Mirion Technologies Receives Certified Supplier Award From Westinghouse Electric Company

SAN FRANCISCO--(BUSINESS WIRE)--

Mirion Technologies Sensing Systems Division announced that its Cambridge, Ontario and Horseheads, New York facilities have received the Certified Supplier Award from Westinghouse Electric Company. The award recognizes Mirion Technologies' exceptional performance as a key supplier to Westinghouse's Nuclear Services business unit.

"This marks the 13th year, since the implementation of the program in 1995, that we have achieved this honor," commented Iain Wilson, President of the Sensing Systems Division. "This award signifies our consistent, sustained level of competence in every aspect of our business, from quality products to outstanding customer support."

Mirion's Sensing Systems Division is a global supplier of in-core and out-of-core radiation detectors, electrical penetrations and control components operated in nuclear power plants and nuclear research reactors worldwide.

ABOUT MIRION TECHNOLOGIES

Mirion Technologies is one of the world leaders in radiation detection, measuring and monitoring. Mirion has 14 facilities in Europe, Asia, and North America. Mirion Technologies is headquartered in the San Francisco Bay area and is a portfolio company of American Capital (NASDAQ:ACAS).
