Huntsman Publishes 2016 Sustainability Report

"Connecting Our World: Sustainability in Transportation"

THE WOODLANDS, Texas, Nov. 6, 2017 /PRNewswire/ -- Huntsman Corporation (NYSE: HUN) today published its latest corporate sustainability report, titled "*Connecting Our World: Sustainability in Transportation*," on its web site at www.huntsman.com/sustainability.

"*Connecting Our World*" discusses how Huntsman applies its ingenuity in the transportation industry to create innovative products that help construct resilient infrastructure, encourage global commerce and empower personal mobility to bring our world closer together.

"Transportation connects our world in ways that help develop communities and enable a modern society," said Corporate Sustainability Officer Ron Gerrard. "Huntsman manufactures chemical solutions that help make transportation more sustainable, thereby benefitting our economies, enhancing the environment and creating easy access to education, work, markets and social contacts."

The report highlights a variety of Huntsman's transportation-related initiatives that help address such global megatrends as population growth, increasing wealth in emerging economies, finite hydrocarbon resources, reducing greenhouse gas emissions and potential impacts on climate change. The 2016 report also includes Huntsman's annual Communication on Progress to the United Nations Global Compact.

This is Huntsman's seventh sustainability report since launching its corporate sustainability initiative in 2010.
