With the impact of the first quarter's severe winter weather behind us, we delivered strong revenue growth and a solid income performance for the quarter."

Commenting on the Forward Air, Inc. (FAI) business segment, Mr. Campbell said, "On the strength of a full quarter of revenue and results from Central States Trucking Co. (CST), which we acquired in February, improving year-over-year tonnage volumes and a full quarter benefit from our March general rate increase, FAI achieved record revenue and operating income during the second quarter of 2014. CST contributed approximately \$18.1 million of revenue and \$2.3 million of operating income during the second quarter of 2014."

Commenting on the Forward Air Solutions (Solutions) segment, Mr. Campbell said, "Driven by a full quarter benefit from general rate increases initiated in the first quarter, continued excellent operating discipline and solid revenue growth, Solutions produced operating income of approximately \$1.0 million. Compared to the prior-year quarter results, Solutions operating results improved over \$1.2 million, or 600.0%."

Addressing the Total Quality, Inc. (TQI) business segment, Mr. Campbell said, "TQI experienced solid revenue growth and significant improvement in operating income as a result of pharmaceutical distribution opportunities that emerged during the second quarter and benefits derived from our new operating system implemented in the first quarter."

In closing, Mr. Campbell said, "As always, I would like to thank the Forward Air team of employees and independent contractors for their dedication and hard work. This truly was a quarter that all our operating groups made a positive contribution to our overall results."

Commenting on the Company's guidance for the third quarter, Rodney L. Bell, Senior Vice President and CFO said, "We anticipate that our third quarter 2014 revenues will increase in the range of 18% to 22% over the comparable 2013 period. We expect income per diluted share to be between \$0.57 and \$0.61 per share. This compares to \$0.46 per share in the third quarter of 2013."

On July 22, 2014, our Board of Directors declared a quarterly cash dividend of \$0.12 per share of common stock. The dividend is payable to shareholders of record at the close of business on August 21, 2014, and is expected to be paid on September 5, 2014.

This quarterly dividend is pursuant to a cash dividend policy approved by the Board of Directors, which anticipates a total annual dividend of \$0.48 per share of common stock, payable in quarterly increments of \$0.12 per share of common stock. The actual declaration of future cash dividends, and the establishment of record and payment dates, is subject to final determination by the Board of Directors each quarter after its review of the Company's financial performance.

Total Quality, Inc. utilizes industry-leading temperature-controlled equipment, 24-hour monitoring and tracking technology and layered security features to provide our customers with the highest level of service. factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The following is a list of factors, among others, that could cause actual results to differ materially from those contemplated by the forward-looking statements: economic factors such as recessions, inflation, higher interest rates and downturns in customer business cycles, our inability to maintain our historical growth rate because of a decreased volume of freight moving through our network or decreased average revenue per pound of freight moving through our network, increasing competition and pricing pressure, surplus inventories, loss of a major customer, the creditworthiness of our customers and their ability to pay for services rendered, our ability to secure terminal facilities in desirable locations at reasonable rates, the inability of our information systems to handle an increased volume of freight moving through our network, changes in fuel prices, claims for property damage, personal injuries or workers' compensation, employment matters including rising health care costs, enforcement of and changes in governmental regulations, environmental and tax matters, the handling of hazardous materials, the availability and compensation of qualified independent owner-operators and freight handlers needed to serve our transportation needs and our inability to successfully integrate acquisitions. As a result of the foregoing, no assurance can be given as to future financial condition, cash flows or results of operations. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
