Net Interest Income

Net Interest Income (FTE, \$B)¹

Net Interest Yield (FTE)¹

- Net interest income of \$10.2B (\$10.3B FTE¹)
 - Increased \$36MM from 1Q21, driven by higher investment securities balances due to the deployment of excess cash and one additional accrual day, partially offset by lower PPP fees, the absence of 1Q legacy litigation settlement proceeds, and higher premium amortization
- Net interest yield of 1.61% decreased 7 bps from 1Q21¹
 - Excluding Global Markets, net interest yield of 1.83%
- Interest rate sensitivity as of June 30, 2021²
 - +100 bps parallel shift in the interest rate yield curve is estimated to benefit net interest income by \$8.0B over the next 12 months

Notes: FTE stands for fully taxable-equivalent basis. GM stands for Global Markets.

¹ Represent non-GAAP financial measures. Net interest yield adjusted to exclude Global Markets NII of \$1.0B, \$1.0B, \$1.1B, \$1.1B and \$1.3B and average earning assets of \$531.0B, \$495.3B, \$472.4B, \$476.2B and \$478.6B for 2Q21, 1Q21, 4Q20, 3Q20 and 2Q20, respectively. The Company believes the presentation of net interest yield excluding Global Markets provides investors with transparency of NII and net interest yield in core banking activities. For important presentation information, see slide 31.

² NII asset sensitivity represents banking book positions.

Expense and Efficiency

Total Noninterest Expense (\$B)

Efficiency Ratio

- Noninterest expense of \$15.0B declined \$0.5B from 1Q21, driven by the absence of seasonally elevated payroll taxes, ~\$300MM for the acceleration of expenses due to incentive compensation award changes, and a \$240MM impairment charge for real estate rationalization, which were incurred in 1Q21, as well as lower incentive compensation and severance costs during 2Q21, partially offset by a \$500MM contribution to the Bank of America Foundation, and ~\$300MM associated with processing transactional card claims related to unemployment benefits
- 2Q21 expenses increased \$1.6B from 2Q20, and reflect higher compensation and benefits, a \$500MM contribution to the Bank of America Foundation, and ~\$300MM associated with processing transactional card claims related to unemployment benefits

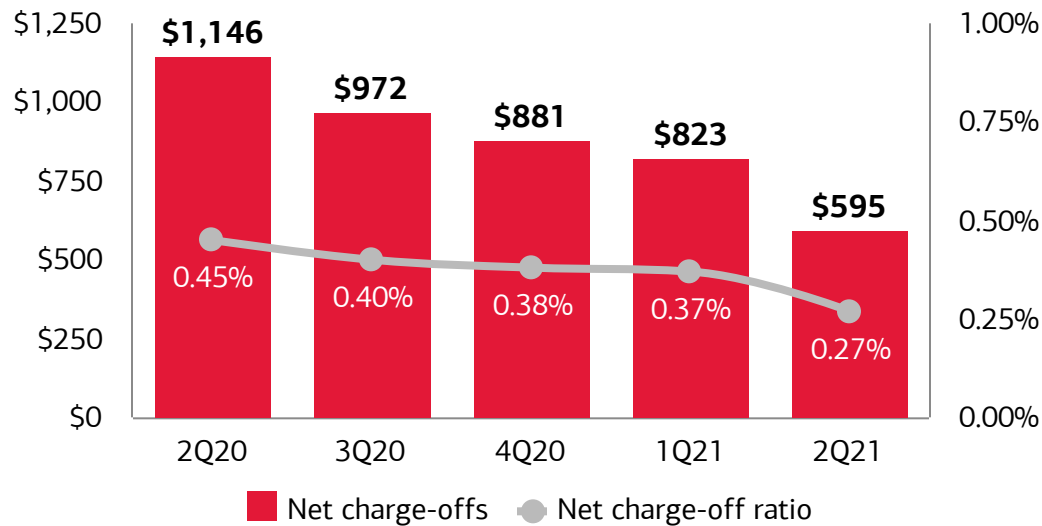

Note: Amounts may not total due to rounding.

¹ 3Q19 efficiency ratio is adjusted to exclude the 3Q19 impairment charge of \$2.1B related to the termination of the merchant services joint venture, which represents a non-GAAP financial measure. Reported 3Q19 efficiency ratio was 67%. See note D on slide 28 for reconciliations.

Asset Quality

Net Charge-offs (\$MM)¹

Provision for Credit Losses (\$MM)

¹ Excludes loans measured at fair value.

- Total net charge-offs of \$595MM¹ decreased \$228MM from 1Q21
 - Consumer net charge-offs of \$513MM decreased \$180MM, driven by Card, as charge-off volume from expired deferrals decreased
 - Commercial net charge-offs of \$82MM decreased \$48MM
- Net charge-off ratio of 27 bps decreased 10 bps from 1Q21
- Provision benefit of \$1.6B included a \$2.2B net reserve release, reflecting an improved macroeconomic outlook
 - Consumer reserve release of \$1.2B, primarily driven by Card
 - Commercial reserve release of \$1.0B
- Allowance for loan and lease losses of \$14.1B represented 1.55% of total loans and leases¹
 - Total allowance of \$15.8B includes \$1.7B for unfunded commitments
- Nonperforming loans (NPLs) decreased \$0.3B from 1Q21, driven by Commercial
 - 51% of Consumer NPLs are contractually current
- Commercial reservable criticized utilized exposure of \$28.9B decreased \$5.4B from 1Q21, driven by broad-based declines across industries

- Net income of \$2.4B increased \$1.7B from 2Q20, driven primarily by lower provision for credit losses
- Revenue of \$5.1B was relatively flat vs. 2Q20, as higher leasing-related revenue and treasury fees were offset by lower NII
- Total Corporation investment banking fees of \$2.1B (excl. self-led) decreased \$37MM, or 2%, from 2Q20
 - Third best quarter for firm-wide fees post-merger, after 1Q21 and 2Q20
- Provision benefit of \$0.8B reflects the current quarter reserve release, compared to a reserve build in the year-ago quarter, due to an improved macroeconomic outlook
- Noninterest expense of \$2.6B increased 17% from 2Q20, reflecting higher operating costs
- Average deposits of \$507B increased \$13B, or 3%, from 2Q20, reflecting client liquidity and valued relationships
- Average loans and leases of \$325B decreased 23% from 2Q20, driven by continued paydowns

- Net income of \$1.9B increased \$1.6B from 1Q21, driven by a \$2.0B positive income tax adjustment related to the revaluation of U.K. deferred tax assets, triggered by a change in U.K. tax law³
- Revenue decreased QoQ, primarily due to higher Environmental, Social and Governance (ESG) investment activity and the absence of mark-to-market gains that benefited 1Q21
- Total Corporate effective tax rate (ETR) for the quarter was a benefit of 15%; excluding the U.K. tax revaluation, the ETR for the quarter would have been approximately 11%; further adjusting for ESG tax credits, the ETR would have been 25%

¹ All Other primarily consists of asset and liability management (ALM) activities, liquidating businesses and certain expenses not otherwise allocated to a business segment. ALM activities encompass interest rate and foreign currency risk management activities for which substantially all of the results are allocated to our business segments.

² Represents a non-GAAP financial measure. For more information and a reconciliation to GAAP, see note B on slide 28. For important presentation information, see slide 31.

³ Absent the \$2.0B income tax adjustment, the reported 2Q21 net income (loss) would have been (\$176MM) and a decline of \$432MM from 1Q21. For important presentation information, see slide 31.

Notes

^A Reserve Build (or Release) is calculated by subtracting net charge-offs for the period from the provision for credit losses recognized in that period. The period-end allowance, or reserve, for credit losses reflects the beginning of the period allowance adjusted for net charge-offs recorded in that period plus the provision for credit losses recognized in that period.

^B Pretax, pre-provision income (PTPI) at the consolidated level is a non-GAAP financial measure calculated by adjusting consolidated pretax income to add back provision for credit losses. Similarly, PTPI at the segment level is a non-GAAP financial measure calculated by adjusting the segments' pretax income to add back provision for credit losses. Management believes that PTPI (both at the consolidated and segment level) is a useful financial measure as it enables an assessment of the Company's ability to generate earnings to cover credit losses through a credit cycle as well as provides an additional basis for comparing the Company's results of operations between periods by isolating the impact of provision for credit losses, which can vary significantly between periods. See reconciliation below.

^C Global Liquidity Sources (GLS) include cash and high-quality, liquid, unencumbered securities, inclusive of U.S. government securities, U.S. agency securities, U.S. agency MBS, and a select group of non-U.S. government and supranational securities, and other investment-grade securities, and are readily available to meet funding requirements as they arise. It does not include Federal Reserve Discount Window or Federal Home Loan Bank borrowing capacity. Transfers of liquidity among legal entities may be subject to certain regulatory and other restrictions.

^D The non-cash impairment charge related to the notice of termination of the merchant services joint venture reduced 3Q19 net income by \$1.7B, which included an increase in noninterest expense a reduction in pretax income of \$2.1B and a reduction in income tax expense of \$373MM. The impairment charge negatively impacted the Company's 3Q19 efficiency ratio by 909 bps.

^E Revenue for all periods included net debit valuation adjustments (DVA) on derivatives, as well as amortization of own credit portion of purchase discount and realized DVA on structured liabilities. Net DVA gains (losses) were (\$34MM), (\$2MM) and (\$261MM) for 2Q21, 1Q21 and 2Q20, respectively, and (\$36MM), \$39MM, (\$121MM) and (\$115MM) for 2021 YTD, 2020 YTD, 2019 YTD and 2018 YTD, respectively. Net DVA gains (losses) included in FICC revenue were (\$28MM), (\$9MM) and (\$245MM) for 2Q21, 1Q21 and 2Q20, respectively, and (\$37MM), \$29MM, (\$109MM) and (\$106MM) for 2021 YTD, 2020 YTD, 2019 YTD and 2018 YTD, respectively. Forward-Looking Statements

Bank of America Corporation (the “Company”) and its management may make certain statements that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often use words such as “anticipates,” “targets,” “expects,” “hopes,” “estimates,” “intends,” “plans,” “goals,” “believes,” “continue” and other similar expressions or future or conditional verbs such as “will,” “may,” “might,” “should,” “would” and “could.” Forward-looking statements represent the Company’s current expectations, plans or forecasts of its future results, revenues, provision for credit losses, expenses, efficiency ratio, capital measures, strategy, and future business and economic conditions more generally, and other future matters. These statements are not guarantees of future results or performance and involve certain known and unknown risks, uncertainties and assumptions that are difficult to predict and are often beyond the Company’s control. Actual outcomes and results may differ materially from those expressed in, or implied by, any of these forward-looking statements.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties more fully discussed under Item 1A. Risk Factors of the Company’s 2020 Annual Report on Form 10-K and in any of the Company’s subsequent Securities and Exchange Commission filings: the Company’s potential judgments, damages, penalties, fines and reputational damage resulting from pending or future litigation and regulatory investigations, proceedings and enforcement actions, including as a result of our participation in and execution of government programs related to the Coronavirus Disease 2019 (COVID-19) pandemic; the possibility that the Company’s future liabilities may be in excess of its recorded liability and estimated range of possible loss for litigation, and regulatory and government actions; the possibility that the Company could face increased claims from one or more parties involved in mortgage securitizations; the Company’s ability to resolve representations and warranties repurchase and related claims; the risks related to the discontinuation of the London Interbank Offered Rate and other reference rates, including increased expenses and litigation and the effectiveness of hedging strategies; uncertainties about the financial stability and growth rates of non-U.S. jurisdictions, the risk that those jurisdictions may face difficulties servicing their sovereign debt, and related stresses on financial markets, currencies and trade, and the Company’s exposures to such risks, including direct, indirect and operational; the impact of U.S. and global interest rates, inflation, currency exchange rates, economic conditions, trade policies and tensions, including tariffs, and potential geopolitical instability; the impact of the interest rate environment on the Company’s business, financial condition and results of operations; the possibility that future credit losses may be higher than currently expected due to changes in economic assumptions, customer behavior, adverse developments with respect to U.S. or global economic conditions and other uncertainties; the Company’s concentration of credit risk; the Company’s ability to achieve its expense targets and expectations regarding revenue, net interest income, provision for credit losses, net charge-offs, effective tax rate, loan growth or other projections; adverse changes to the Company’s credit ratings from the major credit rating agencies; an inability to access capital markets or maintain deposits or borrowing costs; estimates of the fair value and other accounting values, subject to impairment assessments, of certain of the Company’s assets and liabilities; the estimated or actual impact of changes in accounting standards or assumptions in applying those standards; uncertainty regarding the content, timing and impact of regulatory capital and liquidity requirements; the impact of adverse changes to total loss-absorbing capacity requirements, stress capital buffer requirements and/or global systemically important bank surcharges; the potential impact of actions of the Board of Governors of the Federal Reserve System on the Company’s capital plans; the effect of changes in or interpretations of income tax laws and regulations; the impact of implementation and compliance with U.S. and international laws, regulations and regulatory interpretations, including, but not limited to, recovery and resolution planning requirements, Federal Deposit Insurance Corporation assessments, the Volcker Rule, fiduciary standards, derivatives regulations and the Coronavirus Aid, Relief, and Economic Security Act and any similar or related rules and regulations; a failure or disruption in or breach of the Company’s operational or security systems or infrastructure, or those of third parties, including as a result of cyber-attacks or campaigns; the impact on the Company’s business, financial condition and results of operations from the United Kingdom’s exit from the European Union; the impact of climate change; the impact of any future federal government shutdown and uncertainty regarding the federal government’s debt limit or changes in fiscal, monetary or regulatory policy; the emergence of widespread health emergencies or pandemics, including the magnitude and duration of the COVID-19 pandemic and its impact on the U.S. and/or global, financial market conditions and our business, results of operations, financial condition and prospects; the impact of natural disasters, extreme weather events, military conflict, terrorism or other geopolitical events; and other matters.

Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Important Presentation Information

- The information contained herein is preliminary and based on Company data available at the time of the earnings presentation. It speaks only as of the particular date or dates included in the accompanying slides. Bank of America does not undertake an obligation to, and disclaims any duty to, update any of the information provided.
- The Company may present certain metrics and ratios, including year-over-year comparisons of revenue, noninterest expense and pretax income, excluding certain items (e.g., DVA) that are in non-GAAP financial measures. The Company believes the use of these non-GAAP financial measures provides additional clarity in understanding its results of operations and trends. For more information about the non-GAAP financial measures contained herein, please see the presentation of the most directly comparable financial measures calculated in accordance with GAAP and accompanying reconciliations in the earnings press release for the quarter ended June 30, 2021, and other earnings-related information available through the Bank of America Investor Relations website at: <https://investor.bankofamerica.com/quarterly-earnings>.
- The Corporation presents certain key financial and nonfinancial performance indicators that management uses when assessing consolidated and/or segment results. The Corporation believes this information is useful because it provides management with information about underlying operational performance and trends. KPIs are presented in 2Q21 Financial Results on slide 7 and on the Summary Income Statement for each segment.
- The Company views net interest income and related ratios and analyses on a fully taxable-equivalent (FTE) basis, which when presented on a consolidated basis are non-GAAP financial measures. The Company believes managing the business with net interest income on an FTE basis provides investors with a more accurate picture of the interest margin for comparative purposes. The Company believes that the presentation allows for comparison of amounts from both taxable and tax-exempt sources and is consistent with industry practices. The FTE adjustment was \$110MM, \$111MM, \$113MM, \$114MM and \$128MM for 2Q21, 1Q21, 4Q20, 3Q20 and 2Q20, respectively.
- The Company allocates capital to its business segments using a methodology that considers the effect of regulatory capital requirements in addition to internal risk-based capital models. The Company's internal risk-based capital models use a risk-adjusted methodology incorporating each segment's credit, market, interest rate, business and operational risk components. Allocated capital is reviewed periodically and refinements are made based on multiple considerations that include, but are not limited to, risk-weighted assets measured under Basel 3 Standardized and Advanced approaches, business segment exposures and risk profile, and strategic plans. As a result of this process, in the first quarter of 2021, the Company adjusted the amount of capital being allocated to its business segments.
