We believe that the strength of the Company's unique investment strategy – which focuses on middle market defensive growth companies that are well researched by New Mountain Capital, L.L.C. ("New Mountain"), a leading alternative investment firm, is underscored by continued stable credit performance. The Company has had only eight portfolio companies, representing approximately \$125 million of the cost of all investments made since inception in October 2008, or approximately 1.8% of \$6.9 billion, go on non-accrual.

Robert A. Hamwee, CEO, commented: "The second quarter represented another solid quarter of performance for NMFC. We originated \$183 million of investments and once again had no new investments placed on non-accrual. Additionally, we anticipate an active third quarter of originations, allowing us to remain fully invested after our recent equity raise."

"We are very pleased with the completion of another successful quarter," added Steven B. Klinsky, NMFC Chairman. "We believe New Mountain's strategy of focusing on "defensive growth" industries and on companies that we know well continues to prove to be a successful strategy. We believe one of our keys to success is the strength of the team and we continue to build the team over time, now at over 150 employees."

Portfolio and Investment Activity¹

As of June 30, 2019, the Company's NAV was approximately \$1,080.9 million and its portfolio had a fair value of approximately \$2,666.6 million in 102 portfolio companies, with a weighted average YTM at Cost² of approximately 9.4%. For the three months ended June 30, 2019, the Company made approximately \$183.3 million of originations and commitments³. The \$183.3 million includes approximately \$97.7 million of investments in seven new portfolio companies and approximately \$85.6 million of follow-on investments in fifteen portfolio companies held as of March 31, 2019. For the three months ended June 30, 2019, the Company had cash repayments³ of approximately \$68.4 million.

Consolidated Results of Operations

The Company's total investment income for the three months ended June 30, 2019 and 2018 was approximately \$66.5 million and \$54.6 million, respectively.

The Company's total net expenses, after income tax expense, for the three months ended June 30, 2019 and 2018 were approximately \$38.6 million and \$28.8 million, respectively. Total net expenses, after income tax expense, for the three months ended June 30, 2019 and 2018 consisted of approximately \$20.8 million and \$12.8 million, respectively, of costs associated with the Company's borrowings and approximately \$15.8 million and \$14.2 million, respectively, in net management and incentive fees. Since the Company's initial public offering ("IPO"), the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. credit facility (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with and into the New Mountain Finance Holdings, L.L.C. credit facility (the "Holdings Credit Facility") on December 18, 2014. Post credit facility merger and to be consistent with the methodology since the IPO, New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser") will continue to waive management fees on the leverage associated with those assets held under revolving credit facilities that share the same underlying yield characteristics with investments that were leveraged under the legacy SLF Credit Facility, which as of June 30, 2019 and 2018 totaled approximately \$658.5 million and \$360.3 million, respectively. For the three months ended June 30, 2019 and 2018 management fees waived were approximately \$2.9 million and \$1.5 million, respectively. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the three months ended June 30, 2019 and 2018 were approximately \$2.0 million and \$1.8 million, respectively.

For the three months ended June 30, 2019 and 2018, the Company recorded approximately \$4.1 million and \$2.6 million of net realized and unrealized losses.

Liquidity and Capital Resources

As of June 30, 2019, the Company had cash and cash equivalents of approximately \$87.2 million and total statutory debt outstanding of approximately \$1,439.0 million⁴, which consisted of approximately \$549.1 million of the \$720.0 million of total availability on the

Holdings Credit Facility, \$135.0 million of the \$135.0 million of total availability on the Company's senior secured revolving credit facility (the "NMFC Credit Facility"), \$100.0 million of the \$150.0 million of total availability on the Company's secured revolving credit facility (the "DB Credit Facility"), \$0 of the \$30.0 million of total availability on the senior secured revolving credit facility (the "NMNLC Credit Facility"), \$201.6 million⁵ of convertible notes outstanding and \$453.3 million of unsecured notes outstanding. Additionally, the Company had \$165.0 million of SBA-guaranteed debentures outstanding as of June 30, 2019.

Portfolio and Asset Quality

The Company puts its largest emphasis on risk control and credit performance. On a quarterly basis, or more frequently if deemed necessary, the Company formally rates each portfolio investment on a scale of one to four. Each investment is assigned an initial rating of a "2" under the assumption that the investment is performing materially in-line with expectations. Any investment performing materially below our expectations, where the risk of loss has materially increased since the original investment, would be downgraded from the "2" rating to a "3" or a "4" rating, based on the deterioration of the investment. An investment rating of a "4" could be moved to non-accrual status and the final development could be an actual realization of a loss through a restructuring or impaired sale.

As of June 30, 2019, all investments in our portfolio had an investment rating of "1" or "2" with the exception of one portfolio company that had an investment rating of "4". The Company's investment in this portfolio company had an aggregate cost basis of approximately \$1.5 million and an aggregate fair value of approximately less than \$0.1 million.

Recent Developments

The Company had approximately \$241.4 million of originations and commitments³ since the end of the second quarter through August 2, 2019. This was offset by approximately \$0.4 million of repayments³ during the same period.

On July 11, 2019, the Company completed a public offering of 6,900,000 shares of the Company's common stock at a public offering price of \$13.68 per share. The Company's Investment Adviser paid a \$0.39 per share portion of the \$0.42 per share underwriters' sales load such that the Company received net proceeds of \$13.65 per share in this offering. All payments made by the Company's Investment Adviser are not subject to reimbursement by the Company. The Company received total net proceeds of approximately \$94.2 million in connection with this offering.

Due to the untimely death of Kurt J. Wolfgruber on June 17, 2019, as of June 30, 2019, the Company's board of directors does not consist of a majority of non-interested persons, as such term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act"). However, in accordance with Section 56(b) of the 1940 Act, the requirement to have a majority of non-interested persons on the Company's board of directors is suspended for 90 days. The Company is actively searching for a new non-interested person to add to the Company's board of directors and expects to have a board of directors that consists of a majority of non-interested persons within the time period prescribed by the 1940 Act. Moreover, Rome G. Arnold replaced Mr. Wolfgruber as the chairman of the Company's audit committee.

On August 1, 2019, the Company's board of directors declared a third quarter 2019 distribution of \$0.34 per share payable on September 27, 2019 to holders of record as of September 13, 2019.

Conference Call

ABOUT NEW MOUNTAIN FINANCE CORPORATION

New Mountain Finance Corporation is a closed-end, non-diversified and externally managed investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The Company's first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent it invests in the "last out" tranche. In some cases, the investments may also include small equity interests. The Company's investment activities are managed by its Investment Adviser, New Mountain Finance Advisers BDC, L.L.C., which is an investment adviser registered under the Investment Advisers Act of 1940, as amended. More information about New Mountain Finance Corporation can be found on the Company's website at http://www.newmountainfinance.com.
