Summary Full Year 2020 Guidance (in billions)

	2020
Consolidated Adjusted EBITDA ²	\$ 3.8 - \$ 4.1
Distributable Cash Flow ²	\$ 1.0 - \$ 1.3

Recent Highlights

Strategic

- In November 2019, we received approval from the U.S. Federal Energy Regulatory Commission (“FERC”) to site, construct and operate the Corpus Christi Stage 3 project, which is being developed for up to seven midscale liquefaction Trains with an expected aggregate nominal production capacity of approximately 10 million tonnes per annum (“mtpa”) of LNG.

Operational

- As of February 21, 2020, over 1,000 cumulative LNG cargoes totaling over 70 million tonnes of LNG have been produced, loaded and exported from our liquefaction

projects.

Financial

- For the year ended December 31, 2019, we reported net income¹ of \$648 million, Consolidated Adjusted EBITDA² of \$2.95 billion, and Distributable Cash Flow² of approximately \$780 million.
- During the year ended December 31, 2019, pursuant to our capital allocation framework, we repurchased an aggregate of 4.0 million shares of our common stock for \$249 million under our share repurchase program and prepaid \$153 million of outstanding borrowings under the Cheniere Corpus Christi Holdings, LLC (“CCH”) credit facility.
- In October 2019, CCH issued an aggregate principal amount of \$475 million of 3.925% Senior Secured Notes due 2039 pursuant to a note purchase agreement with certain accounts managed by BlackRock Real Assets and MetLife Investment Management, to prepay a portion of the outstanding indebtedness under the CCH credit facility.
- In November 2019, CCH issued an aggregate principal amount of \$1.5 billion of 3.700% Senior Secured Notes due 2029, to prepay a portion of the outstanding indebtedness under the CCH credit facility.

Liquefaction Projects Update

Liquefaction Train	SPL Project Train 6	CCL Project Train 3
Project Status	Under Construction	Under Construction
Project Completion Percentage ⁽¹⁾	43.7% ⁽²⁾	74.8% ⁽³⁾
Expected Substantial Completion	1H 2023	1H 2021

Note: Projects update excludes Trains in operation

(1) Project completion percentages as of December 31, 2019

(2) Engineering 91.5% complete, procurement 60.9% complete, and construction 9.7% complete

(3) Engineering 98.7% complete, procurement 99.5% complete, and construction 49.5% complete

Cheniere Energy, Inc. (“Cheniere”) (NYSE American: LNG) reported net income¹ of \$939 million, or \$3.70 per share—basic and \$3.34 per share—diluted, for the three months ended December 31, 2019, compared to \$67 million, or \$0.26 per share (basic and diluted), for the comparable 2018 period. Net income increased during the three months ended December 31, 2019 as compared to the comparable 2018 period primarily due to (i) increased total margins³, (ii) increased tax benefit from the release of a significant portion of the valuation allowance previously recorded against our deferred tax assets, and (iii) increased net gains related to interest rate derivatives, partially offset by (iv) increased operating costs and expenses primarily as a result of additional Trains in operation, (v) increased interest expense, and (vi) increased net income attributable to non-controlling interest. Total margins increased primarily due to increased volumes of LNG recognized in income and increased net gains from changes in fair value of commodity derivatives. Margins per MMBtu of LNG recognized in income were materially consistent for the three months ended December 31, 2019 as compared to the comparable 2018 period as decreased pricing on LNG was offset by decreased pricing of natural gas feedstock related to our LNG sales.

Cheniere reported net income of \$648 million, or \$2.53 per share—basic and \$2.51 per share—diluted for the year ended December 31, 2019, compared to \$471 million, or \$1.92 per share—basic and \$1.90 per share—diluted, for the comparable 2018 period. Net income increased during the year ended December 31, 2019 as compared to the comparable 2018 period primarily due to (i) increased total margins, (ii) increased tax benefit from the release of a significant portion of the valuation allowance previously recorded against our deferred tax assets, and (iii) decreased net income attributable to non-controlling interest, partially offset by (iv) increased operating costs and expenses primarily as a result of additional Trains in operation and certain maintenance and related activities at the SPL Project, (v) increased interest expense, (vi) increased net loss related to interest rate derivatives, and (vii) increased other expense primarily related to an impairment of our equity method investment in Midship Holdings, LLC. Total margins increased primarily due to increased volumes of LNG recognized in income and net gains from changes in fair value of commodity derivatives, partially offset by decreased margins per MMBtu of LNG recognized in income. Margins per MMBtu of LNG recognized in income decreased during the year ended December 31, 2019 as compared to the comparable 2018 period primarily due to decreased pricing on LNG sold, partially offset by decreased pricing of natural gas feedstock related to our LNG sales.

Consolidated Adjusted EBITDA² was \$987 million for the three months ended December 31, 2019, compared to \$634 million for the comparable 2018 period. The increase in Consolidated Adjusted EBITDA was primarily due to additional volumes of LNG recognized in income primarily due to additional Trains in operation, partially offset by increased operating costs and expenses primarily as a result of additional Trains in operation.

Consolidated Adjusted EBITDA was \$2.95 billion for the year ended December 31, 2019, compared to \$2.64 billion for the comparable 2018 period. The increase in Consolidated Adjusted EBITDA was primarily due to additional volumes of LNG recognized in income primarily due to additional Trains in operation, partially offset by decreased margins per MMBtu of LNG recognized in income and increased operating costs and expenses primarily as a result of additional Trains in operation and certain maintenance and related activities at the SPL Project.

During the three months ended December 31, 2019, 130 LNG cargoes were exported from our liquefaction projects, none of which were commissioning cargoes. During the year ended December 31, 2019, 429 LNG cargoes were exported from our liquefaction projects, 13 of which were commissioning cargoes. Nine cargoes exported from our liquefaction projects and sold on a delivered basis were in transit as of December 31, 2019, none of which were commissioning cargoes.

“2019 was an incredible year for Cheniere as we achieved significant milestones in securing our growth, exhibiting execution and operating excellence, demonstrating capital discipline, and further solidifying our position as a global leader in LNG,” said Jack Fusco, Cheniere’s President and Chief Executive Officer. “2019 was highlighted by reaching a positive final investment decision (FID) on Train 6 at Sabine Pass, achieving major commercial and regulatory milestones for the Corpus Christi Stage 3 project, launching our capital allocation plan, and placing three Trains into service within budget and on average more than nine months ahead of schedule.

“We managed our operations effectively and delivered financial results within our guidance ranges for the year. Our focus on execution and operational excellence enabled us to increase our run-rate LNG production and financial guidance. We are laser-focused on delivering on our promises to our customers and stakeholders in 2020, despite some short-term LNG market headwinds. Today, we are reconfirming our 2020 guidance of Consolidated Adjusted EBITDA of \$3.8 to \$4.1 billion, and Distributable Cash Flow of \$1.0 to \$1.3 billion.”

LNG Volume Summary

The following table summarizes the volumes of operational and commissioning LNG that were loaded from our liquefaction projects and for which the financial impact was recognized on our Consolidated Financial Statements during the three and twelve months ended December 31, 2019:

<i>(in TBtu)</i>	Three Months Ended December 31, 2019		Year Ended December 31, 2019	
	Operational	Commissioning	Operational	Commissioning
Volumes loaded during the current period	457	—	1,466	48
Volumes loaded during the prior period but recognized during the current period	36	—	25	3
Less: volumes loaded during the current period and in transit at the end of the period	(33)	—	(33)	—
Total volumes recognized in the current period	<u>460</u>	<u>—</u>	<u>1,458</u>	<u>51</u>

In addition, during the three and twelve months ended December 31, 2019, we recognized the financial impact of 9 TBtu and 40 TBtu of LNG, respectively, on our Consolidated Financial Statements related to LNG cargoes sourced from third parties.

Additional Discussion and Analysis of Financial Condition and Results

Details Regarding Fourth Quarter and Full Year 2019 Results

Our financial results are reported on a consolidated basis. Our ownership interest in Cheniere Energy Partners, L.P. (“Cheniere Partners”) (NYSE American: CQP) as of December 31, 2019 consisted of 100% ownership of the general partner and a 48.6% limited partner interest.

Income from operations increased \$500 million and \$337 million during the three and twelve months ended December 31, 2019, respectively, as compared to the comparable 2018 periods, primarily due to an increase in total margins, partially offset by an increase in operating costs and expenses. Total margins for the three and twelve months ended December 31, 2019 increased primarily due to additional volumes of LNG recognized in income primarily due to additional Trains in operation and increased net gain from changes

in fair value of commodity derivatives. During the twelve months ended December 31, 2019, this increase was partially offset by decreased margin per MMBtu of LNG recognized in income primarily as a result of decreased pricing on LNG sold, partially offset by decreased cost of natural gas feedstock related to our LNG sales. Operating costs and expenses for the three months ended December 31, 2019 increased primarily as a result of additional Trains in operation. Operating costs and expenses for the twelve months ended December 31, 2019 increased primarily as a result of additional Trains in operation and certain maintenance and related activities at the SPL Project.

Selling, general and administrative expense included share-based compensation expenses of \$26 million and \$91 million, respectively, for the three and twelve months ended December 31, 2019, compared to \$16 million and \$74 million for the comparable 2018 periods.

The tax benefit of \$517 million for the three and twelve months ended December 31, 2019 is primarily attributable to releasing a significant portion of the valuation allowance previously recorded against our federal and state deferred tax assets and the generation of investment tax credits in the current year, partially offset by current year tax expense.

Net income attributable to non-controlling interest increased \$58 million during the three months ended December 31, 2019 as compared to the comparable 2018 period due to the increase in net income recognized by Cheniere Partners, in which the non-controlling interests are held. Net income attributable to non-controlling interest decreased \$145 million during the year ended December 31, 2019 as compared to the comparable 2018 period primarily due to the decrease of non-controlling interest as a result of our merger with Cheniere Energy Partners LP Holdings, LLC in September 2018 and decreased net income recognized by Cheniere Partners, in which the non-controlling interests are held.

Capital Resources

As of December 31, 2019, we had cash and cash equivalents of \$2.5 billion on a consolidated basis, of which \$1.8 billion was held by Cheniere Partners. In addition, we had current restricted cash of \$520 million designated for the following purposes: \$181 million for the SPL Project, \$80 million for the CCL Project and \$259 million for other restricted purposes.

Liquefaction Projects

SPL Project

Through Cheniere Partners, we are currently operating five natural gas liquefaction Trains and constructing one additional Train for a total production capacity of approximately 30 mtpa of LNG at the Sabine Pass LNG terminal (the "SPL Project").

CCL Project

We are currently operating two Trains and constructing one additional Train for a total production capacity of approximately 15 mtpa of LNG near Corpus Christi, Texas (the "CCL Project").

Corpus Christi Stage 3

We are developing an expansion adjacent to the CCL Project for up to seven midscale Trains with an expected total production capacity of approximately 10 mtpa of LNG (“Corpus Christi Stage 3”). We expect to commence construction of the Corpus Christi Stage 3 project upon entering into an engineering, procurement, and construction contract and additional commercial agreements, and obtaining adequate financing.

Investor Conference Call and Webcast

We will host a conference call to discuss our financial and operating results for the fourth quarter and full year 2019 on Tuesday, February 25, 2020, at 10 a.m. Eastern time / 9 a.m. Central time. A listen-only webcast of the call and an accompanying slide presentation may be accessed through our website at www.cheniere.com. Following the call, an archived recording will be made available on our website.

-
- (1) Net income as used herein refers to Net income attributable to common stockholders on our Consolidated Statements of Operations.
 - (2) Non-GAAP financial measure. See “Reconciliation of Non-GAAP Measures” for further details.
 - (3) Total margins as used herein refers to total revenues less cost of sales.

About Cheniere

Cheniere Energy, Inc. is the leading producer and exporter of liquefied natural gas (LNG) in the United States, reliably providing a clean, secure, and affordable solution to the growing global need for natural gas. Cheniere is a full-service LNG provider, with capabilities that include gas procurement and transportation, liquefaction, vessel chartering, and LNG delivery. Cheniere has one of the largest liquefaction platforms in the world, consisting of the Sabine Pass and Corpus Christi liquefaction facilities on the U.S. Gulf Coast, with expected adjusted aggregate nominal production capacity of up to 45 million tonnes per annum of LNG operating or under construction. Cheniere is also pursuing liquefaction expansion opportunities and other projects along the LNG value chain. Cheniere is headquartered in Houston, Texas, and has additional offices in London, Singapore, Beijing, Tokyo, and Washington, D.C.

For additional information, please refer to the Cheniere website at www.cheniere.com and Annual Report on Form 10-K for the year ended December 31, 2019, filed with the Securities and Exchange Commission.

Forward-Looking Statements

This press release contains certain statements that may include “forward-looking statements” within the meanings of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical or present facts or conditions, included herein are “forward-looking statements.” Included among “forward-looking statements” are, among other things, (i) statements regarding Cheniere’s financial and operational guidance, business strategy, plans and objectives, including the development, construction and operation of liquefaction facilities, (ii) statements regarding expectations regarding regulatory authorizations and approvals, (iii)

statements expressing beliefs and expectations regarding the development of Cheniere's LNG terminal and pipeline businesses, including liquefaction facilities, (iv) statements regarding the business operations and prospects of third parties, (v) statements regarding potential financing arrangements, (vi) statements regarding future discussions and entry into contracts, and (vii) statements relating to the amount and timing of share repurchases. Although Cheniere believes that the expectations reflected in these forward-looking statements are reasonable, they do involve assumptions, risks and uncertainties, and these expectations may prove to be incorrect. Cheniere's actual results could differ materially from those anticipated in these forward-looking statements as a result of a variety of factors, including those discussed in Cheniere's periodic reports that are filed with and available from the Securities and Exchange Commission. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this press release. Other than as required under the securities laws, Cheniere does not assume a duty to update these forward-looking statements.

Reconciliation of Non-GAAP Measures

Regulation G Reconciliations

In addition to disclosing financial results in accordance with U.S. GAAP, the accompanying news release contains non-GAAP financial measures. Consolidated Adjusted EBITDA and Distributable Cash Flow are non-GAAP financial measures that we use to facilitate comparisons of operating performance across periods. These non-GAAP measures should be viewed as a supplement to and not a substitute for our U.S. GAAP measures of performance and the financial results calculated in accordance with U.S. GAAP and reconciliations from these results should be carefully evaluated.

Consolidated Adjusted EBITDA represents net income attributable to Cheniere before net income attributable to non-controlling interest, interest, taxes, depreciation and amortization, adjusted for certain non-cash items, other non-operating income or expense items, and other items not otherwise predictive or indicative of ongoing operating performance, as detailed in the following reconciliation. Consolidated Adjusted EBITDA is not intended to represent cash flows from operations or net income as defined by U.S. GAAP and is not necessarily comparable to similarly titled measures reported by other companies.

We believe Consolidated Adjusted EBITDA provides relevant and useful information to management, investors and other users of our financial information in evaluating the effectiveness of our operating performance in a manner that is consistent with management's evaluation of business performance. We believe Consolidated Adjusted EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization which vary substantially from company to company depending on capital structure, the method by which assets were acquired and depreciation policies. Further, the exclusion of certain non-cash items, other non-operating income or expense items, and items not otherwise predictive or indicative of ongoing operating performance enables comparability to prior period performance and trend analysis.

Consolidated Adjusted EBITDA is calculated by taking net income attributable to common stockholders before net income attributable to non-controlling interest, interest expense, net of capitalized interest, changes in the fair value and settlement of our interest rate

derivatives, taxes, depreciation and amortization, and adjusting for the effects of certain non-cash items, other non-operating income or expense items, and other items not otherwise predictive or indicative of ongoing operating performance, including the effects of modification or extinguishment of debt, impairment expense and loss on disposal of assets, changes in the fair value of our commodity and FX derivatives and non-cash compensation expense. We believe the exclusion of these items enables investors and other users of our financial information to assess our sequential and year-over-year performance and operating trends on a more comparable basis and is consistent with management's own evaluation of performance.

Distributable Cash Flow is defined as cash received, or expected to be received, from Cheniere's ownership and interests in Cheniere Partners, cash received (used) by Cheniere's integrated marketing function (other than cash for capital expenditures) less interest, taxes and maintenance capital expenditures associated with Cheniere and not the underlying entities. Management uses this measure and believes it provides users of our financial statements a useful measure reflective of our business's ability to generate cash earnings to supplement the comparable GAAP measure.

We believe Distributable Cash Flow is a useful performance measure for management, investors and other users of our financial information to evaluate our performance and to measure and estimate the ability of our assets to generate cash earnings after servicing our debt, paying cash taxes and expending sustaining capital, that could be used for discretionary purposes such as common stock dividends, stock repurchases, retirement of debt, or expansion capital expenditures. Management uses this measure and believes it provides users of our financial statements a useful measure reflective of our business's ability to generate cash earnings to supplement the comparable GAAP measure. Distributable Cash Flow is not intended to represent cash flows from operations or net income as defined by U.S. GAAP and is not necessarily comparable to similarly titled measures reported by other companies.

Non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or in lieu of an analysis of our results as reported under GAAP and should be evaluated only on a supplementary basis.

Consolidated Adjusted EBITDA

The following table reconciles our Consolidated Adjusted EBITDA to U.S. GAAP results for the three and twelve months ended December 31, 2019 and 2018 (in millions):

	Three Months Ended December 31,		Year Ended December 31,	
	2019	2018	2019	2018
Net income attributable to common stockholders	\$ 939	\$ 67	\$ 648	\$ 471
Net income attributable to non-controlling interest	214	156	584	729
Income tax provision (benefit)	(517)	12	(517)	27
Interest expense, net of capitalized interest	418	222	1,432	875

Loss on modification or extinguishment of debt	28	—	55	27

Other expense (income)	(13)	(16)	25	(48)
Income from operations	<u>\$1,016</u>	<u>\$ 516</u>	<u>\$2,361</u>	<u>\$2,024</u>
Adjustments to reconcile income from operations to Consolidated Adjusted EBITDA:				
Depreciation and amortization expense	233	116	794	449
Loss (gain) from changes in fair value of commodity and FX derivatives, net	(314)	(19)	(355)	77
Total non-cash compensation expense	36	21	123	76
Impairment expense and loss on disposal of assets	16	—	23	8
Legal settlement expense	—	—	—	7
Consolidated Adjusted EBITDA	<u>\$ 987</u>	<u>\$ 634</u>	<u>\$2,946</u>	<u>\$2,641</u>

Consolidated Adjusted EBITDA and Distributable Cash Flow

The following table reconciles our actual Consolidated Adjusted EBITDA and Distributable Cash Flow to Net income attributable to common stockholders for the three and twelve months ended December 31, 2019 and forecast amounts for full year 2020 (in billions):

	Three Months Ended December 31, 2019	Year Ended December 31, 2019	Full Year 2020
Net income attributable to common stockholders	\$ 0.94	\$ 0.65	\$ 0.2 - \$ 0.5
Net income attributable to non-controlling interest	0.21	0.58	0.7 - 0.8
Income tax provision (benefit)	(0.52)	(0.52)	0.1 - 0.2
Interest expense, net of capitalized interest	0.42	1.43	1.6
Depreciation and amortization expense	0.23	0.79	0.9
Other expense, financing costs, and certain non-cash operating expenses	(0.30)	0.01	0.3 - 0.1
Consolidated Adjusted EBITDA	<u>\$ 0.99</u>	<u>\$ 2.95</u>	<u>\$ 3.8 - \$ 4.1</u>
Distributions to Cheniere Partners non-controlling interest	(0.15)	(0.60)	(0.6)
SPL and Cheniere Partners cash retained and interest expense	(0.42)	(1.25)	(1.6)
Cheniere interest expense, income tax and other	(0.14)	(0.31)	(0.6)
Cheniere Distributable Cash Flow	<u>\$ 0.27</u>	<u>\$ 0.78</u>	<u>\$ 1.0 - \$ 1.3</u>

Note: Totals may not sum due to rounding.
