Inpixon's Jibestream Partners with IDENTOS for Joint Sales and Marketing Efforts

Announces Successful Collaboration Project with One of Canada's Most Renowned Hospitals

PALO ALTO, Calif and TORONTO, Sept. 23, 2019 (GLOBE NEWSWIRE) -- Jibestream, an Inpixon (Nasdaq: INPX) company, and a leading indoor mapping platform provider, today announced it has signed a teaming agreement with data encryption and mobile application security development firm IDENTOS, Inc., whereby the parties will undertake joint marketing and sales initiatives.

IDENTOS is a platform-as-a-service (PaaS) provider that offers endpoint security, mobile encryption technology, and app development solutions to industries where data security is of the utmost importance. Their services aim to protect mobile data and help organizations to meet privacy and compliance obligations.

The companies are collaborating on a project with one of Canada's most renowned hospitals. The signing of this agreement lays the groundwork for the companies to continue their work together and to deliver new, highly secure, map-enabled digital applications.

"After extensive research, we found Jibestream to have the best enterprise indoor mapping offering to date," said Mike Cook President and Operating Officer of IDENTOS Inc. Canada. "Jibestream technology can be used by many of our clients, hence this is an obvious alliance for us. Especially now, as part of Inpixon's solution architecture, the opportunity to develop and deliver specific purpose-built applications for a variety of industries is even greater."

"We're excited to build upon our existing relationship with IDENTOS," commented Chris Wiegand, VP of Maps at Inpixon. "Our shared commitment to digital security, interoperability, and exceptional experiences has already manifested in improved patient security and experiences, and we look forward to furthering these outcomes across industries."

Nadir Ali, CEO of Inpixon, noted, "Our success with this first IDENTOS customer, a premier hospital, highlights the value proposition we offer customers through our joint offerings, as we accelerate our rollout within the healthcare industry and other verticals. According to a report by [Market Research Future](#), the global mobile mapping market is expected to reach \$37.4 billion by 2023, reflecting a 13.4% CAGR from 2018 to 2023. This partnership also validates our strategy of aligning ourselves with leading partners to rapidly and cost-effectively deploy our solutions across industries."

About IDENTOS

IDENTOS is a mobile cyber-tech company focused on reclaiming digital trust for citizens in a way that helps organizations interoperate and deliver digitally with far greater confidence, compliance and agility. IDENTOS clients are operators or members of complex identity systems or cloud platforms that have the need to interoperate and manage a trusted ecosystem of data and service providers.
