# **New Mountain Finance Corporation Announces Completion of Offering of 4,312,500 Shares of Common Stock**

NEW YORK--(BUSINESS WIRE)-- New Mountain Finance Corporation (the “Company”) (NYSE: NMFC) announced today that it has completed an underwritten offering of 4,312,500 shares of its common stock (including 562,500 shares of common stock that were issued pursuant to the full exercise of the option granted to the underwriters to purchase additional shares) at a public offering price of \$13.57 per share. The Company’s investment adviser, New Mountain Finance Advisers BDC, L.L.C. (the “Adviser”), paid all of the underwriters’ sales load of \$0.42 per share. In addition, the Adviser paid to the underwriters an additional supplemental payment of \$0.18 per share, which reflects the difference between the actual public offering price of \$13.57 per share and the net proceeds of \$13.75 per share received by the Company in this offering. The net amount received by the Company is believed to be in excess of book value and is therefore accretive to shareholders.

The Company intends to use the net proceeds from the offering primarily for new investments in portfolio companies in accordance with its investment objective and strategies. The Company may also use a portion of such net proceeds for other general corporate purposes, including to temporarily repay indebtedness (which will be subject to re-borrowing), and other working capital needs.

The joint-lead book-running managers for the offering were Wells Fargo Securities, LLC, Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and Keefe, Bruyette & Woods, A *Stifel Company*. The co-managers were Janney Montgomery Scott LLC and Oppenheimer & Co. Inc.
