We believe that the strength of the Company's unique investment strategy – which focuses on acyclical "defensive growth" companies that are well researched by New Mountain

Capital, L.L.C. (“New Mountain”), a leading alternative investment firm, is underscored by continued stable credit performance. The Company has had only eight portfolio companies, representing approximately \$125 million of the cost of all investments made since inception in October 2008, or approximately 2.0% of \$6.3 billion, go on non-accrual.

Robert A. Hamwee, CEO, commented: “The third quarter represented another strong quarter of performance for NMFC. We originated \$489 million of investments during the quarter which shifted our investment mix toward more senior investments. Additionally, we maintained a stable book value, continued to increase our leverage ratio and our portfolio remains healthy with no new investments placed on non-accrual.”

“As managers and as significant stockholders personally, we are pleased with the completion of another successful quarter,” added Steven B. Klinsky, NMFC Chairman. “We believe New Mountain’s strategy of focusing on acyclical “defensive growth” industries and on companies that we know well continues to prove a successful strategy and preserves stockholder value.”

Portfolio and Investment Activity¹

As of September 30, 2018, the Company’s NAV was approximately \$1,033.5 million and its portfolio had a fair value of approximately \$2,320.0 million in 93 portfolio companies, with a weighted average YTM at Cost² of approximately 11.0%. For the three months ended September 30, 2018, the Company made approximately \$488.5 million of originations and commitments³. The \$488.5 million includes approximately \$339.5 million of investments in eleven new portfolio companies and approximately \$149.0 million of follow-on investments in nineteen portfolio companies held as of June 30, 2018. For the three months ended September 30, 2018, the Company had approximately \$11.2 million of sales and cash repayments³ of approximately \$280.1 million.

Consolidated Results of Operations

The Company’s total investment income for the three months ended September 30, 2018 and 2017 were approximately \$60.5 million and \$51.2 million, respectively. For the three months ended September 30, 2018 and 2017, the Company’s total cash interest income from investments consisted of approximately \$35.1 million and \$32.5 million, respectively, payment-in-kind (“PIK”) and non-cash interest income from investments of approximately \$2.5 million and \$1.5 million, respectively, prepayment penalties of approximately \$2.0 million and \$1.6 million, respectively, net amortization of purchase premiums/discounts of approximately \$1.3 million and \$4.0 million, respectively, cash dividend income of approximately \$6.8 million and \$4.5 million, respectively, PIK and non-cash dividend income of approximately \$7.2 million and \$5.4 million, respectively, and other income of approximately \$5.6 million and \$1.7 million, respectively.

The Company’s total net expenses after income tax expense for the three months ended September 30, 2018 and 2017 were approximately \$33.4 million and \$24.9 million, respectively. Total net expenses after income tax expense for the three months ended September 30, 2018 and 2017 consisted of approximately \$14.8 million and \$9.5 million, respectively, of costs associated with the Company’s borrowings and approximately \$15.0 million and \$13.5 million, respectively, in net management and incentive fees. Since the

Company's initial public offering ("IPO"), the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. credit facility (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with and into the New Mountain Finance Holdings, L.L.C. credit facility (the "Holdings Credit Facility") on December 18, 2014. Post credit facility merger and to be consistent with the methodology since the IPO, New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser") will continue to waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments that were leveraged under the legacy SLF Credit Facility, which as of September 30, 2018 and 2017 totaled approximately \$446.6 million and \$321.4 million, respectively. For the three months ended September 30, 2018 and 2017, management fees waived were approximately \$1.8 million and \$1.5 million, respectively. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the three months ended September 30, 2018 and 2017 were approximately \$3.6 million and \$1.9 million, respectively.

For the three months ended September 30, 2018 and 2017, the Company recorded approximately \$3.2 million and \$(14.2) million, respectively, of net realized gains (losses), and \$(3.6) million and \$13.1 million of net changes in unrealized appreciation (depreciation) of investments and securities purchased under collateralized agreements to resell, respectively. For the three months ended September 30, 2018 and 2017, provision for taxes was approximately \$(0.0) million and \$(0.4) million, respectively, related to differences between the computation of income for United States ("U.S.") federal income tax purposes as compared to accounting principles generally accepted in the United States ("GAAP").

Liquidity and Capital Resources

As of September 30, 2018, the Company had cash and cash equivalents of approximately \$146.3 million and total statutory debt outstanding of approximately \$1,206.3 million⁴, which consisted of approximately \$466.0 million of the \$495.0 million of total availability on the Holdings Credit Facility, \$135.0 million of the \$135.0 million of total availability on the Company's senior secured revolving credit facility (the "NMFC Credit Facility"), \$270.3 million⁴ of convertible notes outstanding and \$335.0 million of unsecured notes outstanding. Additionally, the Company had \$165.0 million of SBA-guaranteed debentures outstanding as of September 30, 2018.

Portfolio and Asset Quality

The Company puts its largest emphasis on risk control and credit performance. On a quarterly basis, or more frequently if deemed necessary, the Company formally rates each portfolio investment on a scale of one to four. Each investment is assigned an initial rating of a "2" under the assumption that the investment is performing materially in-line with expectations. Any investment performing materially below our expectations would be downgraded from the "2" rating to a "3" or a "4" rating, based on the deterioration of the investment. An investment rating of a "4" could be moved to non-accrual status, and the final development could be an actual realization of a loss through a restructuring or impaired sale.

As of September 30, 2018, three portfolio companies had an investment rating of “4”. The Company’s investments in these portfolio companies had an aggregate cost basis of approximately \$16.5 million and an aggregate fair value of approximately \$7.3 million.

Recent Developments

The Company has had approximately \$37.4 million of originations and commitments since the end of the third quarter through November 2, 2018. This was offset by approximately \$31.6 million of repayments and \$1.6 million of sales during the same period.

On October 17, 2018, in connection with the registered public offering, the Company issued an additional \$1.8 million aggregate principal amount of five year unsecured notes that mature on October 1, 2023 (the “5.75% Unsecured Notes”) pursuant to the exercise of an over-allotment option by the underwriters of the 5.75% Unsecured Notes.

On November 1, 2018, the Company’s board of directors declared a fourth quarter 2018 distribution of \$0.34 per share payable on December 28, 2018 to holders of record as of December 14, 2018.

¹ Includes collateral for securities purchased under collateralized agreements to resell.

² References to “YTM at Cost” assume the accruing investments, including secured collateralized agreements, in our portfolio as of a certain date, the “Portfolio Date”, are purchased at cost on that date and held until their respective maturities with no prepayments or losses and are exited at par at maturity. This calculation excludes the impact of existing leverage. YTM at Cost uses the LIBOR curves at each quarter’s respective end date. The actual yield to maturity may be higher or lower due to the future selection of LIBOR contracts by the individual companies in the Company’s portfolio or other factors.

³ Excludes revolving credit facilities, netbacks, payment-in-kind (“PIK”) interest, bridge loans, return of capital and realized gains / losses.

⁴ Excludes the Company’s United States (“U.S.”) Small Business Administration (“SBA”)-guaranteed debentures. Includes premium received on additional convertible notes issued in September 2016.

ABOUT NEW MOUNTAIN FINANCE CORPORATION

New Mountain Finance Corporation is a closed-end, non-diversified and externally managed investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The Company's first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent it invests in the "last out" tranche. In some cases, the investments may also include small equity interests. The Company's investment activities are managed by its Investment Adviser, New Mountain Finance Advisers BDC, L.L.C., which is an investment adviser registered under the Investment Advisers Act of 1940, as amended. More information about New Mountain Finance Corporation can be found on the Company's website at <http://www.newmountainfinance.com>.
