Portfolio and Asset Quality¹

The Company monitors the performance and financial trends of its portfolio companies on at least a quarterly basis. The Company attempts to identify any developments within the portfolio company, the industry or the macroeconomic environment that may alter any material element of the Company’s original investment strategy. As described more fully in the Company’s Quarterly Report on Form 10-Q filed with the U.S. Securities and Exchange Commission, the portfolio monitoring procedures are designed to provide a simple, yet comprehensive analysis of the Company’s portfolio companies based on their operating performance and underlying business characteristics, which in turn forms the basis of its Risk Rating. The Risk Rating is expressed in categories of Red, Orange, Yellow and Green, with Red reflecting an investment performing materially below expectations and Green reflecting an investment that is in-line with or above expectations.

The following table shows the Risk Rating of the Company’s portfolio companies as of June 30, 2023:

(in millions) Risk Rating	As of June 30, 2023
