Capstone Green Energy Invited to Participate in Chardan's Disruptive Tech Leadership Call Series

Live Virtual Event Scheduled for April 20, 2022, at 3:30 pm ET

VAN NUYS, Calif.--(BUSINESS WIRE)-- [Capstone Green Energy Corporation](#) (NASDAQ: CGRN), a global leader in carbon reduction and on-site resilient green Energy as a Service (EaaS) solutions, announced today that Darren Jamison, President and Chief Executive Officer (CEO) of Capstone Green Energy has been invited to participate in the upcoming Chardan-hosted Disruptive Tech Leadership Call Series on Wednesday, April 20 at 3:30 pm ET.

The Leadership Call Series features management teams from leading disruptive technology companies discussing their business and key industry trends in a fireside chat-style format. All discussions are moderated by Chardan SPAC and Disruptive Technologies Analyst, Brian Dobson.

"I look forward to the opportunity to speak with Brian Dobson on the upcoming Leadership Series Call, where I will provide a corporate update and share how Capstone Green Energy is expanding its Energy-as-a-Service business providing comprehensive green energy solutions for businesses worldwide that are not only beneficial to the planet, but to the customer's bottom line," said Darren Jamison, President and CEO of Capstone Green Energy. "During the call, I will also be discussing in more detail some of the exciting highlights for Capstone, such as our recent announcement on achieving our goal of 30% Hydrogen blend-compatible products and achieving our stated goal of reaching 21 megawatts of Energy-as-a-Service long-term rental units under contract."

Interested investors may request attendance to the live virtual event by emailing Chardan corpaccess@chardan.com.

About Capstone Green Energy

Capstone Green Energy (www.CapstoneGreenEnergy.com) (NASDAQ: CGRN) is a leading provider of customized microgrid solutions and on-site energy technology systems focused on helping customers around the globe meet their environmental, energy savings, and resiliency goals. Capstone Green Energy focuses on four key business lines. Through its Energy as a Service (EaaS) business, it offers rental solutions utilizing its microturbine energy systems and battery storage systems, comprehensive Factory Protection Plan (FPP) service contracts that guarantee life-cycle costs, as well as aftermarket parts. Energy Generation Technologies (EGT) are driven by the Company's industry-leading, highly efficient, low-emission, resilient microturbine energy systems offering scalable solutions in

addition to a broad range of customer-tailored solutions, including hybrid energy systems and larger frame industrial turbines. The Energy Storage Solutions (ESS) business line designs and installs microgrid storage systems creating customized solutions using a combination of battery technologies and monitoring software. Through Hydrogen & Sustainable Products (H2S), Capstone Green Energy offers customers a variety of hydrogen products, including the Company's microturbine energy systems.

For customers with limited capital or short-term needs, Capstone offers rental systems; for more information, contact: rentals@CGRNenergy.com. To date, Capstone has shipped over 10,000 units to 83 countries and estimates that, in FY21, it saved customers over \$217 million in annual energy costs and approximately 397,000 tons of carbon. Total savings over the last three full fiscal years are estimated to be approximately \$698 million in energy savings and approximately 1,115,100 tons of carbon savings.
