Hercules Capital Surpasses \$1.0 Billion in Cumulative Distributions to Shareholders since IPO

Declares Cash Distribution of \$0.32 per Share for the Second Quarter of 2020

PALO ALTO, Calif.--(BUSINESS WIRE)-- [Hercules Capital, Inc.](#) (NYSE: HTGC) ("Hercules" or the "Company"), the largest and leading specialty finance provider to innovative, venture, growth and established stage companies backed by some of the leading and top-tier venture capital and select private equity firms, today announced that its Board of Directors has declared a second quarter 2020 cash distribution of \$0.32 per share.

"We are proud of the fact that this cash distribution payment marks a significant milestone for the Company and its shareholders," said Scott Bluestein, chief executive officer and chief investment officer of Hercules Capital. "Since June 2005, we have paid 60 consecutive quarterly base distributions on our common shares totaling in excess of \$1.0 billion. The ability to do this is a true testament to the resiliency of our venture lending platform and discipline of our seasoned investment team especially when considering the multiple credit cycles, interest rate changes and varying economic conditions the portfolio has been able to successfully navigate over the last 15 years."

The following shows the key dates of the second quarter 2020 distribution payment:

Record Date August 10,
2020

Payment Date August 17,
2020

Hercules' Board of Directors maintains a variable distribution policy with the objective of distributing four quarterly distributions in an amount that approximates 90% to 100% of the Company's taxable quarterly income or potential annual income for a particular year. In addition, during the year, the Company's Board of Directors may choose to pay additional supplemental distributions, so that the Company may distribute approximately all its annual taxable income in the year it was earned, or it can elect to maintain the option to spill over the excess taxable income into the coming year for future distribution payments.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of its distributions for a full year. Of the distributions declared during the quarter ended June 30, 2020, 100% were distributions derived from the Company's current and accumulated earnings and profits. There can be no certainty to stockholders that this determination is representative of the tax attributes of the

Company's 2020 full year distributions to stockholders.
