# Lightbridge to Present at the 8th Annual Gateway Conference

RESTON, Va., Aug. 27, 2019 (GLOBE NEWSWIRE) -- [Lightbridge Corporation](#) (NASDAQ: LTBR), a nuclear fuel technology company, today announced that management will present at the 8<sup>th</sup> Annual Gateway Conference being held on September 4-5, 2019 at the Four Seasons Hotel in San Francisco.

Aaron Totemeier, Vice President of Fuel Cycle Technology and Fuel Fabrication at Lightbridge is scheduled to present on Thursday, September 5<sup>th</sup> at 8:30 a.m. Pacific Time, with one-on-one meetings to be held throughout the conference.

To receive additional information, request an invitation or to schedule a one-on-one meeting, please email [conference@gatewayir.com](mailto:conference@gatewayir.com).

## About the Gateway Conference

The 8th Annual Gateway Conference is an invite-only conference presented by Gateway Investor Relations, a full-service financial communications firm. Gateway was created to bring together the most compelling companies with the nation's top institutional investors and analysts. This year's event features over 100 companies from a number of growth industries, including technology, business and financial services, consumer, digital media, clean technology and life sciences. The format has been designed to give attendees direct access to senior management via company presentations, Q&A sessions and one-on-one meetings. Follow the Gateway Conference on Twitter and join the conversation using the #GatewayIRConference hashtag. For more information, visit [gatewayir.com/conference](http://gatewayir.com/conference).

## About Lightbridge Corporation

Lightbridge (NASDAQ: LTBR) is a nuclear fuel technology development company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors, which significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. In January 2018, Lightbridge and Framatome, Inc. formed a 50-50 joint venture, Enfission, LLC, to develop, license, manufacture, and sell nuclear fuel assemblies based on Lightbridge-designed metallic fuel technology and other advanced nuclear fuel intellectual property. Enfission has the exclusive rights to this technology and is responsible for the development of manufacturing processes and fuel assembly designs for pressurized water reactors (PWRs), boiling water reactors (BWRs), water-cooled small modular reactors, and water-cooled research reactors developed around this intellectual property. PWRs and BWRs constitute the most widely used reactor types in the world. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. In addition to distributions from Enfission based on the parties' ownership interest in the joint venture, Lightbridge anticipates receiving future licensing revenues in connection with sales by Enfission of nuclear fuel incorporating its intellectual property.

Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence. For more information please visit: [www.ltbridge.com](http://www.ltbridge.com).
