Business Update

Volatile economic and market conditions primarily affected Silvercrest’s performance in the second quarter of 2022. The firm also experienced net outflows due to substantial client tax payments. The firm’s discretionary assets under management (“AUM”), which drives revenue, decreased to \$20.4 billion as of the end of the second quarter of 2022 from \$22.9 billion as of the end of the same period in 2021. The firm’s quarterly Adjusted EBITDA¹ was approximately \$9.2 million, an annualized Adjusted EBITDA¹ run-rate of \$36.7 million. Silvercrest’s second quarter 2022 Adjusted EBITDA margin¹ was 28.5%, a healthy margin in light of declining AUM and associated revenue.

Silvercrest increased relationships during the second quarter and new accounts increased over the first quarter, partially offsetting outflows for client taxes. Silvercrest’s institutional equity new business opportunities increased during the second quarter. Silvercrest’s suite of proprietary equity capabilities continued solid performance, which portends good future growth in the business. Our sub-advisory relationships continued to add assets during the second quarter of 2022.

Market volatility and uncertainty create long-term opportunities that typically benefit the high-quality of Silvercrest’s capabilities, and we look forward to more stable markets. Our tenure in the business has proven that our firm has the professional resources, ability, and strategy to execute through difficult periods to build a growing and enduring business. We are pleased with Silvercrest’s continued stable progress over time.

Second Quarter 2022 vs. Second Quarter 2021

Revenue decreased by \$0.9 million, or 2.8%, to \$32.2 million for the three months ended June 30, 2022, from \$33.1 million for the three months ended June 30, 2021. This decrease was driven by market depreciation and net client outflows in discretionary assets under management.

Total expenses decreased by \$5.5 million, or 21.3%, to \$20.3 million for the three months ended June 30, 2022 from \$25.8 million for the three months ended June 30, 2021. Compensation and benefits expense decreased by \$0.5 million, or 2.7%, to \$18.0 million for the three months ended June 30, 2022 from \$18.5 million for the three months ended June 30, 2021. The decrease was primarily attributable to a decrease in the accrual for bonuses of \$0.9 million partially offset by an increase in salaries and benefits of \$0.4 million primarily as a result of merit-based increases and newly hired staff. General and administrative expenses decreased by \$5.0 million, or 68.4%, to \$2.3 million for the three months ended June 30, 2022 from \$7.3 million for the three months ended June 30, 2021. This was primarily attributable to a decrease in the adjustment to the fair value of contingent consideration related to the Cortina Acquisition of \$5.7 million, a decrease in trade errors of \$0.2 million and a decrease in occupancy and related costs of \$0.1 million primarily due to a decrease in cleaning and maintenance costs, partially offset by an increase in travel and entertainment expenses of \$0.5 million due to the easing of restrictions related to the coronavirus pandemic, an increase in portfolio and systems expense of \$0.2 million, an increase in professional fees of \$0.2 million and an increase in shareholder related expenses of \$0.1 million.

Revenue increased by \$1.4 million, or 2.1%, to \$65.7 million for the six months ended June 30, 2022, from \$64.3 million for the six months ended June 30, 2021. This increase was driven by net client inflows partially offset by market depreciation.

Compensation and benefits expense increased by \$0.5 million, or 1.4%, to \$36.6 million for the six months ended June 30, 2022 from \$36.1 million for the six months ended June 30,

2021. The increase was primarily attributable to an increase in salaries and benefits of \$1.0 million primarily as a result of merit-based increases and newly hired staff, partially offset by a decrease in the accrual for bonuses of \$0.2 million and a decrease in equity-based compensation expense of \$0.3 million due to a decrease in the number of vested and unvested restricted stock units and unvested non-qualified stock options outstanding. General and administrative expenses decreased by \$13.5 million, or 88.7%, to \$1.7 million for the six months ended June 30, 2022 from \$15.2 million for the six months ended June 30, 2021. This was primarily attributable to a decrease in the adjustment to the fair value of contingent consideration related to the Cortina Acquisition of \$14.5 million and a decrease in occupancy and related costs of \$0.2 million primarily due to a decrease in cleaning and maintenance costs and a decrease in trade errors of \$0.2 million, partially offset by an increase in travel and entertainment expenses of \$0.6 million due to the easing of restrictions related to the coronavirus pandemic, an increase in portfolio and systems expense of \$0.4 million, an increase in professional fees of \$0.2 million, an increase in shareholder related expense of \$0.1 million and an increase in sub-advisory referral fee expense of \$0.1 million.

Non-GAAP Financial Measures

To provide investors with additional insight, promote transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making, we supplement our consolidated financial statements presented on a basis consistent with GAAP with Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, and Adjusted Earnings Per Share which are non-GAAP financial measures of earnings. These adjustments, and the non-GAAP financial measures that are derived from them, provide supplemental information to analyze our operations between periods and over time. Investors should consider our non-GAAP financial measures

in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

- EBITDA represents net income before provision for income taxes, interest income, interest expense, depreciation and amortization.
- We define Adjusted EBITDA as EBITDA without giving effect to the Delaware franchise tax, professional fees associated with acquisitions or financing transactions, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings of the Company, taking into account earnings attributable to both Class A and Class B shareholders.
- Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA Margin, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring profitability of the Company, taking into account profitability attributable to both Class A and Class B shareholders.
- Adjusted Net Income represents recurring net income without giving effect to professional fees associated with acquisitions or financing transactions, losses on forgiveness of notes receivable from our principals, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. Furthermore, Adjusted Net Income includes income tax expense assuming a blended corporate rate of 26%. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Net Income, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring income of the Company, taking into account income attributable to both Class A and Class B shareholders.
- Adjusted Earnings Per Share represents Adjusted Net Income divided by the actual Class A and Class B shares outstanding as of the end of the reporting period for basic Adjusted Earnings Per Share, and to the extent dilutive, we add unvested restricted stock units and non-qualified stock options to the total shares outstanding to compute diluted Adjusted Earnings Per Share. As a result of our structure, which includes a non-controlling interest, we feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Earnings Per Share, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings per share of the Company as a whole as opposed to being limited to our Class A common stock.
