About Airgain, Inc.

Airgain is a leading provider of advanced wireless connectivity solutions and technologies used to enable high performance wireless networking across a broad range of devices and markets, including consumer, enterprise, and automotive. Airgain's mission is to connect the world through advanced antenna systems and integrated wireless solutions. Combining design-led thinking with testing and development, Airgain's technologies are deployed in carrier, fleet, enterprise, residential, private, government, and public safety wireless networks and systems, including set-top boxes, access points, routers, modems, gateways, media adapters, portables, digital televisions, sensors, fleet, and asset tracking devices. Through its pedigree in the design, integration, and testing of high performance embedded antenna technology, Airgain has become a leading provider to the residential WLAN market, supplying to leading carriers, OEMs, ODMs, and chipset manufacturers who depend on Airgain to achieve their wireless performance goals. Airgain is headquartered in San Diego, California, and maintains design and test centers in the U.S., U.K., and China.
