We believe that the strength of the Company's unique investment strategy – which focuses

on middle market defensive growth companies that are well researched by New Mountain Capital, L.L.C. (“New Mountain”), a leading alternative investment firm, is underscored by continued stable credit performance. The Company has had only ten portfolio companies, representing approximately \$220 million of the cost of all investments made since inception in October 2008, or approximately 2.8% of \$7.9 billion, go on non-accrual.

Robert A. Hamwee, CEO, commented: “Our portfolio continues to perform well, and despite an increasingly challenging COVID environment, we expect that to continue. The combination of generally improving portfolio operating metrics and a better market environment for risk assets drove a further recovery in our book value.”

“We believe New Mountain’s strategy of focusing on 'defensive growth' industries and on companies that we know well continues to prove to be a successful strategy, especially during the current crisis”, added Steven B. Klinsky, NMFC Chairman. “We believe one of our keys to success is the strength of the team and we continue to build the team over time, now at approximately 180 employees.”

Portfolio and Investment Activity¹

As of September 30, 2020, the Company's NAV was approximately \$1,184.8 million and its portfolio had a fair value of approximately \$2,918.0 million in 106 portfolio companies, with a weighted average YTM at Cost² of approximately 8.6%. For the three months ended September 30, 2020, the Company generated approximately \$43.4 million of originations, including commitments³ for follow-on investments in thirteen portfolio companies held as of June 30, 2020. For the three months ended September 30, 2020, the Company had \$7.5 million of asset sales and cash repayments³ of approximately \$35.1 million.

Consolidated Results of Operations

The Company's total investment income for the three months ended September 30, 2020 and 2019 was approximately \$65.3 million⁴ and \$72.6 million, respectively.

The Company's total net expenses, after income tax expense, for the three months ended September 30, 2020 and 2019 were approximately \$36.5 million and \$41.4 million, respectively. Total net expenses, after income tax expense, for the three months ended September 30, 2020 and 2019 consisted of approximately \$18.1 million and \$21.8 million, respectively, of costs associated with the Company's borrowings and approximately \$16.7 million and \$17.3 million, respectively, in net management and incentive fees. Since the Company's initial public offering ("IPO"), the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. credit facility (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with and into the New Mountain Finance Holdings, L.L.C. credit facility (the "Holdings Credit Facility") on December 18, 2014. Post credit facility merger and to be consistent with the methodology since the IPO, New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser") will continue to waive management fees on the leverage associated with those assets held under revolving credit facilities that share the same underlying yield characteristics with investments that were leveraged under the legacy SLF Credit Facility, which as of September 30, 2020 and 2019 totaled approximately \$634.1 million and \$777.6 million, respectively. For the three months ended September 30, 2020 and 2019 management fees waived were approximately \$2.8 million and \$3.1 million, respectively. For the three months ended September 30, 2020 and 2019, incentive fees waived were approximately \$0.5 million and \$0, respectively. The Investment Adviser cannot recoup management fees and incentive fees that the Investment Adviser has previously waived. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the three months ended September 30, 2020 and 2019 were approximately \$1.7 million and \$2.3 million, respectively.

For the three months ended September 30, 2020 and 2019, the Company recorded approximately \$59.4 million⁵ and (\$7.8) million, respectively, of net realized and unrealized gains (losses).

Liquidity and Capital Resources

As of September 30, 2020, the Company had cash and cash equivalents of approximately

\$68.7 million and total statutory debt outstanding of approximately \$1,506.5 million⁶, which consisted of approximately \$459.2 million of the \$745.0 million of total availability on the Holdings Credit Facility, \$150.5 million of the \$188.5 million of total availability on the Company's senior secured revolving credit facility (the "NMFC Credit Facility"), \$242.0 million of the \$280.0 million of total availability on the Company's secured revolving credit facility (the "DB Credit Facility"), \$0 of the \$50.0 million of total availability on the uncommitted revolving loan agreement (the "Unsecured Management Company Revolver"), \$201.5 million⁷ of convertible notes outstanding and \$453.3 million of unsecured notes outstanding. Additionally, the Company had \$300.0 million of SBA-guaranteed debentures outstanding as of September 30, 2020.

Portfolio and Asset Quality¹

The Company puts its largest emphasis on risk control and credit performance. On a quarterly basis, or more frequently if deemed necessary, the Company formally rates each portfolio investment on a scale of one to four. Each investment is assigned an initial rating of a "2" under the assumption that the investment is performing materially in-line with expectations. Any investment performing materially below our expectations, where the risk of loss has materially increased since the original investment, would be downgraded from the "2" rating to a "3" or a "4" rating, based on the deterioration of the investment. An investment rating of a "4" could be moved to non-accrual status and the final development could be an actual realization of a loss through a restructuring or impaired sale.

As of September 30, 2020, eight portfolio companies had an investment rating of "3" and six portfolio companies had an investment rating of "4". The Company's investments in the portfolio companies with an investment rating of "3" had an aggregate cost basis of approximately \$216.5 million and an aggregate fair value of approximately \$174.4 million. The Company's investment in portfolio companies with an investment rating of "4" had an aggregate cost basis of approximately \$154.4 million and an aggregate fair value of approximately \$86.1 million.

Recent Developments

On October 28, 2020, the Company's board of directors declared a fourth quarter 2020 distribution of \$0.30 per share payable on December 30, 2020 to holders of record as of December 16, 2020.

-
- 1 Includes collateral for securities purchased under collateralized agreements to resell.
 - 2 References to "YTM at Cost" assume the accruing investments, including secured collateralized agreements, in our portfolio as of a certain date, the "Portfolio Date", are purchased at cost on that date and held until their respective maturities with no prepayments or losses and are exited at par at maturity. This calculation excludes the impact of existing leverage. YTM at Cost uses the LIBOR curves at each quarter's respective end date. The actual yield to maturity may be higher or lower due to the future selection of LIBOR contracts by the individual companies in the Company's portfolio or other factors.
 - 3 Excludes revolving credit facilities, netbacks, payment-in-kind ("PIK") interest, bridge loans, return of capital and realized gains / losses.
 - 4 Excludes \$0.3 million of NII related to non-controlling interests in NMNLC.
 - 5 Excludes \$1.1 million of net unrealized loss related to non-controlling interests in NMNLC.
 - 6 Excludes the Company's United States ("U.S.") Small Business Administration ("SBA")-guaranteed debentures.
 - 7 Includes premium received on additional convertible notes issued in June 2019.

ABOUT NEW MOUNTAIN FINANCE CORPORATION

New Mountain Finance Corporation is a closed-end, non-diversified and externally managed investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The Company's first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent it invests in the "last out" tranche. In some cases, the investments may also include small equity interests. The Company's investment activities are managed by its Investment Adviser, New Mountain Finance Advisers BDC, L.L.C., which is an investment adviser registered under the Investment Advisers Act of 1940, as amended. More information about New Mountain Finance Corporation can be found on the Company's website at <http://www.newmountainfinance.com>.

ABOUT NEW MOUNTAIN CAPITAL
