Dr. Cohen will provide a corporate overview with a specific focus on the clinical development plans for the Company's lead product candidate Resunab, a novel synthetic oral drug with unique anti-inflammatory and anti-fibrotic activity, under development for cystic fibrosis (CF) and diffuse cutaneous systemic sclerosis (scleroderma).

Live webcasts of both presentations will be available on the Company's website (www.CorbusPharma.com) by accessing the [IR Calendar](#) in the [News and Events](#) section of the [Investor Relations](#) page. The webcast replays will be available approximately two hours after each presentation ends and will be accessible for one month.

About Resunab™

Resunab™ is a novel synthetic oral drug with unique anti-inflammatory and anti-fibrotic activity. Pre-clinical and Phase 1 studies have shown Resunab to have a favorable safety profile coupled with promising potency in pre-clinical models of inflammation and fibrosis. Resunab binds to the CB2 receptor of immune cells and triggers a process known as "inflammatory resolution," in effect turning chronic inflammation "off."

About Corbus Pharmaceuticals

Corbus Pharmaceuticals is a clinical stage pharmaceutical company focused on the development and commercialization of novel therapeutics to treat rare life-threatening inflammatory-fibrotic diseases with clear unmet medical needs. Our lead product candidate Resunab is a novel oral anti-inflammatory drug scheduled to commence Phase 2 clinical trials for the treatment of cystic fibrosis and diffuse scleroderma in 2015.
