Sonim Builds Momentum in Public Safety Innovation at IWCE 2019

Ultra-tough New Products and Strategic Partnerships Drive Transformation of Mission Critical Communications

SAN MATEO, Calif., Feb. 28, 2019 /PRNewswire/ --[Sonim Technologies](#), a leading U.S. provider of ultra-rugged mobility solutions designed specifically for task workers physically engaged in their work environments, is teaming up with strategic partners to showcase our latest devices and accessories at the [International Wireless Communications Expo \(IWCE\)](#), March 4-8 in Las Vegas.

"Now that adoption of dedicated broadband networks for public safety is on the rise globally, Sonim wants to ensure that first responders leverage only the best mission critical technology to make them faster, smarter and safer on the job," said Sonim CEO, Bob Plaschke. "Last year's launches of the [XP8](#), [XP5s](#) and the Rapid Deployment Kit (RDK) are proving to be vital new tools—all of which greatly enhance the way public safety communicates in emergency and non-emergency situations."

Sonim continues to build momentum in creating purpose-built experiences for end-users and has expanded its ecosystem to more than 800 mobile application partners. Pushing for greater leadership and more innovation, Sonim has collaborated with partners to develop evolved communications solutions and services for public safety. IWCE attendees can demo or learn about Sonim partner solutions at these booths in the Exhibit Hall:
