TNF Pharmaceuticals Strengthens Financial Position for Growth and Value Creation

Transforms present balance sheet with significant reduction in liabilities

Largest shareholder is long-term strategic investor

NEW YORK--(BUSINESS WIRE)-- TNF Pharmaceuticals, Inc. (Nasdaq: TNFA) ("TNF" or the "Company"), a clinical stage biopharmaceutical company committed to developing novel therapies for autoimmune and inflammatory conditions, today announced that it has significantly improved its financial position over the past 5 months through a material reduction in liabilities, while maintaining total assets of over \$17 million as of June 30, 2025.

"The recent significant improvement in our financial position gives TNF a stronger platform for growth opportunities and taking advantage of shareholder value creation opportunities," said TNF President and Chief Medical Officer, Mitchell Glass, M.D. "We are pleased to have the continued support of our largest investors, and look forward to updating investors on TNF's business developments in the near future, including our ongoing collaboration with Renova on GLP-induced inflammation and muscle damage."

The improvements in the Company's financial position will be reflected in future financial statements of the Company.

About TNF Pharmaceuticals, Inc.

TNF Pharmaceuticals, Inc. (Nasdaq: TNFA), a clinical stage pharmaceutical company committed to extending healthy lifespan, is focused on developing two novel therapeutic platforms that treat the causes of disease rather than only addressing the symptoms. Isomyosamine is a drug platform based on a clinical stage small molecule that regulates the immune system to control TNF- α , which drives chronic inflammation, and other pro-inflammatory cell signaling cytokines. Isomyosamine is being developed to treat diseases and disorders marked by acute or chronic inflammation. The Company's second drug platform, Supera-CBD, is being developed to treat chronic pain, addiction and epilepsy. Supera-CBD is a novel synthetic derivative of cannabidiol (CBD) and is being developed to address and improve upon the rapidly growing CBD market, which includes both FDA approved drugs and CBD products not currently regulated as drugs.
