Dutton Associates Announces Investment Opinion: Pressure BioSciences Strong Speculative Buy Rating In Initiating Coverage By Dutton Associates

EL DORADO HILLS, Calif.--(BUSINESS WIRE)--

Dutton Associates initiates coverage of Pressure BioSciences (OTCBB:PBIO) with a Strong Speculative Buy rating and a 12 month target price of \$10. The 17-page report by Dutton senior analyst Denise T. Resnik, M.S. is available at www.jmdutton.com as well as from First Call, Bloomberg, Zacks, Reuters, Knobias, and other leading financial portals.

Pressure BioSciences has developed a unique and superior technology for the preparation of biological laboratory samples. The Company is in the early stages of commercialization of its product platform. We believe that as sales ramp up in coming quarters, investors will increasingly recognize the value inherent to this technology, and the shares will begin to reflect the substantial profits that we believe the Company can generate beginning in 2010. It focuses on the development and commercialization of a novel, platform technology called Pressure Cycling Technology (PCT). PCT uses alternating cycles of hydrostatic pressure between ambient and ultra-high levels (up to 35,000 psi and greater) at controlled temperatures to rapidly and repeatedly control the interactions of biomolecules and to induce cell lysis (disruption) for extraction of components. Pressure Cycling Technology offers a number of advantages over earlier methods of sample preparation. We believe that as the coming 12-month period progresses, Pressure BioSciences will begin to demonstrate its ability to place a rapidly-increasing number of Barocyclers, and that the potential for substantial profits beginning in 2010 will begin to be recognized in these shares. Accordingly, we have established a 12-month price target of \$10. Revenues are projected at \$5.9 million and \$16.4 million in 2008 and 2009 respectively, with diluted EPS estimated at \$(1.85) and \$(0.64) in 2008 and 2009.

About Dutton Associates

Dutton Associates is one of the largest independent investment research firms in the U.S. Its 30 senior analysts are primarily CFAs, and have expertise in many industries. Dutton & Associates provides continuing analyst coverage of over 140 enrolled companies, and its research, estimates, and ratings are carried in all the major databases serving institutions and online investors.
