Boardwalktech to Exhibit at Gartner Supply Chain Executive Conference 2019

CUPERTINO, CA , May 10, 2019 /PRNewswire/ - (TSXV:BWLK) – Boardwalktech Software Corp. ("Boardwalktech"), a leading digital ledger platform and enterprise software solutions company, announced that it will be an exhibitor at the upcoming Gartner Supply Chain Executive Conference 2019 on May 13 - 16 in Phoenix, AZ. Senior management will be available for on-site meetings and demonstrations of the Boardwalktech Platform at booth #131.

Whether an enterprise is trying to innovate its supply chain operations, enable a deep transformation or expand on current digital initiatives, this year's conference will help enterprises determine how and where to concentrate its efforts, from technology to leadership. Many companies are still working on transforming their supply chain operations to 100% digital and multi-party exchanges between trading partners are one of the more difficult transformation areas with many companies still relying on email and spreadsheets to "get the work done." In fact, a recent survey indicated that two-thirds of companies consider Excel a supply chain system.

For Boardwalktech and its customers, the future is enabling a path to a 100% digital enterprise supply chain. Through the Boardwalktech Platform, we simplify collaboration, with a central ledger to exchange enterprise information between multiple parties, and work with our customers to transform old, manual ways of working together into modern digital workflows, so our customers, their customers, and trading partners get what they need, when they need it. Imagine an entire enterprise value network aligned and connected on one digital ledger platform enabling seamless collaboration, workflow, with machine learning and analytics. Boardwalktech already has over 26 Fortune 500 companies utilizing and deploying our platform into everyday critical operations, generating significant ROI for these customers and quicker time-to-market than competitive alternatives.

"Boardwalktech's customers have been using our patented Digital Ledger Technology Platform to deploy multi-party, collaborative applications for over 10 years," states J.B. Kuppe, SVP of Marketing of Boardwalktech. "At this year's conference, Boardwalktech will be highlighting the capabilities of its digital ledger platform and showcasing enterprise software solutions for the supply chain including trade promotion, pricing and revenue management, sales & operations planning, order and inventory management, and many more. We are excited to also announce new emerging blockchain digital ledger applications focused on track & trace, sourcing, and trusted multi-party supplier collaboration. We help our customers work better, faster, together which is essential for competing in today's global market."

Boardwalktech has already received significant early booking requests for on-site meetings at its booth, so please contact us as remaining slots are limited. For more information, email info@boardwalktech.com

About the Gartner Supply Chain Executive Conference 2019

[Gartner Supply Chain Executive Conference 2019](#) is the world's most important gathering of supply chain leaders. Disruptions large and small confront today's supply chains on a daily basis. At this year's conference, chief supply chain officers and their leadership teams focus how to recognize the impacts of disruptions and create transformational strategies that empower the organization to exceed performance expectations.

About Boardwalktech Software Corp.

Boardwalktech has developed a patented Digital Ledger Technology Platform that is in use today by 26 of the Fortune 500 running over 100 live mission critical applications world-wide. The platform allows for multi-party collaboration, provenance, verification and immutable blockchain transactions on a trusted, shared, and secured cloud or on-premise software service. The Boardwalktech platform allows rapid digital ledger application development on any device or user interface and full integration with enterprise systems of record.

Forward-Looking Information and Statements

This press release contains certain "forward-looking information" within the meaning of applicable Canadian securities legislation and may also contain statements that may constitute "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking information and statements are not representative of historical facts or information or current condition, but

instead represent only the Company's beliefs regarding future events, plans or objectives, many of which, by their nature, are inherently uncertain and outside of the Company's control. Generally, such forward-looking information or statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or may contain statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "will continue", "will occur" or "will be achieved". The forward-looking information contained herein may include, but is not limited to, information concerning the Offering (including the completion of any additional tranches of the Offering), the use of the proceeds raised under the Offering and the anticipated resolution of the Company's negotiations with its lender under its existing loan agreement.

By identifying such information and statements in this manner, the Company is alerting the reader that such information and statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such information and statements.

An investment in securities of the Company is speculative and subject to several risks including, without limitation, the risks discussed under the heading "Risk Factors" in the Company's filing statement dated May 30, 2018. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information and forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

In connection with the forward-looking information and forward-looking statements contained in this press release, the Company has made certain assumptions. Although the Company believes that the assumptions and factors used in preparing, and the expectations contained in, the forward-looking information and statements are reasonable, undue reliance should not be placed on such information and statements, and no assurance or guarantee can be given that such forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information and statements. The forward-looking information and forward-looking statements contained in this press release are made as of the date of this press release, and the Company does not undertake to update any forward-looking information and/or forward-looking statements that are contained or referenced herein, except in accordance with applicable securities laws. All subsequent written and oral forward-looking information and statements attributable to the Company or persons acting on its behalf is expressly qualified in its entirety by this notice.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
