Synchrony Partners with Sploot Veterinary Care to Finance Comprehensive Veterinary Services with CareCredit

CareCredit to be First Financing Solution Offered by Sploot, Giving Pet Owners Flexible Payment Options for Care

STAMFORD, Conn., June 24, 2025 /PRNewswire/ -- [Synchrony](#) (NYSE: SYF), a leading consumer financial services company, today announced a partnership with [Sploot Veterinary Care](#), a modern, pet-parent-first veterinary provider with locations in Denver, Chicago, and Colorado Springs. Sploot will offer Synchrony's CareCredit credit card as its first financing solution, providing pet owners with accessible financial solutions for comprehensive veterinary care, including advanced treatment options.

This partnership underscores a shared commitment to making the cost of veterinary care more manageable. By integrating CareCredit's financing options with the benefits of a [SplootPack membership](#), pet owners gain access to predictable savings and a flexible payment option for veterinary services – from routine check-ups to emergencies, advanced diagnostics and specialty treatments.

"At Synchrony, we understand that pets are family, and their health is a top priority," said Jonathan Wainberg, Senior Vice President and General Manager, Pet, Synchrony. "Our partnership with Sploot provides pet owners with the financing options they need to help ensure their pets receive the care they need, without compromise. With CareCredit as Sploot's first financing solution, we're breaking financial barriers and helping more pet owners to manage the cost of the veterinary care for their pets."

By partnering with CareCredit, Sploot is able to offer its clients an approachable financial

solution for both routine and more specialized veterinary services, bridging the gap that might otherwise lead to delayed or declined treatment for their pets.

"Sploot's mission is to redefine the veterinary experience – making exceptional care more accessible and helping ensure that every pet can receive the treatment they deserve," said Gil Bolotin, Co-CEO, Sploot. "By partnering with CareCredit, we're helping give pet parents the financial flexibility to say 'yes' to optimal care, whether it's advanced diagnostics or essential procedures, without the fear of managing costs."

Sploot customers can easily access CareCredit financing through a custom QR code and link, streamlining the application process. Pet owners can see if they prequalify for the CareCredit credit card in real time, with no impact to their credit score, and apply on any smart device or over the phone. A credit decision is typically provided within seconds, and if approved, they can use their account to pay for their pet's care right away, from routine check-ups to emergency treatments.

For more than 35 years, CareCredit has been a valuable financing option for all types of veterinary services, treatments and diagnostics at locations in the network, giving pet owners peace of mind that they are ready to care for their pets throughout their lifetime. CareCredit is accepted at more than 27,000 veterinary practices and all public university veterinary schools in the U.S. For more information, please visit www.carecredit.com.
