TTM Technologies to Exhibit at the Electric & Hybrid Vehicle Technology Expo in Novi, Michigan, USA

COSTA MESA, Calif., July 26, 2017 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI) will be exhibiting at the Electric & Hybrid Vehicle Technology Expo North America 2017 at Booth 1013. The expo runs September 12-14. Technical experts will be available at the booth to answer printed circuit board design, manufacturing, and assembly-related questions. The following key TTM automotive PCB technologies will also be displayed at the booth:

- High-Reliability Applications
- RF/Microwave 24 GHz - 77GHz +
- Heavy-copper products up to 12 oz. (400 μ m)
- Heat sinks (aluminum & copper) and Thermal Management Solutions (TMS)
- High-Volume HDI Capabilities for Advanced Automotive Applications
- Controlled Impedance Applications
- Rigid-Flex and Semi-Flex
- North American Prototyping

"We are exhibiting to support our long-established customer base in the Detroit area and gain insight into emerging technologies that will drive the fast-growing electric and hybrid vehicle market," said Jon Pereira, President of the Automotive, Medical, Industrial & Instrumentation Business Unit, "We have a broad range of products and services, as well as a global network of engineering and technology experts, that have the ability to bring game-changing technologies to life: printed circuit boards are the heart of the electronic devices that deliver the mobility, communications, entertainment, and safety features people rely on every day."

To promote their participation, TTM has published an eBook: *5 Essential PCB Design Best Practices for Cost Savings*, available exclusively to those who register in advance at <https://evtechexpo2017.ttm.com/>.

About the Electric & Hybrid Technology Expo America

Electric & Hybrid Vehicle Technology Expo is the premier showcase for electric and hybrid vehicle technology and innovation. Based in Detroit, Michigan, the capital of EV manufacturing in America, Electric & Hybrid Vehicle Technology Expo will highlight advances right across the powertrain and across a wide range of vehicles from passenger and commercial to off-highway industrial vehicles. Additional information can be found at www.evtechexpo.com

About TTM

TTM Technologies, Inc. is a leading global printed circuit board (PCB) manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane

assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market. Additional information can be found at www.ttm.com.
