

BIOLASE Reports Second Quarter 2019 Results

- Second Quarter Gross Margin Increased Almost 370 Basis Points Year-Over-Year
- Second Quarter Operating Loss Decreased 29% Year-Over-Year

IRVINE, Calif., Aug. 8, 2019 /PRNewswire/ -- BIOLASE, Inc. (NASDAQ: BIOL), the global leader in dental lasers, today reported net revenue of \$8.7 million for the second quarter ended June 30, 2019, a decrease of 29% compared to the second quarter of 2018.

Second Quarter Highlights

- New customer growth, reduced expenses and a favorable change in product mix led to gross margin expansion of almost 370 basis points
- Operating expenses decreased 25% year over year
- Operating loss decreased 29% year over year
- U.S. consumables and other revenue increased 2% year over year
- Model market laser revenue, which includes Southern California and Dallas/Ft. Worth, increased 31% year over year

"Our second quarter performance reflects the impact of changes we made to drive our go-to-market strategy and strengthen the long-term growth prospects and profitability of our business," said Todd Norbe, President and Chief Executive Officer. "We are realigning our direct sales team to achieve these goals and have added new sales talent by actively recruiting through a new assessment process to hire the right personnel. During the second quarter, we also discontinued our imaging business that was selling at a loss and took steps to hold pricing and eliminate extended payment terms in our international business."

"At the same time, we saw continued growth in our Model Market revenue, which increased 31% year over year in the second quarter. We had great success with a new go-to-market sales strategy that we rolled out to the pediatric markets in Los Angeles/Orange County and Dallas. For this new program, we increased training and collaboration with the customer that resulted in a more than 60% increase in our customer acquisition. We expect to roll out this initiative in additional select geographic areas in the U.S. in the fourth quarter and are optimistic about this exciting new sales program, which is about putting education first."

"Through the prudent cost reductions, we were able to reduce our operating expenses by 25% and increase gross margin by almost 370 basis points in the second quarter despite lower revenue. The combination of our revenue-driving initiatives, improved gross margin and operating performance positions us well to being EBITDA positive in the fourth quarter of this year."

2019 Second Quarter Financial Results

Net revenue for the second quarter of 2019 was \$8.7 million, a decrease of \$3.5 million, compared to net revenue of \$12.2 million for the second quarter of 2018. U.S. laser revenue was \$2.9 million for the second quarter of 2019, a \$1 million decrease compared to U.S. laser revenue of \$3.9 million for the second quarter of 2018. U.S. consumables and other revenue for the second quarter of 2019, which consists of revenue from consumable products such as disposable tips, increased 2% compared to the second quarter of 2018. Outside the U.S., laser revenue declined to \$2.0 million for the second quarter of 2019 compared to \$4.0 million for the second quarter of 2018, primarily due to generating an order backlog from international distributors as we continue to seek more favorable pricing and payment terms.

Gross margin for the second quarter of 2019 was 39%, compared to 35% for second quarter of 2018. The higher gross margin reflects new customer growth, reduced expenses and a favorable change in product mix with an increase in laser sales, which have a higher margin than the Company's other product offerings. Total operating expenses were \$6.7 million for the second quarter of 2019 compared to \$9.0 million for the second quarter of 2018, a decrease of \$2.3 million. Operating loss for the second quarter of 2019, was \$3.3 million, compared to an operating loss of \$4.7 million for the second quarter of 2018, a decrease of \$1.4 million year over year. Net loss for the second quarter of 2019 was \$3.9 million, or \$0.18 per share, compared to a net loss of \$4.9 million, or \$0.24 per share for the second quarter of 2018.

Cash, cash equivalents, and restricted cash totaled \$4.0 million as of June 30, 2019.

Use of Non-GAAP Measures

The Reconciliation of GAAP Net Loss to Non-GAAP Net Loss table at the end of this news release provides the details of the Company's non-GAAP disclosures and the reconciliation of GAAP net loss and net loss per share to the Company's non-GAAP net loss and net loss per share.

The non-GAAP net loss for the second quarter of 2019 was \$2.8 million, or \$0.13 per share compared with a non-GAAP net loss of \$4.1 million, or \$0.20 per share for the second quarter of 2018.

Non-GAAP Disclosure

In addition to the financial information prepared in conformity with generally accepted accounting principles in the U.S. ("GAAP"), this press release includes certain historical non-GAAP financial information. Management believes that these non-GAAP financial measures assist investors in making comparisons of period-to-period operating results and that, in some respects, these non-GAAP financial measures are more indicative of the Company's ongoing core operating performance than their GAAP equivalents.

Non-GAAP net loss is defined as net loss before interest, taxes, depreciation and amortization, and stock-based compensation. Management uses non-GAAP net loss in its evaluation of the Company's core results of operations and trends between fiscal periods and believes that these measures are important components of its internal performance measurement process. Therefore, investors should consider non-GAAP financial measures in addition to, and not as a substitute for, or as superior to, measures of financial

performance prepared in accordance with GAAP. Further, the non-GAAP financial measures presented by the Company may be different from similarly named non-GAAP financial measures used by other companies.
