Qurate Retail, Inc. Reports Second Quarter 2023 Financial Results

ENGLEWOOD, Colo.--(BUSINESS WIRE)-- Qurate Retail, Inc. ("Qurate Retail") (Nasdaq: QRTEA, QRTEB, QRTEP) today reported second quarter 2023 results ⁽¹⁾.

"In this quarter, we made meaningful progress on Project Athens, our multi-year plan to transform the company, expanding gross margins in our video commerce businesses for the first time in over 18 months and materially improving our cash flow," said David Rawlinson, President and CEO of Qurate Retail. "While our revenue was down, our topline results were in line with the discretionary retail industry, which was impacted by softer consumer sentiment and more promotional intensity particularly in the home categories. During the quarter, we also divested Zulily, which simplified our portfolio and improved our go forward liquidity. We finalized our insurance claims for the fire at our former Rocky Mount, NC fulfillment center and received \$225 million of insurance proceeds.

"We continue our focus on cash flow, costs and margin growth in the near term and anticipate improved profitability in the second half of 2023. We believe we are on track to achieve our Project Athens objectives through 2024."

Second quarter 2023 operating results:

- Qurate Retail revenue⁽²⁾ decreased 7% to \$2.5 billion
 - In constant currency⁽³⁾ revenue⁽²⁾ decreased 7%
- Qurate Retail reported diluted EPS of \$0.28
 - Adjusted diluted EPS⁽⁴⁾ of \$(0.03)
- QxH revenue decreased 8%
- QVC International revenue decreased 5%
 - In constant currency, revenue decreased 3%
- Cornerstone revenue decreased 7%

Corporate headlines:

- Finalized insurance claim related to Rocky Mount, NC fulfillment center ("Rocky Mount") fire and received \$225 million of insurance proceeds in second quarter; total insurance proceeds received of \$660 million
- Divested Zulily on May 24th
- Repaid \$192 million of near-term QVC debt maturities
- Settled \$94 million and \$251 million principal amount of exchanges of 1.75% exchangeable debentures with October 2023 put/call in the three and six months ended June 30, 2023, respectively

Discussion of Results

Unless otherwise noted, the following discussion compares financial information for the three months ended June 30, 2023 to the same period in 2022.

a) For a definition of constant currency financial metrics, see the accompanying schedules.

- b) Zulily was divested on May 24, 2023. Second quarter 2023 results include Zulily through May 23, 2023. In the second quarter of 2023 and 2022, Zulily recorded \$1 million and \$6 million, respectively, of restructuring charges that are included in operating income and excluded from adjusted OIBDA.
- c) In the second quarter of 2023, QxH recognized (i) a \$209 million net gain on insurance proceeds representing insurance proceeds received in excess of fire-related costs and (ii) a \$2 million gain on the sale of Rocky Mount in February 2023 that was released from escrow. In the second quarter of 2022, QxH incurred (i) a \$15 million write-down related to inventory at Rocky Mount included in cost of goods sold, (ii) a \$240 million gain on sale related to the modification of the lease of its Ontario, CA distribution center and (iii) \$1 million of non-reimbursable fire-related costs. These items are included in operating income and excluded from adjusted OIBDA. See Reconciling Schedule 2.
- d) In the second quarter of 2023, QVC International recognized a \$6 million gain on an intangible asset primarily related to the sale of a channel positioning right that is included in operating income and excluded from adjusted OIBDA. See Reconciling Schedule 2.
- e) In the second quarter of 2023, Cornerstone recorded \$2 million of restructuring charges related to a workforce reduction. These are included in operating income and excluded from adjusted OIBDA. See Reconciling Schedule 2.

GAAP EPS ^(b)	\$ 0.53	\$ 0.28
Adjusted EPS ^(a)	\$ 0.12	\$ (0.03)

a) See Reconciling Schedule 3.

b) Represents diluted net income per share attributable to Series A and Series B common stockholders as presented in Qurate Retail's financial statements.

QxH

QxH revenue declined primarily due to a 12% decrease in units shipped, reflecting fewer customers and weakened consumer sentiment, as well as lower shipping and handling revenue. This was partially offset by a 5% increase in average selling price driven by an elevated product assortment and price increases. QxH experienced a 6% increase in average spend per customer. QxH reported declines in home, electronics, accessories and apparel, partially offset by growth in beauty.

Operating income and adjusted OIBDA margin⁽⁴⁾ decreased primarily due to higher administrative expenses from certain costs related to Project Athens, higher benefits

expense and sales deleverage and, to a lesser extent, from increased commissions due to expanded distribution. These pressures were partially offset by higher product margins, favorable fulfillment (warehouse and freight), lower obsolescence expense and lower bad debt expense. Product margins increased mainly due to higher initial margins, partially offset by unfavorable returns and lower shipping and handling revenue. Fulfillment favorability was driven by less detention and demurrage costs and reduced volume, partially offset by higher freight and labor rates and fulfillment center rent expense due to sale leaseback transactions in the prior year.

In the second quarter of 2023, QxH received a final payment of \$225 million of insurance proceeds related to the December 2021 fire at Rocky Mount, primarily business interruption proceeds, for an aggregate of \$660 million proceeds received.

QVC International

US Dollar denominated results were negatively impacted by exchange rate fluctuations, primarily due to the Dollar strengthening 6% versus the Japanese Yen and 1% versus the British Pound, partially offset by weakening 2% against the Euro. The financial metrics presented in this press release also provide a comparison of the percentage change in QVC International's results in constant currency to the comparable figures calculated in accordance with US GAAP, where applicable.

QVC International's constant currency revenue declined primarily due to a 7% decrease in units shipped, reflecting weakened consumer sentiment driven by inflation primarily in Europe. This was partially offset by a 5% increase in average selling price driven by price increases and product mix. QVC International reported declines in electronics, jewelry and apparel, while beauty grew modestly and home was flat.

Operating income and adjusted OIBDA margin decreased primarily due to higher administrative and fulfillment expenses. Administrative costs increased due to higher wages, outside services and management incentive accruals. Fulfillment pressure was primarily attributable to higher fulfillment center rents due to sale leaseback transactions and increased labor costs. These pressures were partially offset by higher product margins and lower inventory obsolescence expense from reduced inventory levels. Product margin favorability was primarily due to increased initial margin, partially offset by lower shipping and handling revenue.

Cornerstone

Cornerstone revenue decreased, reflecting softness and competitive promotional pressure in the home sector as well as lower demand for apparel at Garnett Hill.

Operating income and adjusted OIBDA margin decreased primarily due to increased promotions and higher fulfillment, marketing and administrative costs. These pressures were partially offset by lower inbound logistic costs.

- a) Indemnity from Liberty Broadband Corporation (“Liberty Broadband”), pursuant to an indemnification agreement with respect to the 1.75% exchangeable debentures (the “LI LLC Charter exchangeable debentures”) issued by Liberty Interactive LLC (“LI LLC”). LI LLC is a wholly-owned subsidiary of Qurate Retail.
- b) Face amount of Senior Notes and Debentures with no reduction for the unamortized discount.
- c) Face amount of Senior Exchangeable Debentures with no adjustment for the fair market value adjustment.
- d) Preferred Stock has an 8% coupon, \$100 per share initial liquidation preference plus accrued and unpaid dividends and is non-voting. It is subject to mandatory redemption on March 15, 2031. The Preferred Stock is considered a liability for GAAP purposes, and is recorded net of capitalized costs.
- e) As defined in QVC’s credit agreement. The gains from the sale leaseback transactions discussed previously and a portion of expected cost savings are included in adjusted EBITDA for purposes of the covenant calculations under QVC’s bank credit facility.

Cash at Qurate Retail increased \$197 million in the second quarter primarily due to improved cash from operations largely driven by working capital benefits and the receipt of \$225 million of insurance proceeds, which more than offset capital expenditures, net debt repayment and TV distribution payments.

Total debt at Qurate Retail, Inc. decreased \$201 million in the second quarter due to debt repayments. Qurate Retail repurchased \$177 million of QVC’s 4.85% Senior Secured Notes due 2024 and \$15 million of QVC’s 4.45% Senior Secured Notes due 2025 and settled \$94 million principal amount of exchanges of its LI LLC Charter exchangeable debentures, leaving \$79 million principal amount of debentures outstanding. This was partially offset by \$85 million of net borrowing under QVC’s bank credit facility.

QVC’s bank credit facility has \$1.4 billion drawn as of June 30, 2023 with incremental availability of \$1.8 billion, net of letters of credit. QVC’s leverage ratio, as defined by the QVC revolving credit facility, was 2.3x at quarter end. Pursuant to the terms of QVC’s revolving credit facility, gains from sale leaseback transactions and a portion of expected cost savings are included in operating income for purposes of QVC’s leverage ratio for covenant calculations. In connection with the Zulily divestiture, Zulily is no longer a co-borrower in the credit facility, and repaid its outstanding borrowings under the credit facility of approximately \$80 million using cash contributed from Qurate Retail.

As of June 30, 2023, QVC’s consolidated leverage ratio (as calculated under QVC’s senior secured notes) was greater than 3.5x and as a result QVC is restricted in its ability to make

unlimited dividends or other restricted payments. Dividends made by QVC to service the principal and interest of indebtedness of its parent entities, as well as payments made by QVC to Qurate Retail under an intercompany tax sharing agreement in respect of certain tax obligations of QVC and its subsidiaries, are permitted under the bond indenture and credit agreement.

Qurate Retail is in compliance with all debt covenants as of June 30, 2023.

Qurate Retail benefits from an indemnification agreement with Liberty Broadband with respect to its LI LLC Charter exchangeable debentures. Pursuant to the indemnification agreement, Liberty Broadband will be required to indemnify LI LLC for any payments made to a holder of such debentures that exercises its exchange right on or before the put/call date of October 5, 2023 in excess of the sum of the adjusted principal amount of such debentures plus certain estimated tax benefits to Qurate Retail, if any, resulting from the exchange. LI LLC would be responsible for paying the adjusted principal amount to such holder. This indemnity is supported by a negative pledge in favor of Qurate Retail on the reference shares of Class A common stock of Charter Communications, Inc. held at Liberty Broadband that underlie the LI LLC Charter exchangeable debentures. The indemnification asset on Qurate Retail's balance sheet is valued based on the estimated exchange feature in the LI LLC Charter exchangeable debentures. As of June 30, 2023, holders of the LI LLC Charter exchangeable debentures have the ability to put their debentures on October 5, 2023, and accordingly, the indemnification asset is included as a current asset. During the three months ended June 30, 2023, Qurate Retail received indemnification payments of \$1 million from Liberty Broadband in connection with exchanges of \$94 million principal amount of the LI LLC Charter exchangeable debentures that settled in the quarter.

Important Notice: Qurate Retail, Inc. (Nasdaq: QRTEA, QRTEB, QRTEP) will discuss Qurate Retail's earnings release on a conference call which will begin at 8:30 a.m. (E.T.) on August 4, 2023. The call can be accessed by dialing (877) 704-4234 or (215) 268-9904, passcode 13736987, at least 10 minutes prior to the start time. The call will also be broadcast live across the Internet and archived on our website. To access the webcast go to <https://www.qurateretail.com/investors/news-events/ir-calendar>. This press release includes certain forward-looking statements, including statements about business strategies and initiatives (including Project Athens) and their expected benefits, market potential, future financial performance and prospects, market conditions, the indemnification by Liberty Broadband, future repayment of debt, the continuation of our stock repurchase program and other matters that are not historical facts. These forward-looking statements involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including, without limitation, possible changes in market acceptance of new products or services, competitive issues, regulatory matters affecting our businesses, continued access to capital on terms acceptable to Qurate Retail, changes in law and government regulations, the availability of investment opportunities, general market conditions (including as a result of COVID-19 or other public health crises), issues impacting the global supply chain and labor market, and market conditions conducive to stock repurchases. These forward-looking statements speak only as of the date of this press release, and Qurate Retail expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in Qurate Retail's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Please refer to the publicly filed documents of Qurate Retail, including the most recent

Forms 10-K and 10-Q, for additional information about Qurate Retail and about the risks and uncertainties related to Qurate Retail's business which may affect the statements made in this press release.

NON-GAAP FINANCIAL MEASURES

To provide investors with additional information regarding our financial results, this press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for Qurate Retail, QVC (and certain of its subsidiaries), Zulily (through May 23, 2023) and Cornerstone together with a reconciliation to that entity or such businesses' operating income, as determined under GAAP. Qurate Retail defines adjusted OIBDA as operating income (loss) plus depreciation and amortization, stock-based compensation, and where applicable, separately identified impairments, litigation settlements, restructuring, acquisition-related costs, fire related costs, net (including Rocky Mount inventory losses), and (gains) losses on sale leaseback transactions. Further, this press release includes adjusted OIBDA margin, which is also a non-GAAP financial measure. Qurate Retail defines adjusted OIBDA margin as adjusted OIBDA divided by revenue.

Qurate Retail believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses by identifying those items that are not directly a reflection of each business's performance or indicative of ongoing business trends. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Qurate Retail views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Qurate Retail's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

In addition, this press release includes references to adjusted net income and adjusted earnings per share, which are non-GAAP financial measures, for Qurate Retail. Qurate Retail defines adjusted net income as net income, excluding the impact of acquisition accounting amortization (net of deferred tax benefit), mark-to-market adjustments on certain public debt and equity securities, (gain) loss on sale of fixed assets and other one-time adjustments. Qurate Retail defines adjusted earnings per share as diluted earnings per share plus the diluted per share effects of certain adjustments, net of tax.

Qurate Retail believes adjusted net income and adjusted earnings per share are important indicators of financial performance due to the impact of purchase accounting amortization, mark-to-market adjustments and other one-time items identified in Schedule 3 below. Because adjusted net income and adjusted earnings per share are used as measures of overall financial performance, Qurate Retail views net income and diluted earnings per share, respectively, as the most directly comparable GAAP measures. Adjusted net income and adjusted earnings per share are not meant to replace or supersede net income, diluted earnings per share or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with a supplemental metric of financial performance. Please see the attached schedules for a reconciliation of adjusted net income to net income (loss) and adjusted earnings per share to diluted earnings per share, in each case, calculated in accordance with GAAP for Qurate Retail (Schedule 3).

This press release also references certain financial metrics on a constant currency basis, which is a non-GAAP measure, for Qurate Retail. Constant currency financial metrics, as presented herein, are calculated by translating the current-year and prior-year reported amounts into comparable amounts using a single foreign exchange rate for each currency.

Qurate Retail believes constant currency financial metrics are an important indicator of financial performance, in particular for QVC, due to the translational impact of foreign currency fluctuations relating to its subsidiaries in the UK, Germany, Italy and Japan. We use constant currency financial metrics to provide a framework to assess how our businesses performed excluding the effects of foreign currency exchange fluctuations. Please see the financial tables at the beginning of this press release for a reconciliation of the impact of foreign currency fluctuations on revenue, operating income, adjusted OIBDA and average selling price.

SCHEDULE 1

The following table provides a reconciliation of Qurate Retail's adjusted OIBDA to its operating income calculated in accordance with GAAP for the three months ended June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively.

a) In the second quarter of 2023, QxH recognized (i) a \$209 million net gain on insurance proceeds representing insurance proceeds received in excess of fire-related costs and (ii) a \$2 million gain on the sale of Rocky Mount in February 2023 that was released from escrow. Additionally, in the second quarter of 2023, Cornerstone recorded \$2 million and Zulily recorded \$1 million of restructuring charges, both related to workforce reductions. In the second quarter of 2022, QxH incurred (i) a \$15 million write-down related to inventory at Rocky Mount included in cost of goods sold and (ii) \$1 million of non-reimbursable fire-related costs.

b) Includes gains on the sale related to the modification of a lease that resulted in a sale leaseback for US GAAP purposes of QVC's Ontario, CA distribution center and the sale of another immaterial asset in the second quarter of 2022, the sale leaseback transactions of

five US properties completed in the third quarter of 2022, the sale leaseback transactions of UK and German properties in the first quarter of 2023 and the sale of an intangible asset primarily related to the sale of a channel positioning right in the second quarter of 2023.

SCHEDULE 2

The following table provides a reconciliation of adjusted OIBDA for QVC and Cornerstone to that entity or such businesses' operating income (loss) calculated in accordance with GAAP for the three months ended June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively.
