

TrueBlue Reports Fourth Quarter 2007 Results

TACOMA, Wash .-- (BUSINESS WIRE) --

TrueBlue, Inc. (NYSE:TBI) today reported revenue for the fourth quarter ended Dec. 28, 2007 of \$353.6 million, an increase of 4.6 percent from \$338.1 million for the fourth quarter of 2006. For the fourth quarter of 2007, the company generated net income of \$14.4 million or \$0.33 per diluted share, a decrease from \$21.6 million or \$0.42 per diluted share for the fourth quarter of 2006. The fourth quarter of 2006 included an additional \$4.2 million of net income from the reinstatement of the Work Opportunity Tax Credit and other tax matters.

"Our focus on revenue growth and disciplined cost containment continues to drive our performance, despite the difficult operating environment," said TrueBlue CEO Steve Cooper. "During the quarter, we closed 27 branches and made other changes across our operations to adjust for current conditions."

Revenue for the quarter from branches open 12 months or longer decreased 0.2 percent while revenue from acquisitions provided 5.3 percent of revenue growth over the same period a year ago. Other items such as branch openings, branch closings, and the impact of currency decreased revenue by 0.5 percent.

"During 2007, we took significant strategic steps toward our goal of becoming the leading provider of blue-collar staffing," said Cooper. "We returned \$150 million of capital to shareholders by purchasing our own stock; we made two acquisitions to fuel future growth; and we renamed our company to clarify our niche approach to branding and growing our company."

For the first quarter of 2008, TrueBlue estimates revenue in the range of \$312 million to \$317 million, with net income per diluted share for the quarter in the range of \$0.18 to \$0.20.

Management will discuss fourth quarter 2007 results on a conference call at 2 p.m. (PT), Wednesday Jan. 30, 2008. The conference call can be accessed on TrueBlue's web site: www.TrueBlueInc.com.

This news release contains forward-looking statements, such as statements about the ranges of revenues, gross margins and net income anticipated for future periods, improvements in safety and workers' compensation claims and costs, strategies for increasing revenue and net income, and other factors that may affect TrueBlue's financial results and operations in the future. TrueBlue's actual results are, however, subject to a number of risks, including without limitation the following: 1) national and global economic conditions, including the impact of changes in national and global credit markets and other changes on TrueBlue customers; 2) TrueBlue's ability to continue to attract and retain customers and maintain profit margins in the face of new and existing competition; 3)

potential new laws and regulations that could have a materially adverse effect on TrueBlue's operations and financial results; 4) significant labor disturbances which could disrupt industries TrueBlue serves; 5) increased costs and collateral requirements in connection with TrueBlue's insurance obligations, including workers' compensation insurance; 6) the adequacy of TrueBlue's financial reserves; 7) TrueBlue's continuing ability to comply with financial covenants in its lines of credit and other financing agreements; 8) TrueBlue's ability to attract and retain competent employees in key positions or to find temporary employees or skilled trade workers to fulfill the needs of our customers; 9) TrueBlue's ability to successfully complete and integrate acquisitions that it may make from time to time; 10) TrueBlue's ability to timely execute strategies for acquired companies; and 11) other risks described in TrueBlue's filings with the Securities and Exchange Commission, including its most recent Form 10-K and Form 10-Q filings.
