ExxonMobil Receives Safety Leadership Award from Gas Processors Association

SAN ANTONIO, Texas--(BUSINESS WIRE)-- ExxonMobil Production Company's U.S. operations have earned the Gas Processors Association (GPA) 2010 Company Safety Award. The efforts of about 500 employees working over one million work hours at the company's gas processing facilities led to first place honors for outstanding midstream safety performance.

"ExxonMobil is committed to safety leadership," said ExxonMobil U.S. Production Manager Kok-Yew See. "This award recognizes the outstanding performance of our employees in putting safety first and our shared vision that nobody gets hurt."

This marks the fourth time in six years ExxonMobil Production Company's U.S. operations have earned the Company Safety Award from GPA.

"Operating safely, whether in an office setting or in the field, is critical to the success of our companies and our industry," said GPA President Alan Armstrong. "GPA takes great pride in the safety accomplishments of our member companies, and I would like everyone to recognize and congratulate those companies that we're honoring today."

ExxonMobil is one of the largest oil and gas producers and reserves holders in the U.S. The U.S. portfolio is geographically diverse with significant positions in all major producing regions including the Gulf Coast, the Gulf of Mexico, the mid-continent, the Rockies, Alaska and onshore and offshore California.

About ExxonMobil

[ExxonMobil](http://www.exxonmobil.com), the largest publicly traded international oil and gas company, uses technology and innovation to help meet the world's growing energy needs. ExxonMobil holds an industry-leading inventory of resources, is the largest refiner and marketer of petroleum products, and its chemical company is one of the largest in the world.
