

Cummins Reports First Quarter 2016 Results

- First quarter revenues of \$4.3 billion, EBIT of 11.3 percent of sales
- Cummins reaffirms full year guidance for revenues and EBIT
- Company announces a second quarter change to Operating Segments

COLUMBUS, Ind.--(BUSINESS WIRE)-- Cummins Inc. (NYSE: CMI) today reported results for the first guarter of 2016.

First quarter revenues of \$4.3 billion decreased 9 percent from the same quarter in 2015. Lower production in the North American heavy-duty truck market and weak global demand for off-highway and power generation equipment contributed to the reduction in sales. Currency negatively impacted revenues by approximately 3 percent compared to last year, primarily due to a stronger US dollar.

Revenues in North America decreased 10 percent while international sales declined by 8 percent. Within international markets revenues in Latin America and Asia declined the most.

Earnings before interest and taxes (EBIT) in the first quarter were \$484 million, or 11.3 percent of sales, down from \$562 million or 11.9 percent of sales a year ago.

Net income attributable to Cummins in the first quarter was \$321 million (\$1.87 per diluted share), compared to \$387 million (\$2.14 per diluted share) in the first quarter of 2015. The tax rate in the first quarter of 2016, was 28.4 percent.

"Our results for the first quarter reflect solid execution of our cost reduction plans in the face of very challenging market conditions," said Rich Freeland Chief Operating Officer. "Benefits from restructuring actions, material cost reduction projects and lower warranty costs all helped to mitigate the impact of lower sales."

Based on the current forecast, Cummins expects full year 2016 revenues to be down 5 to 9 percent, and EBIT to be in the range of 11.6 to 12.2 percent of sales, unchanged from our forecast three months ago.

Effective April 2016, we re-organized our business to combine our Power Generation

Segment and our High Horsepower engine business creating the Power Systems Segment. Going forward we will present results for four operating segments: Engine, Distribution, Components and Power Systems. We will begin to report results for our new reporting structure in the second quarter of 2016 and will also reflect this change for historical periods. "The formation of the Power Systems Segment combines two businesses that are already strongly interdependent and will allow us to streamline business and technical processes to accelerate innovation, grow market share and more efficiently manage our supply chain and manufacturing operations," said Chairman and CEO Tom Linebarger.

Other recent highlights:

- Our QSK95 diesel engine received Tier 4 Final certification from the EPA for the US locomotive market.
- We announced a joint venture with Olayan to expand access to markets and enhance the service and support provided to customers in the Middle East.
- Ethisphere Institute named Cummins to its list of the world's most ethical companies for the 9th straight year.
- We returned \$745 million to shareholders in the form of dividends and share repurchases in the first quarter, consistent with our plans to return 75 percent of Operating Cash Flow to shareholders in 2016.

First quarter 2016 detail (all comparisons to same period in 2015)

Engine Segment

- Sales \$2.3 billion, down 10 percent.
- Segment EBIT \$200 million, or 8.6 percent of sales, compared to \$253 million or 9.7 percent of sales.
- Sales declined due to lower production in the North American heavy-duty truck market and weak demand in power generation, oil and gas, commercial marine and mining markets.

<u>Distribution Segment</u>

- Sales \$1.5 billion, down 1 percent.
- Segment EBIT \$95 million, or 6.5 percent of sales, compared to \$88 million or 6.0 percent of sales.
- Increased revenue from acquisitions and growth in international markets were more than offset by lower sales in off-highway markets in North America and the negative impact of currency.

Components Segment

- Sales \$1.2 billion, down 5 percent.
- Segment EBIT \$173 million, or 14.0 percent of sales, compared to \$195 million or 15.0 percent of sales.

• Lower sales in North America and the unfavorable impact of currency more than offset growth in China.

Power Generation Segment

- Sales \$550 million, down 19 percent.
- Segment EBIT \$31 million, or 5.6 percent of sales, compared to \$49 million, or 7.2 percent of sales.
- Weaker sales in most regions, with Asia and Latin America declining the most.

About Cummins

Cummins Inc., a global power leader, is a corporation of complementary business units that design, manufacture, distribute and service diesel and natural gas engines and related technologies, including fuel systems, controls, air handling, filtration, emission solutions and electrical power generation systems. Headquartered in Columbus, Indiana, (USA) Cummins currently employs approximately 55,200 people worldwide and serves customers in approximately 190 countries and territories through a network of approximately 600 company-owned and independent distributor locations and approximately 7,200 dealer locations. Cummins earned \$1.4 billion on sales of \$19.1 billion in 2015. Press releases can be found on the Web at www.cummins.com. Follow Cummins on Twitter at www.cummins.com. Rollow Cummins on Twitter at www.twittter.com/cummins and on YouTube at www.youtube.com/cumminsinc.

Forward-looking disclosure statement

Information provided in this release that is not purely historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our forecasts, guidance, preliminary results, expectations, hopes, beliefs and intentions on strategies regarding the future. These forward looking statements include, without limitation, statements relating to our plans and expectations for our revenues for the full year of 2016. Our actual future results could differ materially from those projected in such forward-looking statements because of a number of factors, including, but not limited to: the adoption and implementation of global emission standards; the price and availability of energy; the pace of infrastructure development; increasing global competition among our customers; general economic, business and financing conditions; governmental action; changes in our customers' business strategies; competitor pricing activity; expense volatility; labor relations; and other risks detailed from time to time in our Securities and Exchange Commission filings, including particularly in the Risk Factors section of our 2015 Annual Report on Form 10-K. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this press release and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. More detailed information about factors that may affect our performance may be found in our filings with the Securities and Exchange Commission, which are available at http://www.sec.gov or at http://www.cummins.com in the Investor Relations section of our website.

EBIT is a non-GAAP measure used in this release, and is defined and reconciled to what management believes to be the most comparable GAAP measure in a schedule attached to this release. Cummins presents this information as it believes it is useful to understanding the Company's operating performance, and because EBIT is a measure used internally to assess the performance of the operating units.

Webcast information

Cummins management will host a teleconference to discuss these results today at 10 a.m. EST. This teleconference will be webcast and available on the Investor Relations section of the Cummins website at www.cummins.com. Participants wishing to view the visuals available with the audio are encouraged to sign-in a few minutes prior to the start of the teleconference.

NOTE 2. INCOME TAXES

Our income tax rates are generally less than the 35 percent U.S. income tax rate primarily because of lower taxes on foreign earnings and the research tax credit. The effective tax rate for the three months ended April 3, 2016, was 28.4 percent and did not include any discrete items. Our effective tax rate for the three months ended March 29, 2015, was 26.3 percent. This tax rate included an \$18 million discrete tax benefit to reflect the release of reserves for uncertain tax positions related to a favorable federal audit settlement.

CUMMINS INC. AND SUBSIDIARIES FINANCIAL MEASURES THAT SUPPLEMENT GAAP (Unaudited)

Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding special items

We believe these are useful measures of our operating performance for the periods presented as they illustrate our operating performance without regard to special items including tax adjustments. These measures are not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America (GAAP) and may not be consistent with measures used by other companies. It should be considered supplemental data. The following table reconciles net income attributable to Cummins Inc. to net income attributable to Cummins Inc. excluding special items for the following periods:

	Three months ended										
		April	3, 20	16		March	29, 201	5

Net income attributable to Cummins Inc. excluding special items	\$	321	\$	1.87	\$	369	\$	2.04			

Earnings before interest, income taxes and noncontrolling interests

We define EBIT as earnings before interest expense, income tax expense and noncontrolling interests in income of consolidated subsidiaries (EBIT). We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. This measure is not in accordance with, or an alternative for, GAAP and may not be consistent with measures used by other companies. It should be considered supplemental data. Below is a reconciliation of EBIT to

"Net income attributable to Cummins Inc." for each of the applicable periods:

Power Generation Segment Sales by Business

In the first quarter of 2016, our Power Generation segment reorganized its reporting structure to include the following product lines:

- Power generation We manufacture generators for commercial and consumer applications ranging from 2 kilowatts to 3.5 megawatts, as well as paralleling systems and transfer switches for applications such as data centers, health care facilities and waste water treatment plants. We also provide turnkey solutions for distributed generation and energy management applications using natural gas or biogas as a fuel. The business also serves global rental accounts for diesel and gas generator sets.
- **Generator technologies -** We design, manufacture, sell and service A/C generator/alternator products internally as well as to other generator set assemblers.

Our products are sold under the Stamford, AVK and Markon brands and range in output from 3 kilovolt-amperes (kVA) to 12,000 kVA.

Sales for our Power Generation segment by business (including 2015 and 2014 reorganized balances) were as follows:
