Omega Reports First Quarter 2022 Results and Recent Developments

Completed \$142 Million in New Investments
Completed the Gulf Coast Portfolio Asset Sale for \$318 Million

HUNT VALLEY, Md.--(BUSINESS WIRE)-- Omega Healthcare Investors, Inc. (NYSE: OHI) (the “Company” or “Omega”) announced today its results for the quarter ended March 31, 2022. The Company reported net income for the quarter of \$195.2 million or \$0.79 per common share. The Company also reported Nareit Funds From Operations (“Nareit FFO”) for the quarter of \$170.7 million or \$0.69 per common share, Adjusted Funds From Operations (“Adjusted FFO” or “AFFO”) of \$183.5 million or \$0.74 per common share, and Funds Available for Distribution (“FAD”) of \$161.9 million.

Nareit FFO, AFFO and FAD are supplemental non-GAAP financial measures that the Company believes are useful in evaluating the performance of real estate investment trusts. For more information regarding these non-GAAP measures, see the “Non-GAAP Financial Measures” on the Company’s website at www.omegahealthcare.com.

CEO COMMENTS

Taylor Pickett, Omega’s Chief Executive Officer, stated, “Our near-term adjusted FFO and FAD financial results were impacted by the previously announced nonpayment of rent by a few operators, including a reduction in collateral supporting non-paying operators. These challenges may continue for the next few quarters as we work through similar issues with other operators. Separately, we were able to successfully sell the majority of our legacy Gulf Coast assets in the quarter for over \$300 million in net proceeds. We continue to believe that the strong appetite for skilled nursing assets and secular tailwinds continue to exist for this industry.”

Mr. Pickett continued, “Portfolio occupancy improved as the quarter progressed, as the impact of the Omicron variant receded. Nevertheless, many facilities remain unprofitable as low occupancy and elevated labor costs continue to pressure operating performance. The incremental federal and state support provided to this industry through the pandemic has helped a frail and vulnerable segment of society receive the care they need. We hope that future support will be sufficient to fund operator obligations until occupancy returns to a sustainable level.”

Mr. Pickett concluded, “As we have throughout this crisis, we would like to highlight the incredible efforts of our operators and their heroic employees, who continue to work tirelessly and bravely to protect and care for their residents.”

The increase in net income was partially offset by (i) a \$21.5 million decrease in rental income primarily driven by three operators on a cash basis that failed to make contractual payments in 2022, (ii) a \$10.2 million decrease in income from unconsolidated joint ventures resulting from prior year facility sales, (iii) a \$3.1 million decrease in mortgage interest income as a result of one operator failing to make contractual payments on a non-accrual mortgage loan in 2022, (iv) a \$2.8 million increase in provision for credit losses and (v) a \$1.5 million increase in stock-based compensation expense.

2022 FIRST QUARTER PORTFOLIO AND RECENT ACTIVITY

\$142 Million of New Investments – In the first quarter of 2022, the Company completed approximately \$121.5 million of acquisitions and \$20.0 million in capital renovations and new construction projects consisting of the following:

\$100 Million Real Estate Acquisition – On March 23, 2022, the Company acquired 27 care homes in the United Kingdom (“U.K.”) (similar to assisted living facilities in the United States (“U.S.”)) for approximately \$100.0 million. Concurrent with the acquisition, the Company entered a master lease for the facilities with a new operator with an initial annual cash yield of 8.0% with 2.5% annual escalators.

\$5 Million Real Estate Acquisition – On March 16, 2022, the Company acquired one care home in the U.K. for approximately \$5.0 million. Concurrent with the acquisition, we

entered a master lease for the facility with a new operator with an initial annual cash yield of 8.0% with 2.5% annual escalators.

\$8 Million Real Estate Acquisition – On January 31, 2022, the Company acquired one care home in the U.K. for approximately \$8.2 million. The facility was added to an existing operator’s master lease with an initial annual cash yield of 8.0% with 2.5% annual escalators.

\$8 Million Real Estate Acquisition – On January 1, 2022, the Company acquired a Maryland skilled nursing facility (“SNF”) for \$8.2 million and amended an existing operator’s master lease, with an initial term expiring on December 31, 2032, to include the acquired facility. The initial annual yield for the additional facility is 9.5% and includes annual escalators of 2.5%.

\$20 Million of Capital Investments – In the first quarter of 2022, the Company invested \$20.0 million under its capital renovation and construction-in-progress programs.

Operator Collectibility Updates – In January 2022, an operator representing 3.4% of the Company’s first quarter 2022 contractual annualized rent and mortgage interest revenue did not pay its contractual amounts due under its lease agreement. This operator continued to pay contractual interest amounts due under its \$20.0 million revolving credit facility during the first quarter of 2022. In March 2022, the lease with this operator was amended to allow for a short-term rent deferral for January through March 2022. The deferred rent balance accrues interest monthly at a rate of 5% per annum. This operator resumed paying the contractual amount due under its lease agreement in April 2022. The operator is required to repay the deferred rent balance and accrued interest by December 31, 2022. In April 2022, this operator borrowed an additional \$1.8 million under its revolving credit facility. Omega holds a \$1.0 million letter of credit and a \$150 thousand security deposit from this operator.

In March 2022, another operator representing 2.4% of the Company’s first quarter 2022 contractual annualized rent and mortgage interest revenue did not pay its March contractual amounts due under its lease agreement. In April 2022, the lease with this operator was amended to allow the operator to apply its \$2.0 million security deposit to its March 2022 contractual rental payment and to allow for a short-term rent deferral for April, with regular rental payments required to resume in May.

Guardian Portfolio Restructuring – In the first quarter of 2022, the Company re-leased eight facilities to other operators and sold two facilities, all of which were previously leased to Guardian, as part of on-going restructuring activities. In February 2022, Guardian sold three facilities, previously subject to the Omega mortgage loan and made a partial paydown of \$21.7 million against the mortgage loan. The remaining restructuring activities to be completed include the sale of seven facilities leased to Guardian. All seven of these facilities are included in assets held for sale as of March 31, 2022. In April 2022, the Company agreed to a formal restructuring agreement, master lease amendment and mortgage loan amendment with Guardian. As part of the restructuring agreement and amendments, Omega and Guardian agreed, among other terms, to (i) allow Guardian to defer \$18.0 million of aggregate rent and interest, effective retrospectively, from October 1, 2021 through April 1, 2022, with repayment required after September 30, 2024 based on certain financial metrics and in full by the lease termination date and (ii) reduce the combined rent and mortgage interest to an aggregate \$24.0 million following the closing of the seven facility sales

previously discussed. In April 2022, Guardian made a partial payment after exhausting the maximum allowable deferral of \$18.0 million under the restructuring agreement. Guardian is required to make contractual rent and interest payments going forward under the restructuring agreements.

Asset Sales and Impairments:

\$333 Million in Asset Sales – In the first quarter of 2022, the Company sold 27 facilities for \$332.6 million in cash, recognizing a gain of approximately \$113.6 million. The proceeds and gain primarily relate to the March 31, 2022 sale of 22 facilities that were previously leased and operated by Gulf Coast Health Care LLC (together with certain affiliates “Gulf Coast”). The net cash proceeds from the Gulf Coast sale, including related costs accrued for as of the end of the first quarter, were \$304.0 million and we recognized a net gain of approximately \$113.5 million.

Impairments and Assets Held for Sale– During the first quarter of 2022, the Company recorded a \$3.5 million net impairment charge to reduce the net book value of two SNFs to their estimated fair value.

Nareit Funds From Operations (“Nareit FFO”), Adjusted FFO and Funds Available for Distribution (“FAD”) are non-GAAP financial measures. For purposes of the Securities and Exchange Commission’s Regulation G, a non-GAAP financial measure is a numerical measure of a company’s historical or future financial performance, financial position or cash flows that exclude amounts, or is subject to adjustments that have the effect of excluding

amounts, that are included in the most directly comparable financial measure calculated and presented in accordance with GAAP in the income statement, balance sheet or statement of cash flows (or equivalent statements) of the company, or include amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable financial measure so calculated and presented. As used in this press release, GAAP refers to generally accepted accounting principles in the United States of America. Pursuant to the requirements of Regulation G, the Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company calculates and reports Nareit FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts (“Nareit”), and consequently, Nareit FFO is defined as net income (computed in accordance with GAAP), adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets, and after adjustments for unconsolidated partnerships and joint ventures and changes in the fair value of warrants. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. Revenue recognized based on the application of security deposits and letters of credit or based on the ability to offset against other financial instruments is included within Nareit FFO. The Company believes that Nareit FFO, Adjusted FFO and FAD are important supplemental measures of its operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term funds from operations was designed by the real estate industry to address this issue. Funds from operations described herein is not necessarily comparable to funds from operations of other real estate investment trusts, or REITs, that do not use the same definition or implementation guidelines or interpret the standards differently from the Company.

Adjusted FFO is calculated as Nareit FFO excluding the impact of non-cash stock-based compensation and certain revenue and expense items (e.g., acquisition, merger and transition related costs, write-off of straight-line accounts receivable, recoveries and provisions for credit losses (excluding certain cash recoveries on impaired loans), severance, etc.). FAD is calculated as Adjusted FFO less non-cash interest expense and non-cash revenue, such as straight-line rent. The Company believes these measures provide an enhanced measure of the operating performance of the Company’s core portfolio as a REIT. The Company’s computation of Adjusted FFO and FAD may not be comparable to the Nareit definition of funds from operations or to similar measures reported by other REITs, but the Company believes that they are appropriate measures for this Company.

The Company uses these non-GAAP measures among the criteria to measure the operating performance of its business. The Company also uses FAD among the performance metrics for performance-based compensation of officers. The Company further believes that by excluding the effect of depreciation, amortization, impairments on real estate assets and gains or losses from sales of real estate, all of which are based on historical costs, and which may be of limited relevance in evaluating current performance, funds from operations can facilitate comparisons of operating performance between periods and between other REITs. The Company offers these measures to assist the users of its financial statements in

analyzing its operating performance and not as measures of liquidity or cash flow. These non-GAAP measures are not measures of financial performance under GAAP and should not be considered as measures of liquidity, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP. Investors and potential investors in the Company's securities should not rely on these non-GAAP measures as substitutes for any GAAP measure, including net income.
