Where: <https://ir.mammothenergy.com/events-presentations>

For those who cannot listen to the live call, a replay will be available through August 15, 2025 and may be accessed by dialing 201-612-7415 and using passcode 13755004#. Also, an archive of the webcast will be available shortly after the call concludes at <https://ir.mammothenergy.com/events-presentations>. Please submit any questions for management prior to the call via email to TUSK@dennardlascar.com.

About Mammoth Energy Services, Inc.

We are an integrated, growth-oriented company focused on providing products and services to our customers primarily in the oil and natural gas and infrastructure industries. Our suite of services includes rental services, infrastructure services, natural sand proppant services, accommodation services and drilling services. Our rental services segment provides a wide range of equipment used in oilfield, construction and aviation activities. Our infrastructure services segment provides engineering, design and fiber optic services to the utility industry. Our natural sand proppant services segment mines, processes and sells natural sand proppant used for hydraulic fracturing. Our remote accommodation services provide housing, kitchen and dining, and recreational service facilities for workers located in remote areas away from readily available lodging. Our drilling services provides directional drilling to oilfield operators. For more information, please visit www.mammothenergy.com.
