Cadeler strengthens Senior Management team with three key profiles

Cadeler A/S has added three key profiles to its Senior Management team to facilitate the growth of the company and prepare for busy times ahead.

Cadeler has strengthened its Senior Management team with three key profiles, growing from four to seven members. The reason for this strategic move is to expand the range of different competencies in the Senior Management team, while positioning the organisation for growth in the years to come.

The new members include Pernille Korsager who joined the company in May 2022 as the company's General Counsel (GC); Carina Cappelen who joined as Chief People & Culture Officer (CPCO) this November; and Peter Kragh Jacobsen who was promoted to Chief Technical Officer (CTO) in July 2022.

Mikkel Gleerup, CEO of Cadeler comments: "Our ability to remain successful comes down to the skills and capacities of our people. Our new Senior Management members will add valuable knowledge and experience to the team, making sure we are well prepared as demand for our services continues to be strong."

New Senior Management profiles

Pernille Korsager joins the Senior Management team in Cadeler as General Counsel (GC)

Pernille Korsager joined Cadeler in May 2022 as General Counsel. She comes from a position as Chief Legal Counsel with Maersk Drilling A/S and has had a long career in senior legal positions with a broad portfolio of skills in corporate and commercial law. She brings along a profound experience with S&P transactions, international M&A, special projects, funding, corporate and commercial matters, drafting and negotiation of contracts, project and legal risk management and much more.

Carina Cappelen joins the Senior Management team in Cadeler as Chief People & Culture Officer (CPCO)

Carina Cappelen has joined the company 1 November 2022 as CPCO and will be part of the Senior Management team. Carina brings more than 10 years of relevant experience from a fast-paced career in global shipping companies and holds a well-equipped HR toolbox and a solid track record of building organisations, teams and working culture from scratch. She comes from a role as Head of People and Culture in Maersk Mc-Kinney Møller Center for Zero Carbon Shipping.

Peter Kragh Jacobsen joins the Senior Management team in Cadeler as Chief Technical Officer (CTO)

Peter Kragh Jacobsen joined the company in September 2021 as responsible for leading the company's newbuild vessel program. He was since promoted to Chief Technical Officer and part of the Senior Management team. Peter has a long career within the Maersk organisation where he functioned as Chief Technical Officer and Head of Projects and Newbuildings.
