PeopleScout is Now Largest RPO Globally by Volume, Named “Major Contender” on Everest Group PEAK Matrix™ of RPO Service Providers in Asia-Pacific

CHICAGO--(BUSINESS WIRE)-- PeopleScout is now the largest RPO provider in the world by volume, according to the Everest Group, and was named a Major Contender on Everest's first annual PEAK Matrix™ of the recruitment process outsourcing (RPO) service provider landscape in Asia-Pacific. The report states that PeopleScout has the largest number of hires managed in the global market and is also one of the largest providers in the Asia-Pacific region.

“Our naming of PeopleScout as a Major Contender confirms its position as a key RPO provider in the Asia-Pacific region,” said Arkadev Basak, practice director, Everest Group. “The number of PeopleScout RPO clients with Asia-Pacific headquarters serves as evidence that the company's delivery centers in India and Australia and teams on the ground in China allow PeopleScout to provide much-needed local support to its clients.”

“We are pleased that Everest Group has recognized PeopleScout for the strength of its talent solution offerings in Asia-Pacific,” said PeopleScout President Taryn Owen. “Our commitment to the region, partnership with leading clients and the expertise and dedication of our local teams truly sets us apart in Asia-Pacific and around the globe.”

Everest Group's PEAK Matrix assessments are a framework used to assess the market success and overall delivery capability of service providers.

“This is a testament to the strength of our client partnerships,” said Nicole Cook, managing director of PeopleScout APAC. “We are proud of the relationships we have built throughout the region and look forward to continuing to implement innovative talent solutions for our clients.”

PeopleScout completed the integration of Australia-based RPO firm HRX in 2015, helping the company emerge as a major RPO provider in Australia, the largest market in the Asia-Pacific region.

Everest Group, a consulting and research firm that advises clients on global services, bases its ratings on market success and RPO delivery capability, which includes scale, scope, technology and innovation, delivery footprint and buyer satisfaction. Its PEAK Matrix is a leading assessment of outsourcing services used to make service provider choices. This is the first year Everest Group has published a [PEAK Matrix report on RPO service providers in Asia-Pacific](#).
