 of \$19.9 million.

Dividend Policy

As previously reported, on December 10, 2013, the Company declared a quarterly cash dividend of \$0.2125 per share on its common stock. The declared \$0.2125 per share cash dividend was paid on December 31, 2013, to stockholders of record as of the close of business on December 23, 2013.

The Company also announced that beginning this year, the Company plans to review its dividend policy in conjunction with fourth quarter results when it can fully evaluate its liquidity towards the end of the snow season following the end of the year. Previously, the Company had reviewed its dividend policy during the third quarter. In conjunction with the shift in timing of the Company's dividend policy review, its board of directors approved and declared a quarterly cash dividend increase of 2.35% to \$0.2175 per share of the Company's common stock. The declared \$0.2175 per share cash dividend will be paid on March 31, 2014 to stockholders of record as of the close of business on March 21, 2014.

Mr. Janik noted, "The board's decision to raise the dividend is the result of two factors. First, the increase marks a shift in the timing of the review of our dividend policy to better assess our liquidity near the end of each snow season and determine how to best allocate capital to drive value for shareholders. Second, the increase reflects our on-going confidence in the Company's financial strength and ability to generate strong cash flows."

Outlook

Based on 2013 results, dealer sentiment and industry trends, the Company expects net sales for the full year 2014 to range from \$200 million to \$260 million and Adjusted EBITDA to range from \$40 million to \$70 million. Earnings per share are expected to range from \$0.65 per share to \$1.20 per share.

Mr. Janik explained, "Following the challenging market conditions we saw in 2012, the positive results for 2013 mark an important step in what we anticipate is a two year return to normal business conditions. As we progress further into 2014, we are encouraged by sustained strong snowfall levels across many of our core markets in the early part of our first quarter and positive non-snowfall indicators within our business such as significantly lower field inventory, strong retail re-order sales, improving dealer sentiment as well as continually improving light truck sales. We remain steadfast in our focus on enhancing margins and leveraging our industry leading product portfolio, which includes our record number of new

product launches in 2013 and our TrynEx assets, to better serve the needs of our customers. We will continue to invest prudently in 2014 and beyond to drive future growth and profitability."

Webcast Information

The Company will host an investor conference call on Tuesday, March 11, 2014 at 10:00 a.m. Central Time. The conference call will be available on the Internet through the Investor Relations section of the Company's website at www.douglasdynamics.com. To listen to the live call, please go to the website at least fifteen minutes early to register, download and install any necessary audio software. For those who cannot listen to the live broadcast, an Internet replay will be available shortly after the call.

About Douglas Dynamics

Douglas Dynamics is the North American leader in the design, manufacture and sale of snow and ice control equipment for light trucks, which consists of snowplows and sand and salt spreaders, and related parts and accessories. The Company is also a leading manufacturer of turf and other commercial/industrial grounds control products. The Company sells its products under the WESTERN®, FISHER®, BLIZZARD®, SNOWEX®, TURFEX® and SWEEPEX® brands which are among the most established and recognized in the industry. Additional information is available at www.douglasdynamics.com

Use of Non-GAAP Financial Measures

This press release contains financial information calculated other than in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). These non-GAAP measures include:

- Adjusted net income (loss);
- Adjusted earnings (loss) per diluted share; and
- Adjusted EBITDA.

These non-GAAP disclosures should not be construed as an alternative to the reported results determined in accordance with GAAP.

Adjusted net income (loss) and adjusted earnings (loss) per diluted share represent net income (loss) and earnings (loss) per diluted share, respectively, as determined under GAAP, excluding a loss recognized on impairment of assets held for sale. The Company believes that the presentation of adjusted net income (loss) and adjusted earnings (loss) per diluted share for the three and twelve months ended December 31, 2013 and December 31, 2012 allows investors to make meaningful comparisons of the Company's operating performance between periods and to view its business from the same perspective as its management. Because the excluded item is not predictable or consistent, management does not consider it when evaluating the Company's performance or when making decisions regarding allocation of resources.

Adjusted EBITDA represents net income (loss) before interest, taxes, depreciation and amortization, as further adjusted for certain charges related to certain unrelated legal fees and consulting fees, impairment on assets held for sale, certain purchase accounting

expenses and stock based compensation. The Company uses, and believes its investors benefit from the presentation of, Adjusted EBITDA in evaluating the Company's operating performance because Adjusted EBITDA provides the Company and its investors with additional tools to compare its operating performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect the Company's core operations. In addition, the Company believes that Adjusted EBITDA is useful to investors and other external users of its consolidated financial statements in evaluating the Company's operating performance as compared to that of other companies, because it allows them to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets and liabilities, capital structure and the method by which assets were acquired. The Company's management also uses Adjusted EBITDA for planning purposes, including the preparation of its annual operating budget and financial projections, and to evaluate the Company's ability to make certain payments, including dividends, in compliance with its senior credit facilities, which is determined based on a calculation of "Consolidated Adjusted EBITDA" that is substantially similar to Adjusted EBITDA.

Consistent with Regulation G under the U.S. federal securities laws, the non-GAAP measures in this press release have been reconciled to the nearest GAAP measures, and this reconciliation is located under the headings "Net Income (Loss) to Adjusted EBITDA Reconciliation" and "Reconciliation of Net Income (Loss) to Adjusted Net Income (Loss)" following the Consolidated Statements of Cash Flows included in this press release.

Forward Looking Statements

This press release contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. These statements include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation, product demand, the payment of dividends, and availability of financial resources. These statements are often identified by use of words such as "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," "will" and similar expressions and include references to assumptions and relate to our future prospects, developments and business strategies. Such statements involve known and unknown risks, uncertainties and other factors that could cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, weather conditions, particularly lack of or reduced levels of snowfall and the timing of such snowfall, a significant decline in economic conditions, our inability to maintain good relationships with our distributors, lack of available or favorable financing options for our end-users or distributors, increases in the price of steel or other materials necessary for the production of our products that cannot be passed on to our distributors, increases in the price of fuel, the inability of our suppliers to meet our volume or quality requirements, inaccuracies in our estimates of future demand for our products, our inability to protect or continue to build our intellectual property portfolio, the effects of laws and regulations and their interpretations on our business and financial condition, our inability to develop new products or improve upon existing products in response to end-user needs, losses due to lawsuits arising out of personal injuries associated with our products, factors that could

impact the future declaration and payment of dividends, our inability to compete effectively against competition, our inability to achieve the projected financial performance with the TrynEx assets and unexpected costs or liabilities related to the acquisition of the TrynEx assets, as well as those discussed in the section entitled "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2012. You should not place undue reliance on these forward-looking statements. In addition, the forward-looking statements in this release speak only as of the date hereof and we undertake no obligation, except as required by law, to update or release any revisions to any forward-looking statement, even if new information becomes available in the future.
