ExxonMobil to Expand Houston Campus to Accommodate Additional Employees

- Offices to move from Fairfax, VA; Akron, OH and the Houston area
- New campus to accommodate approximately 10,000 employees
- Office migration to occur in phases starting in 2014

IRVING, Texas--(BUSINESS WIRE)-- [ExxonMobil](#) announced today it will expand the size of its campus under construction in Houston to accommodate additional employees from the immediate area and from company locations in Fairfax, VA and Akron, OH.

The affected companies include the Fairfax offices of ExxonMobil's Refining and Supply Company; ExxonMobil Research and Engineering Company; ExxonMobil Fuels, Lubricants & Specialties Marketing Company; the Akron-based employees of ExxonMobil Chemical Company; and select positions from ExxonMobil Research and Engineering Company and ExxonMobil Chemical Company now located at the Baytown refinery complex outside of Houston.

"Including additional employees on the new campus will provide even more opportunities for collaboration and innovation, supporting ExxonMobil's mission of delivering energy to meet growing global needs," said Bryan Milton, president of ExxonMobil Global Services Company.

The state-of-the-art campus will have multiple low-rise office buildings, laboratory, conference and training centers and facilities such as child care, a wellness center and other employee amenities.

The campus is located on a 385-acre wooded site on company-owned land near the intersection of I-45 and the Hardy Toll Road. It will accommodate approximately 10,000 employees and is being constructed to high standards of energy efficiency and environmental stewardship.

Construction of the ExxonMobil Houston campus began in 2011. Early site work includes the construction of access roads and bridges, central utilities, computer support and parking facilities.

Employees will move to the campus in phases as the buildings are constructed, beginning in early 2014. Full occupancy for employees is expected by 2015.

About ExxonMobil

ExxonMobil, the largest publicly traded international oil and gas company, uses technology and innovation to help meet the world's growing energy needs. ExxonMobil holds an

industry-leading inventory of resources, is the largest refiner and marketer of petroleum products, and its chemical company is one of the largest in the world. For more information, visit exxonmobil.com.
