# VAALCO and Consortium Provisionally Awarded Two Offshore Blocks in Gabon

HOUSTON, Oct. 11, 2021 (GLOBE NEWSWIRE) -- VAALCO Energy, Inc. (NYSE: EGY; LSE: EGY) (“VAALCO” or the “Company”) today announced that it has entered into a consortium with BW Energy and Panoro Energy and the consortium has been provisionally awarded two blocks in the 12<sup>th</sup> Offshore Licensing Round in Gabon. The award is subject to concluding the terms of the production sharing contracts (“PSC”) with the Gabonese government. BW Energy will be the operator with a 37.5% working interest, with VAALCO (37.5% working interest) and Panoro Energy (25% working interest) as non-operating joint owners. The two blocks, G12-13 and H12-13, are adjacent to VAALCO’s Etame PSC as well as BW Energy and Panoro’s Dussafu PSC offshore Southern Gabon, and cover an area of 2,989 square kilometers and 1,929 square kilometers, respectively. Both Etame and Dussafu have been highly successful exploration, development and production projects undertaken by the consortium members over the past 20 years with approximately 250 million barrels discovered to date.

George Maxwell, VAALCO’s Chief Executive Officer, commented, “We are very excited to continue to expand our presence in Gabon and partner with BW Energy and Panoro Energy. This consortium is uniquely positioned with the knowledge, experience and expertise of progressing world class discoveries in Gabon adjacent to these awarded blocks. Our goal will be to efficiently and effectively explore, develop and potentially produce additional resources in Gabon. Our strategy remains unchanged, to maximize shareholder return opportunities in the area we know best, West Africa. This opportunity fits perfectly with that strategy and allows us to leverage our debt-free balance sheet and significant cash flow generation to help profitably and sustainably grow VAALCO.”

The two blocks will be held by the consortium and the PSCs over the blocks will have two exploration periods totaling eight years which may be extended by a further two years. During the first exploration period, the joint owners intend to reprocess existing seismic and carry out a 3-D seismic campaign on these two blocks and have also committed to drilling exploration wells on both blocks. In the event the consortium elects to enter the second exploration period, the consortium will be committed to drilling at least another exploration well on each of the awarded blocks.

## About VAALCO

VAALCO, founded in 1985, is a Houston, USA based, independent energy company with production, development and exploration assets in the West African region.

The Company is an established operator within the region, holding a 63.6% participating interest in the Etame Marin block, located offshore Gabon, which to date has produced over 120 million barrels of crude oil and of which the Company is the operator.

## **Forward Looking Statements**

This document includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this document that address activities, events, plans, expectations, objectives or developments that VAALCO expects, believes or anticipates will or may occur in the future are forward-looking statements. These statements may include statements related to the impact of the COVID-19 pandemic, including the recent sharp decline in the global demand for and resulting global oversupply of crude oil and the resulting steep decline in oil prices, production quotas imposed by Gabon, disruptions in global supply chains, quarantines of our workforce or workforce reductions and other matters related to the pandemic, well results, wells anticipated to be drilled and placed on production, future levels of drilling and operational activity and associated expectations, the implementation of the Company’s business plans and strategy, prospect evaluations, prospective resources and reserve growth, its activities in Equatorial Guinea, expected sources of and potential difficulties in obtaining future capital funding and future liquidity, its ability to restore production in non-producing wells, our ability to find a replacement for the FPSO or to renew the FPSO charter, future operating losses, future changes in crude oil and natural gas prices, future strategic alternatives, future and pending acquisitions, capital expenditures, future drilling plans, acquisition and interpretation of seismic data and costs thereof, negotiations with governments and third parties, timing of the settlement of Gabon income taxes, and expectations regarding processing facilities, production, sales and financial projections. These statements are based on assumptions made by VAALCO based on its experience and perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond VAALCO’s control. These risks include, but are not limited to, crude oil and natural gas price volatility, the impact of production quotas imposed by Gabon in response to production cuts agreed to as a member of OPEC, inflation, general economic conditions, the outbreak of COVID-19, the Company’s success in discovering, developing and producing reserves, production and sales differences due to timing of liftings, decisions by future lenders, the risks associated with liquidity, lack of availability of goods, services and capital, environmental risks, drilling risks, foreign regulatory and operational risks, and regulatory changes.

Investors are cautioned that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. VAALCO disclaims any intention or obligation to

update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

### **Inside Information**

This announcement contains inside information as defined in Regulation (EU) No. 596/2014 on market abuse (“MAR”) and is made in accordance with the Company’s obligations under article 17 of MAR.
