New Mountain Finance Corporation Announces Pricing of \$75 Million of Additional 5.75% Convertible Notes due 2023

NEW YORK--(BUSINESS WIRE)-- New Mountain Finance Corporation (the “Company”) (NYSE: NMFC) announced today the pricing of \$75 million in aggregate principal amount of additional 5.75% unsecured convertible notes due 2023 (the “Notes”). In addition, the Company has granted the underwriters of the Notes an option to purchase up to an additional \$11.25 million in aggregate principal amount of the Notes. The closing of the offering is subject to customary closing conditions and is expected to take place on June 7, 2019. The Notes constitute a further issuance of, rank equally in right of payment with, and form a single series with the \$115 million in aggregate principal amount of the Notes that the Company issued in August 2018. The Notes were priced at 100.50% of par value, plus accrued interest from February 15, 2019.

The Notes will be convertible into shares of the Company’s common stock based on an initial conversion rate of 65.8762 shares of the Company’s common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$15.18 per share of common stock, representing a 7.3% conversion premium over the last reported sale price of the Company’s common stock on June 4, 2019, which was \$14.15 per share. The conversion price for the Notes will not be reduced for quarterly cash dividends paid to holders of the Company’s common stock at or below the rate of \$0.34 per share, subject to anti-dilution and other adjustments.

The Notes will mature on August 15, 2023, unless earlier converted, repurchased, or redeemed in accordance with their terms. Interest on the Notes will be payable semi-annually in arrears on February 15 and August 15 of each year, commencing on August 15, 2019. The Notes will be general unsecured obligations of the Company, rank equally in right of payment with the Company’s existing and future senior unsecured debt, and rank senior in right of payment to any potential subordinated debt, should any be issued in the future.

The Company intends to use the net proceeds from the sale of the Notes to repay outstanding indebtedness under its credit facilities. However, through re-borrowing under such credit facilities, the Company intends to make new investments in accordance with its investment objective and strategies and use available capital for other general corporate purposes, including working capital requirements. The Notes have no restrictions related to the type and security of assets in which the Company might invest.

Morgan Stanley & Co. LLC and Wells Fargo Securities, LLC are serving as joint-lead

bookrunners for the offering.

Investors are advised to carefully consider the investment objectives, risks and charges and expenses of the Company before investing.
