Company builds on momentum with significant year-over-year revenue growth

REDMOND, Wash.--(BUSINESS WIRE)-- [MicroVision, Inc.](#) (NASDAQ:MVIS), a leader in innovative ultra-miniature projection display and imaging technology, today announced its results for the second quarter of 2015.

MicroVision continued to build on the strong momentum witnessed in 2014. Revenue in the quarter was \$4 million, showing significant growth both year-over-year and sequentially. The company delivered three times as many components to its Fortune Global 100 customer during the second quarter as it did in the first quarter 2015. Revenue for the quarter was comprised of component deliveries (product), royalties and contract revenue: component deliveries and royalties accounted for \$2.5 million while \$1.5 million was from contract revenue following completion of a display module support services agreement with MicroVision's Fortune Global 100 customer.

In addition to increasing shipments of components, MicroVision continued to engage in cooperative business development activities with its Fortune Global 100 customer. Also during the second quarter, the company continued to make solid progress developing product opportunities for pico projection and other applications.
