Hercules Capital Announces Multiple Outstanding Achievements by Numerous Investment Portfolio Companies

PALO ALTO, Calif.--(BUSINESS WIRE)-- [Hercules Capital, Inc.](#) (NYSE: HTGC) (“Hercules” or the “Company”), the largest and leading specialty financing provider to innovative venture growth stage companies backed by some of the leading U.S. and top tier venture capital and select private equity firms, today announced some of the latest achievements for the following select portfolio companies.

“It’s truly wonderful to see so many of our portfolio companies executing and achieving value-creating milestones. I was also delighted to see the number of portfolio companies which have filed registration statements in preparation for their potential IPO debuts, a level we have not seen in quite some time,” said Manuel A. Henriquez, chairman and chief executive officer of Hercules. “The ongoing success and progress achieved by many of our high quality, innovative portfolio companies reinforce their continued access to various forms of growth capital, which highlights their momentum and demonstrates the many benefits in selecting and working with a capital partner that has scale and a balance sheet as a source of strength.”

Henriquez added, “We enter 2019 with an optimistic outlook, as many of our portfolio companies are expecting to pursue and ideally complete exits through a combination of IPOs and M&As, as evidenced by our seven companies in registration. These milestone achievements are even more impressive when you consider the current volatile market environment and increasing uncertainty about a potential US economic slowdown.”

Hercules Portfolio Company Achievements

Recently Completed New Financings

- **BridgeBio Pharma LLC**, a biopharmaceutical company that finds, develops and delivers breakthrough medicines for genetic diseases, raised \$299.2 million to advance its genetic disease pipeline, which includes more than a dozen assets in preclinical and clinical development.
