PHUNWARE

Phunware Launches Pandemic Response Solution on Mobile to Address COVID-19 Challenges

AUSTIN, Texas--(BUSINESS WIRE)-- Phunware, Inc. (NASDAQ: PHUN) (the "Company"), a fully-integrated enterprise cloud platform for mobile that provides products, solutions, data and services for brands worldwide, announced today the launch of Phunware's Pandemic Response Solution for mobile to address critical challenges faced by the healthcare industry due to the coronavirus (COVID-19) pandemic.

Phunware can deploy a native mobile application within days, for both iOS and Android, to support pandemic response efforts. This mobile solution for a rapid response to COVID-19 provides a unique software layer that enables healthcare organizations to access all of the features and capabilities of Phunware's Multiscreen-as-a-Service (MaaS) platform.

Phunware's Pandemic Response Solution helps healthcare organizations quickly identify, locate and engage both patients and staff by leveraging Phunware's patented Location Based Services software and Beacon Management Solution to deliver proximity, sub one-second real-time blue dot indoor positioning, navigation and wayfinding functionality across any campus or facility while simplifying and streamlining the underlying beacon deployment and management for both the facility staff and administrators alike. These mobile solutions are not only ADA compliant, addressing the needs of anyone who is visually impaired, hearing impaired or wheelchair bound, but also transition seamlessly between indoor and outdoor environments.

"We owe it to the brave men and women risking their lives in healthcare organizations all over the world to ensure they have access to the very best resources and technology to effectively respond to this pandemic," said Randall Crowder, COO of Phunware. "Our solution enables them to combat COVID-19 by seamlessly managing patients, staff and resources in real-time through a native mobile application portfolio designed to optimize the utilization of critical resources while maximizing engagement, minimizing uncertainty and improving medical outcomes."

Capabilities of Phunware's Pandemic Response Solution on mobile include, but are not limited to:

- Notify and route to designated parking facilities, test sites, treatment facilities or along specified paths by engaging patients and staff with contextual triggers, including location and time.
- Care for patients remotely and minimize patient leakage with a comprehensive telemedicine portal that includes Eligibility Checks, Co-Pay Collection, Streamlined Reimbursement, Automated Patient Workflow, Patient Notifications, Customized Clinical Protocols and EHR/PM Integration.
- Coordinate patients, staff and critical resources with express check-in, asset tracking

and real-time wayfinding.
- Track and prevent exposure by tracing and monitoring device locations, including both real-time and historical lookbacks.
- Manage and enforce social distancing and quarantine policies, including proactive and reactive messaging, reminders and notifications.
- Foster population health management and engagement through a robust patient portal.

Safe Harbor Clause and Forward-Looking Statements

This press release includes forward-looking statements. All statements other than statements of historical facts contained in this press release, including statements regarding our future results of operations and financial position, business strategy and plans, and our objectives for future operations, are forward-looking statements. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "expose," "intend," "may," "might," "opportunity," "plan," "possible," "potential," "predict," "project," "should," "will," "would" and similar expressions that convey uncertainty of future events or outcomes are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements contained in this press release are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading "Risk Factors" in our filings with the Securities and Exchange Commission (SEC), including our reports on Forms 10-K, 10-Q, 8-K and other filings that we make with the SEC from time to time. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. These risks and others described under "Risk Factors" in our SEC filings may not be exhaustive.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this press release. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this press release, those results or developments may not be indicative of results or developments in subsequent periods.
