The increase was attributable to market appreciation of \$1.6 billion and net client inflows of \$0.6 billion. Silvercrest's total AUM increased by \$2.7 billion, or 14.5%, to \$21.3 billion at December 31, 2017 from \$18.6 billion at December 31, 2016. The increase was attributable to market appreciation of \$2.1 billion and net client inflows of \$0.6 billion.

Fourth Quarter 2017 vs. Fourth Quarter 2016

Revenue increased by \$3.3 million, or 15.6%, to \$24.5 million for the three months ended December 31, 2017, from \$21.2 million for the three months ended December 31, 2016. This increase was driven primarily by growth in our management and advisory fees as a result of increased AUM and performance fees earned.

Total expenses increased by \$1.5 million, or 8.1%, to \$19.3 million for the three months ended December 31, 2017 from \$17.9 million for the three months ended December 31, 2016. Compensation and benefits expense increased by \$0.9 million, or 6.7%, to \$14.5 million for the three months ended December 31, 2017 from \$13.6 million for the three months ended December 31, 2016. The increase was primarily attributable to an increase in

the accrual for bonuses of \$0.8 million and an increase in salary expense of \$0.1 million as a result of both merit-based increases and increased headcount. General and administrative expenses increased by \$0.6 million, or 12.9%, to \$4.8 million for the three months ended December 31, 2017 from \$4.2 million for the three months ended December 31, 2016. This increase was primarily due to an increase in occupancy and related costs of \$0.4 million, an increase in professional fees of \$0.2 million, an increase in sub-advisory fees of \$0.3 million as a result of increased sub-advised revenue, an increase in travel and entertainment expenses of \$0.1 million and an increase in depreciation and amortization of \$0.1 million, partially offset by a change in the fair value of estimated earnout payments of \$0.2 million and a decrease in bad debt expense of \$0.3 million.

Consolidated net income was \$1.9 million or 7.8% of revenue for the three months ended December 31, 2017 as compared to \$2.5 million or 11.7% of revenue for the same period in the prior year. Net loss attributable to Silvercrest was (\$0.1) million, or (\$0.01) per basic and diluted share for the three months ended December 31, 2017. Included in the \$(0.1) million net loss attributable to Silvercrest for the quarter are approximately \$2.0 million of net charges related to the partial write offs of deferred tax assets and the tax receivable agreement liability as a result of the reduction in the federal corporate tax rate. Our Adjusted Net Income¹ was \$3.6 million, or \$0.27 per adjusted basic share and \$0.26 per adjusted diluted share² for the three months ended December 31, 2017.

Adjusted EBITDA¹ was \$7.6 million or 31.0% of revenue for the three months ended December 31, 2017 as compared to \$5.9 million or 27.8% of revenue for the same period in the prior year.

Year Ended December 31, 2017 vs. Year Ended December 31, 2016

Revenue increased by \$11.1 million, or 13.8%, to \$91.4 million for the year ended December 31, 2017, from \$80.3 million for the year ended December 31, 2016. This increase was driven primarily by growth in our management and advisory fees as a result of increased assets under management and performance fees earned.

Total expenses increased by \$5.4 million, or 8.2%, to \$71.0 million for the year ended December 31, 2017 from \$65.6 million for the year ended December 31, 2016. This increase was primarily attributable to increases in compensation and benefits expense of \$5.1 million and an increase in general and administrative expenses of \$0.2 million. The increase in compensation and benefits expense was primarily attributable to an increase in the accrual for bonuses of \$4.3 million, an increase in benefits costs of \$0.1 million and an increase in salaries expense of \$0.7 million primarily as a result of merit-based increases. The increase in general and administrative expenses was primarily due to an increase in occupancy and related costs of \$0.6 million, an increase in professional fees of \$0.2 million, an increase in travel and related expenses of \$0.2 million, an increase in insurance costs of \$0.1 million, an increase in sub-advisory and referral fees of \$0.1 million related to increased sub-advised revenue and an increase in depreciation and amortization of \$0.1 million. This was partially offset by a decrease in investment research costs of \$0.5 million mainly due to a reduction in soft dollar-related research cost conversions, a decrease in business taxes of \$0.1 million, a decrease in client reimbursements of \$0.1 million, a decrease in the fair value of earnout payments related to the acquisitions of Milbank Winthrop & Co. ("Milbank") and Jamison, Eaton and Wood, Inc. ("Jamison") of \$0.3 million and a decrease in office expenses of \$0.1

million.

Consolidated net income was \$12.5 million or 13.7% of revenue for the year ended December 31, 2017 as compared to \$10.0 million or 12.4% of revenue for the same period in the prior year. Net income attributable to Silvercrest was \$5.3 million, or \$0.66 per basic and diluted share for the year ended December 31, 2017. Included in the \$5.3 million net income attributable to Silvercrest for 2017 are approximately \$2.0 million of net charges related to the partial write offs of deferred tax assets and the tax receivable agreement liability as a result of the reduction in the federal corporate tax rate.

Silvercrest's Adjusted Net Income¹ was \$13.1 million, or \$0.99 and \$0.95 per adjusted basic and diluted share², respectively, for the year ended December 31, 2017.

Adjusted EBITDA¹ was \$27.9 million or 30.5% of revenue for the year ended December 31, 2017 as compared to \$22.5 million or 28.0% of revenue for the same period in the prior year.

¹ Adjusted measures are non-GAAP measures and are explained and reconciled to the comparable GAAP measures in Exhibits 3 and 4.

² Adjusted basic and diluted earnings per share measures for the year ended December 31, 2017 are based on the number of shares of Class A common stock and Class B common stock outstanding as of December 31, 2017. Adjusted diluted earnings per share are further based on the addition of unvested deferred equity units, restricted stock units, and performance units to the extent dilutive at the end of the reporting period.

³ We have computed average AUM by averaging AUM at the beginning of the applicable period and AUM at the end of the applicable period.

Non-GAAP Financial Measures

To provide investors with additional insight, promote transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making, we supplement our consolidated financial statements presented on a basis consistent with GAAP with Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Income, and Adjusted Earnings Per Share which are non-GAAP financial measures of earnings. These adjustments, and the non-GAAP financial measures that are derived from them, provide supplemental information to analyze our operations between periods and over time. Investors should consider our non-GAAP financial measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

- EBITDA represents net income before provision for income taxes, interest income, interest expense, depreciation and amortization.

- We define Adjusted EBITDA as EBITDA without giving effect to the Delaware franchise tax, professional fees associated with acquisitions or financing transactions, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings of the Company, taking into account earnings attributable to both Class A and Class B shareholders.
- Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA Margin, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring profitability of the Company, taking into account profitability attributable to both Class A and Class B shareholders.
- Adjusted Net Income represents recurring net income without giving effect to professional fees associated with acquisitions or financing transactions, losses on forgiveness of notes receivable from our principals, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. Furthermore, Adjusted Net Income includes income tax expense assuming a blended corporate rate of 40%. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Net Income, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring income of the Company, taking into account income attributable to both Class A and Class B shareholders.
- Adjusted Earnings Per Share represents Adjusted Net Income divided by the actual Class A and Class B shares outstanding as of the end of the reporting period for basic Adjusted Earnings Per Share, and to the extent dilutive, we add unvested deferred equity units, restricted stock units and performance units to the total shares outstanding to compute diluted Adjusted Earnings Per Share. As a result of our structure, which includes a non-controlling interest, we feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Earnings Per Share, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings per share of the Company as a whole as opposed to being limited to our Class A common stock.
