AURORA, Ill.--(BUSINESS WIRE)-- Westell Technologies, Inc. (NASDAQ: WSTL), a leading provider of broadband products, outside plant telecommunications equipment and conferencing services, today announced results for its fiscal fourth quarter and year ended March 31, 2010. Total revenue for the quarter was \$37.8 million, down 32% from \$56.0 million in the fiscal fourth quarter of the prior year. Net income during the quarter was \$2.7 million, or \$0.04 per diluted share, compared to a net loss of \$1.9 million, or a loss of \$0.03 per diluted share, in the same quarter of the prior year.

Total revenue for the 2010 fiscal year was \$181.5 million, down 2% from \$185.9 million in the prior year. Net income during the year was \$10.3 million, or \$0.15 per diluted share, compared to a net loss of \$16.6 million, or a loss of \$0.24 per diluted share, in the prior year. Total cash and cash equivalents were \$61.3 million at March 31, 2010, up \$15.3 million during the year. Share repurchases during the fiscal year totaled approximately 1.25 million shares at a cost of \$1.4 million.

"We are very proud of the dramatic turnaround in our results for the year," said Chairman and CEO Rick Gilbert. "Westell has now delivered solid, steady profitability and cash flow for four consecutive quarters during a very difficult economic environment. Looking forward, our objective is to maintain our profit momentum while investing selectively in growth opportunities."

Fiscal Fourth Quarter Segment and Consolidated Results

The Customer Networking Solutions (CNS) segment reported revenue of \$14.1 million in the fourth quarter of fiscal 2010, down 54% compared to \$30.9 million in the same quarter of the prior year, reflecting soft marketplace demand, customer inventory rebalancing, and market share impacts. The largest impact on revenue came from lower sales of the Company's UltraLine Series3 gateway product, which were \$0.5 million in the quarter, compared with \$14.6 million in the same quarter of the prior year. In spite of the significantly lower revenue, CNS gross profit increased by \$0.1 million, and operating expenses dropped by \$2.3 million, compared with the prior-year quarter. As a result, the CNS operating loss declined to \$1.7 million for the quarter, an improvement of \$2.4 million compared with the same quarter in the prior year.

Revenue in the OSPlant Systems (OSP) segment was \$13.3 million in the quarter, down 8% compared to \$14.4 million in the same quarter of the prior year, also reflecting soft demand and customer inventory rebalancing. Gross profit increased \$0.5 million as a result of a more profitable product mix, and operating expenses declined \$0.6 million, to produce operating income for OSP of \$3.5 million, up \$1.1 million versus the prior-year quarter.

ConferencePlus (CP) revenue was \$10.4 million in the quarter, down 2% compared to \$10.6 million in the same quarter of the prior year. Gross profit increased by \$0.7 million and operating expenses were \$0.6 million lower, resulting in operating income of \$1.6 million, up \$1.3 million versus the prior-year quarter.

On a consolidated basis, revenue was \$18.2 million lower for the 2010 fiscal fourth quarter than in the prior-year quarter. However, gross profit increased \$1.3 million, compared with the prior-year quarter, based on higher gross margins in all three segments. Consolidated gross margins were 37.4%, compared with 22.9% in the same quarter of the prior year. Operating expenses declined \$3.7 million, compared with the prior year's quarter. The higher gross profit and lower expenses drove a \$4.7 million improvement in net income compared with the prior year's quarter.

Fiscal Year 2010 Segment and Consolidated Results

The CNS segment reported revenue of \$87.2 million in fiscal year 2010, up 4% compared to \$84.2 million in fiscal year 2009. Gross profit increased \$6.2 million for the year, while operating expenses were cut by \$10.4 million, producing an operating loss of \$4.1 million - a net improvement of \$16.6 million for the year.

Revenue in the OSP segment was \$52.5 million in fiscal year 2010, down 7% compared to \$56.5 million in fiscal year 2009. Gross profit was \$0.2 million higher, and operating expenses were \$4.1 million lower, raising operating profit by \$4.4 million, to \$13.1 million for the year.

ConferencePlus revenue was \$41.7 million in fiscal year 2010, down 8% compared to \$45.2 million in fiscal year 2009. Gross profit of \$20.3 million was essentially unchanged between periods, and reduced operating expenses drove a \$3.8 million improvement in operating income, to \$4.5 million for the year.

On a consolidated basis, annual revenue was lower by \$4.4 million, or 2%, compared with fiscal year 2009. Gross profit for the year increased \$6.5 million, compared to fiscal year 2009, as a result of improved gross margins in all segments. Margins generally benefited

from shifts towards higher margin products as well as lower product and service costs. Operating expenses improved by \$20.1 million for the year, reflecting significantly lower personnel-related expenses, following restructuring actions, together with tight controls on spending. These were the main contributors to a dramatic \$26.9 million improvement in net income for the year, to \$10.3 million, compared with a net loss of \$16.6 million in the prior year.
