Cummins Reports Strong Third Quarter Results

- **Sales increase 36 percent while EBIT grew by 43 percent**
- **Company on track for full year sales and earnings records despite global macro-economic conditions**

COLUMBUS, Ind.--(BUSINESS WIRE)-- Cummins Inc. (NYSE: CMI) today reported strong sales and earnings for the third quarter. Year-over-year growth was driven by global mining and oil & gas markets, on-highway markets in North America and Brazil, and construction demand in Asia.

Third quarter sales were \$4.6 billion, up 36 percent from the same period last year. All segments delivered double-digit growth over the prior year.

Earnings before interest and taxes (EBIT) were \$640 million, or 13.8 percent of sales, compared to \$449 million, or 13.2 percent of sales, in the same period in 2010.

Net income attributable to Cummins Inc. in the third quarter was \$452 million, an increase of 60 percent from a year ago, or \$2.35 per diluted share. This compares to \$283 million or \$1.44 per diluted share a year ago.

"We delivered strong performance in the third quarter and 2011 will be a record year for the company," said Tom Linebarger, President and Chief Operating Officer. "Many of our key markets continue to show strong growth, for example, mining, oil & gas, and North American on-highway markets. However, as discussed at our recent investor conference, there is some uncertainty around the macro-economic environment. Government actions to reduce inflation in India and China have resulted in softer near-term demand than we previously expected. This, along with the recent strengthening of the US Dollar, has caused us to slightly soften full year revenue guidance to a range of \$17.5 to \$18 billion, which would represent an increase of over \$4 billion or over 30 percent compared to 2010".

The Company now expects to deliver record profits of between 14 and 14.5 percent EBIT, compared to 12.5 percent in 2010. This guidance excludes gains from the sale of the exhaust and light-duty filtration businesses.

"Cummins is having its best year ever," said Tim Solso, Chairman and Chief Executive

Officer. "Achieving more than 30 percent revenue growth and record profitability this year, despite all the uncertainty in the world, says a lot about the performance culture at the Company. Cummins has the best technology in the industry, a very strong and experienced leadership team and great global partners. I am very confident in the Company's future."

Engine segment sales of \$2.96 billion were up 43 percent compared to the same quarter a year ago. This increase was driven by on-highway markets in North America and Latin America, strong worldwide oil & gas, mining and construction activity. Engine segment EBIT was \$349 million, or 11.8 percent of sales.

Power Generation segment had sales of \$874 million, a year-over-year increase of 10 percent. Improvements in China, North America, Europe and the Middle East offset weaker demand in India. Power Generation segment EBIT was \$92 million or 10.5 percent of sales.

Components segment sales of \$1.02 billion were up 32 percent year-over-year. All businesses experienced strong growth driven primarily by higher demand in on-highway markets in the US and Europe. Components segment EBIT was \$113 million, or 11.1 percent of sales.

Distribution segment sales were \$783 million, an increase of 37 percent from the third quarter last year. Growth over the prior year was driven by oil & gas markets in North America, power generation demand in Asia, and industrial demand ahead of the Tier 4 emission change in North America and Europe. Distribution segment EBIT was \$104 million, or 13.3 percent of sales.

Other third quarter highlights:

- Cummins repurchased 1.9 million shares at a cost of \$173 million.
- Company increased its dividend 52 percent effective in July.
- S&P increased Cummins' credit rating to 'A'. This follows an upgrade by Fitch Ratings in June.

Third quarter details (all comparisons to the same period in 2010)

Engine Segment

- Sales - \$2.96 billion, up 43 percent
- Segment EBIT - \$349 million, or 11.8 percent of sales, compared to \$223 million or 10.8 percent of sales
- Growth driven by on-highway markets in North America and Latin America, strong worldwide oil & gas and mining activity, and industrial engines in North America and Europe

Power Generation

- Sales - \$874 million, up 10 percent
- Segment EBIT - \$92 million or 10.5 percent of sales, compared to \$97 million or 12.3 percent

- Growth driven by China, North America, and Europe was partially offset by weaker demand in India and Latin America.

Components

- Sales - \$1.02 billion, up 32 percent
- EBIT - \$113 million, or 11.1 percent of sales, compared to \$63 million or 8.2 percent of sales
- Growth driven primarily by higher demand in on-highway markets in the United States and stronger growth in the emerging markets

Distribution

- Sales - \$783 million, up 37 percent
- EBIT - \$104 million or 13.3 percent of sales, compared to \$74 million or 12.9 percent of sales
- Growth was driven by oil and gas markets in North America, power generation demand in Asia, and industrial demand ahead of the Tier 4 emission change in North America and Europe

Presentation of Non-GAAP Financial Information

EBIT is a non-GAAP measure used in this release, and is defined and reconciled to what management believes to be the most comparable GAAP measure in a schedule attached to this release. Cummins presents this information as it believes it is useful to understanding the Company's operating performance, and because EBIT is a measure used internally to assess the performance of the operating units.

Webcast information

Cummins management will host a teleconference to discuss these results today at 10 a.m. EST. This teleconference will be webcast and available on the Investor Relations section of the Cummins website at www.cummins.com. Participants wishing to view the visuals available with the audio are encouraged to sign-in a few minutes prior to the start of the teleconference.

About Cummins

Cummins Inc., a global power leader, is a corporation of complementary business units that design, manufacture, distribute and service engines and related technologies, including fuel systems, controls, air handling, filtration, emission solutions and electrical power generation systems. Headquartered in Columbus, Indiana, (USA) Cummins employs approximately 40,000 people worldwide and serves customers in approximately 190 countries and territories through a network of more than 600 company-owned and independent distributor locations and approximately 6,000 dealer locations. Cummins earned \$1.0 billion on sales of \$13.2 billion in 2010. Press releases can be found on the Web at www.cummins.com.

Forward-looking disclosure statement

Information provided in this release that is not purely historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our forecasts, expectations, hopes, beliefs and intentions on strategies regarding the future. Our actual future results could differ materially from those projected in such forward-looking statements because of a number of factors, including, but not limited to: the adoption and implementation of global emission standards; the price and availability of energy; the pace of infrastructure development; increasing global competition among our customers; general economic, business and financing conditions; governmental action; changes in our customers' business strategies; competitor pricing activity; expense volatility; labor relations; and other risks detailed from time to time in our Securities and Exchange Commission filings, including particularly in the Risk Factors section of our 2010 Annual Report on Form 10-K. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this press release and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. More detailed information about factors that may affect our performance may be found in our filings with the Securities and Exchange Commission, which are available at <http://www.sec.gov> or at <http://www.cummins.com> in the Investor Relations section of our website.

- (1) Includes intersegment sales and profit in inventory eliminations and unallocated corporate expenses. The three months ended June 26, 2011, and the nine months ended September 25, 2011, include a \$68 million gain (\$37 million after-tax) related to the sale of our exhaust business from the Components segment. The gain has been excluded from segment results as it was not considered by management in its evaluation of operating results for the three months ended June 26, 2011, and the nine months ended September 25, 2011. For the three and nine months ended September 26, 2010, unallocated corporate expenses included \$32 million of Brazil tax recoveries (\$21 million after-tax) and \$2 million in flood damage expenses. In the third quarter of 2010, it was determined that we overpaid a Brazilian revenue based tax during 2004-2008. Our 2010 results include a pre-tax recovery related to tax credits on imported products arising from this overpayment. The recovery has been excluded from segment results as it was not considered by management in its evaluation of operating results for the quarter. There were no other significant unallocated corporate expenses for the three and nine months ended September 25, 2011 and September 26, 2010.
- (2) Depreciation and amortization as shown on a segment basis excludes the amortization of debt discount that is included in the Condensed Consolidated Statements of Income as "Interest expense."

NOTE 2. SALE OF EXHAUST BUSINESS

In January 2011, we reached an agreement to sell certain assets and liabilities of our exhaust business which manufactures exhaust products and select components for emission systems for a variety of applications not core to our other product offerings. The transaction closed in the second quarter of 2011. This business was historically included in our Components segment. The sales price was \$123 million. We recognized a pre-tax gain on the sale of \$68 million, which included an allocation of goodwill of \$19 million. The transaction had a working capital adjustment mechanism that was determined in the third quarter. There was not a significant change to the measurement of the gain. The gain was excluded from segment results as it was not considered by management in its evaluation of operating results for the nine months ended September 25, 2011.

Sales for this business were \$171 million, \$126 million and \$169 million in 2010, 2009 and 2008, respectively. Income before income taxes for this business was approximately \$22 million, \$11 million and \$19 million in 2010, 2009 and 2008, respectively.

We will enter into supply and other agreements with the operations that will represent ongoing involvement and as such, the results of these operations will not be presented as discontinued operations.

NOTE 3. INCOME TAXES

Our effective tax rate for the year is expected to approximate 29.5 percent, absent any discrete period activity. Our tax rate is generally less than the 35 percent U.S. income tax rate primarily due to lower income tax rates on foreign income and research tax credits. The tax rates for the three and nine month periods ended September 25, 2011, were 25.0 percent and 28.2 percent, respectively. The tax rate for the third quarter includes discrete items that total a benefit of \$29 million (or \$0.15 per share) related primarily to amended tax returns for prior periods. The tax rate for the nine months ended September 25, 2011, includes total discrete tax benefits of \$25 million.

Our effective tax rates for the comparable prior year periods were 29.5 percent and 31.1 percent, respectively. In July 2010, the U.K. passed legislation which reduced our U.K. tax rate from 28 percent to 27 percent in 2011. We had an additional charge to our third quarter tax provision of approximately \$2 million to reduce the value of our U.K. deferred tax assets. The tax rate for the nine month period included a discrete income tax charge of \$7 million related to the enactment of the "Patient Protection and Affordable Care Act." The lower rate in 2011 compared to 2010 is a result of the geographic mix of earnings.

CUMMINS INC. AND SUBSIDIARIES FINANCIAL MEASURES THAT SUPPLEMENT GAAP (Unaudited)

Earnings before interest, taxes and noncontrolling interests

We define EBIT as earnings before interest expense, income tax expense and noncontrolling interests in income of consolidated subsidiaries (EBIT). We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. Below is a reconciliation of EBIT, a non-GAAP financial measure, to "Net income attributable to Cummins Inc.," for each of the applicable periods:

	Three months ended			Nine months ended	
	September 25, 2011	June 26, 2011	September 26, 2010	September 25, 2011	September 26, 2010
In millions

Net income attributable to Cummins Inc.	\$	<u>452</u>	\$	<u>505</u>	\$	<u>283</u>	\$	<u>1,300</u>	\$	<u>678</u>
<i>Net income attributable to Cummins Inc. as a percentage of net sales</i>		9.8%		10.9%		8.3%		9.9%		7.5%

Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding gain on sale of business and discrete income tax items

We believe this is a useful measure of our operating performance for the periods presented as it illustrates our underlying operating performance and trends without regard to discrete income tax items and the gain related to the sale of our exhaust business. This measure is not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America and may not be consistent with measures used by other companies. It should be considered supplemental data. The following table reconciles net income attributable to Cummins Inc. excluding gain on sale of business and discrete income tax items to "Net income attributable to Cummins Inc." for the three and nine month periods ended September 25, 2011.

In millions	Three months ended		Nine months ended	
	September 25, 2011		September 25, 2011	
	Net Income	Diluted EPS	Net Income	Diluted EPS
Net income attributable to Cummins Inc. excluding discrete income tax items and the gain on sale of business	\$ 423	\$ 2.20	\$ 1,234	\$ 6.35
Add:				
Third quarter discrete income tax items	29	0.15	29	0.15
Gain on sale of business ⁽¹⁾	-	-	37	0.19
Net income attributable to Cummins Inc.	<u>\$ 452</u>	<u>\$ 2.35</u>	<u>\$ 1,300</u>	<u>\$ 6.69</u>

(1) The gain has been excluded from operating results as it was not considered by management in its evaluation of performance for the nine months ended September 25, 2011.

Engine segment net sales by market

2011
