Genius Brands Partners With Pacific Digital Distribution to Launch Baby Genius(R) Streaming Service in October 2013

Subscription-Based Service Gives Consumers Immediate Access to Entire Catalog of Baby Genius(R) Content Via Mobile and Connected Devices Through PDD's Proprietary Cloud Video On Demand WAVE Platform

SAN DIEGO, Sept. 25, 2013 (GLOBE NEWSWIRE) -- Genius Brands International, Inc. (OTCQB:GNUS), developer and marketer of entertainment products including the award-winning [Baby Genius](#)[®] line of music and edutainment products and characters, today announced it has formed a strategic partnership with Pacific Media Technologies' Pacific Digital Distribution (PDD) division to bring the entire catalog of Baby Genius[®] video, music and digital content to a global audience.

PDD, a digital video services company dedicated to the distribution of content to broadcast, cable, Internet and mobile video platforms, will connect consumers to Baby Genius[®] content through its proprietary Cloud Video On Demand WAVE platform. WAVE is an enabled content management system that includes an e-commerce model for online payment gateways and manages digital distribution to any end-points including all mobile and connected devices, and content models including VOD and subscription rentals.

The new Baby Genius[®] streaming service will be available to consumers beginning in October 2013 at a monthly subscription rate of \$5.99 for immediate access to 125 Baby Genius[®] videos and 500 Baby Genius[®] songs. Additional digital content including Baby Genius[®] ebooks and Baby Genius[®] apps will be added to the service in 2014.

"The WAVE platform provides our customers with tremendous value and a compelling entertainment experience. Consumers are looking for inexpensive and hassle-free ways for their children to view educational and fun shows, and PDD's Wave platform meets that need head-on. Instead of shifting from service to service to enjoy individual titles, subscribers will be able to create custom playlists for hours of enjoyment almost anywhere," stated Genius Brands CEO and Chairman Klaus Moeller.

"We are excited to partner with Baby Genius[®] and assist with the VOD delivery of their brilliant catalog of children's educational products and media," said Bill Hynes, CEO of

Pacific Media Technologies. "Our WAVE platform connects directly to today's Smart TVs and mobile devices using an Internet connection to deliver Blu-ray and DVD-quality video instantly. Baby Genius[®] customers can now choose from an enormous selection of shows, music, games and e-books while streaming from the cloud without the need of a DVD player."

"The launch of PDD's WAVE Video On Demand Cloud platform and Baby Genius[®] products demonstrates PDD's commitment to creating an opportunity that instantly delivers the entertainment consumers want directly to their Smart TVs and mobile devices," said Ruben Garcia, PDD Director of New Media.
