Inpixon Offerings Added to NASA SEWP V Government-wide Strategic Solutions (GSS) for Laptops and Monitors

PALO ALTO, Calif.--(BUSINESS WIRE)-- [Inpixon](#) (NASDAQ: INPX), a leading indoor positioning and data analytics company, today announced that subsidiary, [Inpixon Federal](#), has been approved to expand its NASA Solutions for Enterprise-Wide Procurement V (SEWP V) catalog to include offerings that meet the requirements for the Government-wide Strategic Solutions (GSS) for Laptops and Monitors. The NASA SEWP V GSS is part of the overall Federal Strategic Sourcing Initiative (FSSI) established in 2013 by the Office of Management and Budget (OMB). The framework reduces cost and increases value to over 25 federal agencies.

Under the terms of the NASA SEWP V GSS, Inpixon is offering Fujitsu laptops and Samsung monitors to Inpixon Federal's NASA SEWP V catalog.

"We are pleased to have our offerings added to our SEWP V contract," said Zaman Khan, President of Inpixon Federal. "Moreover, this program enables federal agencies to procure laptops and monitors that create value for these agencies and are available at a critical time of the last quarter before the end of the government fiscal year, ending September 30, 2017."

NASA SEWP V is a multi-award Government-Wide Acquisition Contract (GWAC) vehicle with over 140 pre-competed contract holders, of which Inpixon is a prime contractor. The contract value is \$20B over a five-year base and one five-year option starting in April of 2015.

Inpixon Federal also holds several other federal contract vehicles including GSA IT Schedule 70, NITAAC CIO-CS, FBI ITAP, Army ADMC-2, and a subcontract on the Army's EITS.

About Inpixon

Inpixon (NASDAQ: INPX) is a leader in Indoor Positioning and Data Analytics. Inpixon sensors are designed to find all accessible cellular, Wi-Fi, and Bluetooth devices anonymously. Paired with a high performance, data analytics platform this technology delivers visibility, security, and business intelligence on any commercial or government premises world-wide.
